Try Prep4sures Updated SAP C_CPI_2506 Questions For Easy and Quick Preparation

For candidates who will attend the exam, some practice is quite necessary. Our C_CPI_2506 training materials contain both

questions and answers, and you can have a quick check after practicing. C_CPI_2506 training materials cover most knowledge points for the exam, and you can have a good command of the exam if you choose us. Besides, in the process of learning, your professional ability will also be improved. We offer you free update for 365 days if you buy C_CPI_2506 Exam Dumps from us. And the latest version will be sent to your email automatically.

SAP Certified Associate - Integration Developer Sample Questions (Q60-Q65):

NEW QUESTION # 60

Which SAP Cloud Integration process event allows you to run integration flows directly after deployment?

- **A. Timer**
- B. Content Modifier
- C. Router
- D. Message Digest

Answer: A

Explanation:

A Timer event allows you to run integration flows directly after deployment. A Timer event is triggered by a predefined schedule or interval, such as every hour, every day, or every month. You can use a Timer event to initiate an integration process based on a time-based condition. Reference: Modernize Integration with SAP Integration Suite | openSAP

NEW QUESTION # 61

You use an APIKey for authentication in an HTTPS API call. In which part of the Content Modifier is the APIKey included?

- **A. Message header**
- B. Message body
- C. Attachment
- D. Exchange property

Answer: A

Explanation:

When using API Key authentication for HTTP(S) calls in SAP Integration Suite:

The API Key is typically included in the HTTP header (e.g., APIKey: <value> or x-api-key: <value>).

Message headers are configured in the Content Modifier for outbound requests.

Other options:

Attachment # Used for file handling, not authentication.

Message body # Contains payload, not credentials.

Exchange property # Used internally within the flow, not sent externally.

Thus, the API Key must be placed in the Message header.

NEW QUESTION # 62

Which of the following can you use for an XSLT mapping in an integration flow?

- A. PHP
- B. HTML
- **C. XML**
- D. JSON

Answer: C

Explanation:

XSLT (Extensible Stylesheet Language Transformations) is a language designed to transform XML documents into other XML or text formats.

In SAP Cloud Integration, XSLT mapping can only be applied when the payload is in XML format.

For JSON payloads, you would first convert JSON # XML, then apply XSLT mapping.

Other options:

HTML # Not used for XSLT mapping.
JSON # Requires conversion first, cannot be directly used.
PHP # A programming language, unrelated to mappings.

NEW QUESTION # 63

What is Representational State Transfer (REST)?

- A. A message protocol
- B. A description language for APIs
- C. An application protocol
- D. An architectural style

Answer: D

Explanation:

Representational State Transfer (REST) is an architectural style for designing web services that are based on the stateless exchange of resources. REST uses uniform and predefined methods, such as GET, POST, PUT, and DELETE, to manipulate resources identified by URIs. REST also supports different formats for data representation, such as XML, JSON, or plain text. Reference: Integration Software | SAP Integration Suite, Modernize Integration with SAP Integration Suite | openSAP

NEW QUESTION # 64

Which of the following API modeling languages can you use to describe APIs? Note: There are 2 correct answers to this question.

- A. HTML
- B. RAML
- C. CXML
- D. OpenAPI

Answer: B,D

Explanation:

In SAP API Management, supported API description languages include:

RAML (RESTful API Modeling Language)

OpenAPI Specification (OAS, formerly Swagger)

Both are industry-standard languages for modeling REST APIs.

Other options:

A). HTML # A markup language for UI, not an API modeling language.

D). CXML (Commerce XML) # A B2B procurement standard, not for API modeling.

NEW QUESTION # 65

.....

In informative level, we should be more efficient. In order to take the initiative, we need to have a strong ability to support the job search. And how to get the test C_CPI_2506 certification in a short time, which determines enough qualification certificates to test our learning ability and application level.
