

# FCP\_FMG\_AD-7.6시험합격 - FCP\_FMG\_AD-7.6인기자격증덤프자료

그 외, KoreaDumps FCP\_FMG\_AD-7.6 시험 문제집 일부가 지금은 무료입니다: <https://drive.google.com/open?id=1ogIphvup9rEQ0hrsOu-zvIP5fJMPEGus>

KoreaDumps 질문 풀은 실제시험 변화의 기반에서 스케줄에 따라 업데이트 합니다. 만일 Fortinet FCP\_FMG\_AD-7.6테스트에 어떤 변화가 생긴다면, 적응율이 항상 98% 이상을 유지 할 수 있도록 2일간의 근무일 안에 제품을 업데이트 하도록 합니다. KoreaDumps는 고객들이 테스트에 성공적으로 합격 할 수 있도록 하기 위하여 업데이트 된 버전을 구매후 서비스로 제공해드립니다. 시험에서 불합격받으셨는데 업데이트가 힘든 상황이면 덤프비용을 환불해드립니다.

## Fortinet FCP\_FMG\_AD-7.6 시험요강:

주제	소개
주제 1	<ul style="list-style-type: none"><li>• Troubleshooting</li></ul>
주제 3	<ul style="list-style-type: none"><li>• Advanced Configuration: This section of the exam measures the skills of Network Security Engineers and includes knowledge of high availability (HA), FortiGuard service configuration, and global database ADOM settings. These advanced functions help strengthen system reliability and streamline management at a larger scale.</li></ul>

주제 4	<ul style="list-style-type: none"> <li>Administration: This section of the exam measures the skills of System Administrators and covers the essential features of FortiManager. It includes the initial configuration process and the setup of administrative domains (ADOMs), ensuring smooth system management.</li> </ul>
주제 5	<ul style="list-style-type: none"> <li>Device Manager: This section of the exam measures the skills of Network Security Engineers and focuses on registering devices within ADOMs and handling device configurations. Candidates also learn how to install changes through scripts and diagnose issues using the revision history.</li> </ul>
주제 7	<ul style="list-style-type: none"> <li>Policy and Objects: This section of the exam measures the skills of System Administrators and evaluates their ability to manage policies and objects within FortiManager. It involves ADOM revisions, workspace mode, and policy imports and installations, emphasizing consistent policy control across networks.</li> </ul>

## FCP\_FMG\_AD-7.6인기자격증 덤프자료 & FCP\_FMG\_AD-7.6퍼펙트 최신 덤프모음집

IT업계에 종사하는 분이라면 국제적으로 인정받는 IT인증시험에 도전하여 자격증을 취득하셔야 합니다. KoreaDumps의 Fortinet인증 FCP\_FMG\_AD-7.6덤프는 이 시험에 참가한 IT인사들의 경험을 받은 최신 시험대비 공부 자료입니다. KoreaDumps의 Fortinet인증 FCP\_FMG\_AD-7.6덤프로 시험을 쉽게 패스하여 자격증을 취득하면 승진이나 연봉인상에 많은 편리를 가져다드립니다. 저희는 항상 여러분의 길을 지켜줄 것입니다.

### 최신 Fortinet Network Security Expert FCP\_FMG\_AD-7.6 무료샘플문제 (Q58-Q63):

#### 질문 # 58

While attempting to push a NetFlow configuration script through the FortiManager policy package: an administrator encounters an error stating that an object is unrecognized in line 4.

```
Starting log (Run on database)
config vdom
edit AGEUSR
[line 4] > config sys interface [parameter(s) invalid. detail: object unrecognized]
Failed to commit to DB, reason([line 4] > config sys interface [parameter(s) invalid. detail: object unrecognized]
```

Running script(NetFlow\_Configuration) on DB failed

What must the administrator do to successfully apply the NetFlow configuration script and avoid the object unrecognized?

- A. Run the script on the device database.
- B. Create a normalized interface on the policy layer before running the script.
- C. Make sure the user running the script has full access to the VDOM--AGEUSR.
- D. Use metadata variables if they use VDOMs in the script.

정답: A

#### 설명:

If you try to run the script in the policy package DB, you'll get an error using metadata or a normalized interface. However, if you run it at the Device DB level, the script is successful and makes the changes.

#### 질문 # 59

Refer to the exhibits.

## Firewall policies

#	Name	From	To	Source	Destination	Schedule
1	Internet	port4	port2	Internal HR_user	all	always
2	FMG Administration	port2	port6	all	all	always
3	Internal FMG access	port4	port6	all	all	always
4	FMG outside access	port6	port2	HQ-FMG-1	all	always

Installation Target	Config Status	Policy Package Status
HQ-NGFW-1	Synchronized	HQ-NGFW-1

## BR1-FGT-1 FortiTokens

Type	Serial Number	Status	User
Mobile Token	FTKMOB4A9AC5C56D	Available	*
Mobile Token	FTKMOB4AE1B8B609	Available	*

An administrator needs to push a FortiToken Mobile to assign it to HR\_user in the HQ-NGFW-1. However, when installing the policy package, they receive the following error message:

```
Copy device global objects

Vdom copy failed:
error -999 -

Copy objects for vdom root
"firewall policy", "1", id=5532, COMMIT FAIL - invalid value - prop[user fortitoken]:
Mobile FortiToken FTKMOB4A9AC5C56D used by user local HR_user could not be found at
device
"user local", "FTKMOB4A9AC5C56D", id=5586, COMMIT FAIL - invalid value - prop[user
fortitoken]: Mobile FortiToken FTKMOB4A9AC5C56D used by user local HR_user could not
be found at device
```

Why is the administrator not able to install the FortiToken on the HQ-NGFW-1 firewall?

- A. The administrator must use a metadata variable to assign the same FortiToken to multiple users in FortiManager.
- B. The administrator must use a user local meta field to assign FortiToken.
- **C. The administrator must use a valid FortiToken that exists on HQ-NGFW-1.**
- D. The administrator must use per-device mapping to assign the FortiToken to HQ-NGFW-1.

정답: C

설명:

The error occurs because the FortiToken used (FTKMOB4A9AC5C56D) must already exist and be registered on the FortiGate device HQ-NGFW-1. FortiManager cannot push or create new FortiTokens on the device; the token must be valid and present on the FortiGate before it can be assigned to a user.

## 질문 # 60

Company policy dictates that any time a change is made to a policy package on FortiManager an ADOM revision is created before the change installed, and that revision is held for a minimum of 90 days.

Over the past three months, each installed change has resulted in several unused policies and duplicate objects.

The FortiManager administrator plans to upgrade the FortiGate devices and then upgrade the FortiManager ADOM from version 7.4 to 7.6.

Which action can the administrator take to avoid slow ADOM upgrades?

- A. Find unused firmware templates, then delete them before upgrading.
- **B. Limit ADOM revisions before upgrading.**
- C. Check and repair the global configuration database before upgrading.
- D. Export firewall policies to Excel, delete them on the ADOM, then reimport them after upgrading the ADOM.

**정답: B**

**설명:**

Limiting ADOM revisions reduces the number of stored historical configurations, which helps avoid performance degradation and slow ADOM upgrades caused by a large volume of revisions.

**질문 # 61**

Which is recommended when you are managing a high volume of logs in your network?

- A. Enable advanced ADOM mode on FortiManager.
- **B. Add and manage FortiAnalyzer from FortiManager.**
- C. Forward logs from FortiAnalyzer to FortiManager daily.
- D. Store logs on FortiManager and use FortiView.

**정답: B**

**설명:**

Adding and managing FortiAnalyzer from FortiManager is recommended for handling a high volume of logs, as FortiAnalyzer is designed specifically for centralized log management, analysis, and reporting, which offloads this workload from FortiManager.

**질문 # 62**

The administrator uses FortiManager to push a CLI script using the Remote FortiGate Directly (via CLI) option to configure an IPsec VPN. However, when running the script, the administrator receives the following error:

config vpn ipsec phase2-interface [parameter(s) invalid. detail: object mismatch] What must the administrator do to resolve the script error and successfully apply the IPsec configuration?

- A. Add the end command after finishing the IPsec phase 1-interface configuration block.
- B. Add a second config vpn ipsec phase2-interface block without linking it to phase1.
- **C. Run the script using the policy package or ADOM database method.**
- D. Use IPsec templates to deploy provisioning templates.

**정답: C**

**설명:**

Running the script through the policy package or ADOM database method allows FortiManager to properly interpret object relationships and dependencies in the IPsec configuration, preventing object mismatch errors when pushing complex VPN settings directly via CLI.

**질문 # 63**

.....

지금 21세기 IT업계가 주목 받고 있는 시대에 그 경쟁 또한 상상할 만하죠, 당연히 이 업계 중 Fortinet FCP\_FMG\_AD-7.6 인증시험도 아주 인기가 많은 시험입니다. 응시자는 매일매일 많아지고 있으며, 패스하는 분들은 관련 업계에서 많은 지식과 내공을 지닌 분들뿐입니다.
