

# **Free PDF Quiz SAP - C\_BCBDC\_2505 - SAP Certified Associate - SAP Business Data Cloud High Hit-Rate Latest Material**

BTW, DOWNLOAD part of PassSureExam C\_BCBDC\_2505 dumps from Cloud Storage: <https://drive.google.com/open?id=1mxt9hNZlzcjHhcZKYLJyb7vJFh32pk7p>

If you want to pass exam and get the related certification in the shortest time, the C\_BCBDC\_2505 C\_BCBDC\_2505 study materials from our company will be your best choice. Although there are a lot of same study materials in the market, we still can confidently tell you that our C\_BCBDC\_2505 Study Materials are most excellent in all aspects. With our experts and professors' hard work and persistent efforts, the C\_BCBDC\_2505 study materials from our company have won the customers' strong support in the past years.

Preparing for the SAP Certified Associate - SAP Business Data Cloud (C\_BCBDC\_2505) certification exam can be time-consuming and expensive. That's why we guarantee that our customers will pass the prepare for your SAP Certified Associate - SAP Business Data Cloud (C\_BCBDC\_2505) exam on the first attempt by using our product. By providing this guarantee, we save our customers both time and money, making our C\_BCBDC\_2505 Practice material a wise investment in their career development.

## **Free PDF Latest C\_BCBDC\_2505 Material & Guaranteed SAP C\_BCBDC\_2505 Exam Success with Newest Reliable C\_BCBDC\_2505 Braindumps**

Our C\_BCBDC\_2505 training guide always promise the best to service the clients. We are committing in this field for many years and have a good command of the requirements of various candidates. Carefully testing and producing to match the certified quality standards of C\_BCBDC\_2505 Exam Materials, we have made specific statistic researches on the C\_BCBDC\_2505 practice materials. And our pass rate of the C\_BCBDC\_2505 study engine is high as 98% to 100%.

## **SAP C\_BCBDC\_2505 Exam Syllabus Topics:**

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>SAP Analytics Cloud: This section of the exam measures the skills of Data Analysts and covers the use of SAP Analytics Cloud in data visualization, story building, and dashboard creation. Candidates should be familiar with its planning and predictive capabilities, along with how to utilize data insights to drive business decision-making. It also includes managing user access and collaborating through shared analytics assets.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>SAP Datasphere: This section of the exam measures the skills of Solution Consultants and covers a comprehensive understanding of SAP Datasphere. Candidates should demonstrate knowledge of data modeling, transformation, and harmonization using SAP Datasphere tools. It evaluates how well they can work with data layer structuring, semantic modeling, and integration to support real-time data access for various business applications.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>SAP Business Data Cloud: This section of the exam measures the skills of Data Analysts and covers core concepts of the SAP Business Data Cloud. Candidates are expected to understand its key components, integration mechanisms, and how it functions as a foundation for unified data management across SAP and non-SAP environments. The focus is on enabling data connectivity and providing governed access to data across the enterprise.</li> </ul>

## SAP Certified Associate - SAP Business Data Cloud Sample Questions (Q21-Q26):

### NEW QUESTION # 21

In SAP Analytics Cloud, you have a story based on an import model. The transactional data in the model's data source changes. How can you update the data in the model?

- A. Refresh the story
- B. Schedule the import**
- C. Refresh the data source
- D. Allow model import

### Answer: B

Explanation:

When an SAP Analytics Cloud (SAC) story is based on an import model, the data is physically copied and stored within SAC. Therefore, simply refreshing the story (option A) will only update the visualization with the data already in the model and will not pull new data from the source. Similarly, "Allow model import" (option B) isn't a direct action for updating data, but rather a prerequisite for the import process itself. "Refresh the data source" (option C) is not an action performed within SAC for an import model. To update the data in the model when the transactional data in its source changes, you must schedule the import (option D) or manually re-run the import process. This process re-fetches the latest data from the original source system and updates the SAC import model, ensuring your story reflects the most current information. This scheduling can be set up to occur at regular intervals, keeping the model synchronized with the source data.

### NEW QUESTION # 22

Which steps are executed when an SAP Business Data Cloud Intelligent Application is installed? Note: There are 2 correct answers to this question.

- A. Connection of SAP Datasphere with SAP Analytics Cloud**
- B. Execution of a machine-learning algorithm
- C. Creation of a dashboard for visualization
- D. Replication of data from the business applications to Foundation Services**

### Answer: A,D

Explanation:

When an SAP Business Data Cloud (BDC) Intelligent Application is installed, two key foundational steps are executed to ensure its operational readiness. Firstly, there is the connection of SAP Datasphere with SAP Analytics Cloud (SAC). This establishes the vital link that allows the intelligent application's analytical models, which reside and are managed within SAP Datasphere, to be consumed

and visualized in SAC. SAC serves as the front-end for analytical consumption, enabling users to interact with the insights generated by the intelligent application. Secondly, the installation process involves the replication of data from the business applications to Foundation Services. Foundation Services act as the initial landing zone for raw business data within the BDC architecture. This data replication ensures that the intelligent application has access to the necessary operational data from source systems to perform its functions, whether it involves data processing, enrichment, or feeding machine learning models. These steps are crucial for the intelligent application to ingest, process, and ultimately present valuable business insights.

#### **NEW QUESTION # 23**

In an SAP Analytics Cloud planning data model, which dimensions are included by default? Note: There are 2 correct answers to this question.

- A. Version
- B. Date
- C. Entity
- D. Organization

**Answer: A,B**

Explanation:

When creating a planning data model in SAP Analytics Cloud (SAC), certain dimensions are included by default to facilitate common planning scenarios. The two key dimensions automatically present are Version and Date. The Version dimension is crucial for distinguishing between different planning scenarios, such as "Actual," "Budget," "Forecast," or "Plan 2025," allowing users to compare and manage various iterations of their planning data. The Date dimension, on the other hand, is essential for time-based planning and analysis, enabling data entry, aggregation, and reporting across different time granularities like years, quarters, months, or days. These default dimensions provide a robust framework for financial and operational planning, serving as foundational elements around which planning activities are structured, and ensuring consistency and comparability across different planning versions and time periods.

#### **NEW QUESTION # 24**

Which capability allows combining SAP and non-SAP data without physical replication?

Please choose the correct answer.

Response:

- A. ETL Scheduling
- B. Data Marketplace
- C. Flat File Upload
- D. Remote Tables

**Answer: D**

#### **NEW QUESTION # 25**

How does SAP Business Data Cloud support self-service analytics enablement?

Please choose the correct answer.

Response:

- A. By offering static reports through scheduled email
- B. By exposing business-friendly models to SAP Analytics Cloud
- C. By using SAP NetWeaver Gateway integration
- D. By embedding dashboards into Microsoft Excel

**Answer: B**

#### **NEW QUESTION # 26**

.....

You can access the premium PDF file of SAP Certified Associate - SAP Business Data Cloud C\_BCBDC\_2505 dumps right after

making the payment. It will contain all the latest C\_BCBDC\_2505 exam dumps questions based on the official C\_BCBDC\_2505 exam study guide. These are the most relevant SAP C\_BCBDC\_2505 questions that will appear in the actual SAP Certified Associate - SAP Business Data Cloud exam. Thus you won't waste your time preparing with outdated C\_BCBDC\_2505 Dumps. You can go through SAP C\_BCBDC\_2505 dumps questions using this PDF file anytime, anywhere even on your smartphone.
