## Avail Perfect 1z0-1073-25 Test Tutorials to Pass 1z0-1073-25 on the First Attempt

In order to cater to different kinds of needs of customers, three versions for 1z0-1073-25 learning materials are available. You can choose one you prefer according to your own needs. 1z0-1073-25 PDF version is printable and you can study anywhere and anyplace. 1z0-1073-25 Soft test engine supports MS operating system and have two modes for practice. In addition, 1z0-1073-25 Soft test engine can simulate the real exam environment, and your confidence for the exam can be strengthened through this version. 1z0-1073-25 Online test engine is convenient and easy to study, it supports all web browsers, and it has testing history and performance review, so that you can have a general review before next training.

## Oracle Inventory Cloud 2025 Implementation Professional Sample Questions (Q49-Q54):

NEW QUESTION # 49

Your customer manages all the procurement and warehouse operations in the US and has decided to create a US business unit for this purpose.

Which two mandatory pieces of information are required to create a US business unit?

- A. Buyer
- B. Manager
- C. Default Set
- D. Business Function
- E. Secondary Ledger

**Answer: C,D**

## NEW QUESTION # 50

### SIMULATION

#### Back-to-Back Supply Creation Flows

You can set up Oracle Fusion Cloud applications that support back-to-back fulfillment to trigger supply creation flows (buy, make, transfer, and on hand) after a sales order is entered and scheduled.

Each variant of the back-to-back flow differs in the supply document that's created and the supply execution application in which the document is created. Depending on the source of the item, supply is provided from manufacturing, procurement, or inventory. Then, after the supply is received into the fulfillment warehouse, the back-to-back order is ready for shipment to your customer.

The following table describes the supply creation flows and associated supply document supported for each flow when using back-to-back fulfillment.

#### Back-to-Back Supply Creation Buy Flow

The supply document for a back-to-back buy flow is a purchase order. Based on supply recommendations from Oracle Global Order Promising, a purchase order is created and reserved against the sales order. When the purchase order is received by the supplier, on hand is created to ship out the back-to-back sales order.

The following figure shows the back-to-back supply creation buy flow.

**Answer:**

Explanation:

See the Explanation for the complete solution

Explanation:

#### Back-to-Back Supply Creation Flows in Oracle Cloud

Back-to-back (B2B) fulfillment in Oracle Fusion Cloud allows organizations to trigger supply creation (Buy, Make, Transfer, or On-Hand Reservation) after a sales order is entered and scheduled. The system dynamically generates supply documents depending on the source of the item and executes supply fulfillment through Oracle Procurement, Manufacturing, or Inventory Management.

#### 1. Overview of Back-to-Back Supply Creation Flows

Each back-to-back flow follows these key steps:

Sales Order Entry & Scheduling - A customer places an order that requires supply creation.

Supply Order Generation - The system determines the best supply source based on predefined sourcing rules.

Supply Execution - The supply is created using procurement (Buy), manufacturing (Make), transfer (Transfer), or existing stock (On-Hand).

Receiving & Reservation - The supply is received and linked to the sales order.

Order Fulfillment - The sales order is shipped to the customer.

2. Back-to-Back Supply Creation Buy Flow (Procurement-Based Fulfillment) The Buy Flow is used when the required item is procured from an external supplier because it is not available in stock or another warehouse.

#### Step-by-Step Buy Flow Process

Below is the step-by-step breakdown of the Back-to-Back Buy Flow with Oracle Fusion applications involved:

#### Step 1: Initiate Back-to-Back Sales Order

The customer places a sales order in Oracle Order Management.

The system checks stock availability in Oracle Inventory Cloud.

If no stock is available, Oracle Supply Chain Orchestration (SCO) triggers a supply request.

Oracle Global Order Promising (GOP) determines procurement as the best supply source.

The sales order is scheduled for back-to-back fulfillment.

□ System Action: The system marks the sales order for procurement and creates a supply order.

#### Step 2: Create Supply Order

Oracle Supply Chain Orchestration (SCO) generates a Supply Order.

The system determines that a Purchase Order (PO) is needed.

A Purchase Requisition is created in Oracle Procurement Cloud.

☐ System Action: The system sends a request for procurement.

Step 3: Request Purchase Order (PO)

Oracle Procurement Cloud converts the requisition into a Purchase Order (PO).

The PO is sent to the external supplier.

The PO is linked to the sales order, ensuring that supply is dedicated to fulfilling the order.

☐ System Action: The system creates a Purchase Order (PO) and tracks supplier delivery.

Step 4: Receive the Purchase Order (PO)

The supplier delivers the goods to the fulfillment warehouse.

The warehouse team receives the PO in Oracle Receiving.

The received inventory is updated in Oracle Inventory Cloud.

The supply is reserved against the back-to-back demand.

☐ System Action: The system marks the received supply as reserved for the sales order.

Step 5: Ship the Back-to-Back Sales Order

The order is picked, packed, and shipped from the warehouse.

Oracle Shipping Execution updates the order status.

An invoice is generated in Oracle Receivables.

The sales order is closed.

☐ Final Action: The system completes the order and ships it to the customer.

3. Oracle Fusion Cloud Applications Involved in Back-to-Back Buy Flow

4. Benefits of the Back-to-Back Buy Flow

✓ Reduces Inventory Holding Costs - No need to stock large quantities in advance.

✓ Ensures Order-Specific Procurement - Every sales order is directly linked to supply.

✓ Automates Procurement & Order Processing - Seamless integration between Oracle modules.

✓ Enhances Customer Satisfaction - Quick fulfillment by sourcing products efficiently.

✓ Optimizes Supplier Collaboration - Real-time PO creation and tracking with suppliers.

5. Real-World Use Case

Scenario: Electronics Distributor Fulfilling a Large Order

A distributor selling high-end laptops does not keep them in stock but procures them from suppliers only when an order is placed.

Process Flow:

A corporate customer places an order for 50 laptops.

The system checks stock and finds no available inventory.

A Purchase Order is created in Oracle Procurement Cloud and sent to the supplier.

The supplier delivers the laptops to the warehouse.

The laptops are reserved against the sales order.

The laptops are shipped to the customer, and the invoice is generated.

☐ Result: The distributor minimizes inventory costs while fulfilling customer demand efficiently.

## NEW QUESTION # 51

Which scheduled process communicates changes on purchase orders whose receipt advices are already interfaced to an external system?

- A. Generate receipt advice
- B. Send intermediate update
- C. Generate changed receipt advice (\*)
- D. Generate change order

**Answer: C**

Explanation:

☐

## NEW QUESTION # 52

What happens when Transfer Order Required is not enabled on the Manage Interorganization Parameters page for Direct Organization Transfer between Source Organization Atlanta and Destination Organization Seattle?

- A. Both interorganization transfers and transfer orders can be created from Atlanta to Seattle.
- B. Transfer orders can be created from Atlanta to Seattle, but approval is mandatory.
- C. Transfer orders cannot be created from Atlanta to Seattle.

**Answer: A**

### NEW QUESTION # 53

Your organization stores syringe items in multiple stocking unit of measures.

- A. Organization level only
- **B. Subinventory level and Locator level only**
- C. At which levels can you set up default stocking units of measure?
- D. Organization level, Subinventory level, or both levels

**Answer: B**

### NEW QUESTION # 54

.....

If you buy the 1z0-1073-25 learning materials from our company, we are glad to provide you with the high quality 1z0-1073-25 study question and the best service. The philosophy of our company is "quality is life, customer is god." We can promise that our company will provide all customers with the perfect quality guarantee system and sound management system. It is not necessary for you to have any worry about the quality and service of the 1z0-1073-25 Learning Materials from our company. If you decide to buy the 1z0-1073-25 study question from our company, you will receive a lot beyond your imagination.
