Once the user has used our 1Z0-1042-25 test prep for a mock exercise, the product's system automatically remembers and analyzes all the user's actual operations. The user must complete the test within the time specified by the simulation system, and there is a timer on the right side of the screen, as long as the user begins the practice of 1Z0-1042-25 Quiz guide, the timer will run automatic and start counting. The transfer can be based on the 1Z0-1042-25 valid practice questions report to develop a learning plan that meets your requirements. As long as you study with our 1Z0-1042-25 exam questions, you will pass the exam.

Oracle 1Z0-1042-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Getting Started with OIC Integrations: This section of the exam measures the skills of Integration Specialists and Cloud Engineers in understanding the foundational components of Oracle Integration Cloud (OIC). It covers key integration concepts, how integrations work, and web services fundamentals such as WSDL, SOAP, REST, and JSON. The focus is on building a strong understanding of OIC's integration capabilities.
Topic 2	<ul style="list-style-type: none">Creating Orchestrated Integrations: This section tests the knowledge of Orchestration Developers and Business Process Analysts in managing orchestrated integrations within OIC. It includes using lookups, data mappers, and custom JavaScript libraries, configuring orchestration flow actions, implementing file handling options, and leveraging the fault-handling framework to manage errors effectively.
Topic 3	<ul style="list-style-type: none">Creating Scheduled Integrations: This domain measures the skills of Automation Engineers and Cloud Administrators in defining integration schedules and converting scheduled integrations to app-driven ones. It also includes using scheduled parameters to automate workflows efficiently.

Topic 4	<ul style="list-style-type: none"> Using OIC Connections & Adapters: This section evaluates the expertise of Integration Developers and Solution Architects in creating and configuring OIC connections. It includes setting up trigger and invoke connections, understanding the role of the Connectivity Agent, and effectively using adapters to connect cloud and on-premises applications seamlessly.
Topic 5	<ul style="list-style-type: none"> Testing, Monitoring, and Troubleshooting Integrations: This section assesses the abilities of Support Engineers and Integration Administrators in managing integration lifecycles. It includes activating and deactivating integrations, testing REST-triggered integrations, importing and exporting integrations, as well as monitoring and troubleshooting integration instances to ensure smooth operations.

1Z0-1042-25 Prep Guide & 1Z0-1042-25 Dumps Discount

If you study on our test engine, your preparation time of the 1Z0-1042-25 guide braindumps will be greatly shortened. Firstly, the important knowledge has been picked out by our professional experts. You just need to spend about twenty to thirty hours before taking the Real 1Z0-1042-25 Exam. In addition, the relevant knowledge will be easy to memorize. Learning our 1Z0-1042-25 study quiz can also be a pleasant process. The saved time can be used to go sightseeing or have a rest.

Oracle Cloud Infrastructure 2025 Application Integration Professional Sample Questions (Q88-Q93):

NEW QUESTION # 88

Which three are tasks that can be performed in the Monitoring page for device data messages and alert messages?

- **A. Search**
- B. Update
- **C. View**
- **D. Filter**
- E. Create

Answer: A,C,D

Explanation:

On the Monitoring page, you can view, filter, and search for device data messages and alert messages. Creating or updating messages is not done from the Monitoring page.

NEW QUESTION # 89

Which two statements are true regarding messaging adapters in Oracle Integration Cloud?

- **A. Both the Apache Kafka and OCI Streaming adapter support XML, JSON, and Avro message formats.**
- B. It is not mandatory to install a Connectivity agent to use the OCI Streaming Adapter for inbound polling.
- C. The OCI Streaming Adapter does not support consuming messages from a specified consumer group.
- **D. The Apache Kafka adapter can be configured to support Transactions in case of Producer.**

Answer: A,D

Explanation:

Both Apache Kafka and OCI Streaming adapters support various message formats like XML, JSON, and Avro. The Apache Kafka adapter also supports transactional messaging for producers.

NEW QUESTION # 90

You are creating integrations in Oracle Integration Cloud (OIC) using B2B trading partner agreements. Which identifier is implicitly used for all outbound agreements?

- A. Application Partner ID
- **B. EDI Interchange ID**
- C. EDI Interchange Internal Sub ID
- D. EDI Group ID Qualifier

Answer: B

Explanation:

Comprehensive and Detailed Explanation:

In OIC B2B, outbound agreements use the EDI Interchange ID (B) as the implicit identifier. This ID, part of the EDI header, uniquely identifies the sender in transactions (e.g., X12 or EDIFACT standards).

Option A: Internal Sub ID is a secondary identifier, not implicit for all outbound flows.

Option C: Application Partner ID is specific to application-level config, not EDI.

Option D: Group ID Qualifier defines document grouping, not the primary outbound identifier.

The Interchange ID ensures consistency in B2B communication.

NEW QUESTION # 91

Which Oracle Integration Cloud (OIC) service role does NOT have permission to run an OIC integration flow?

- A. ServiceUser
- **B. ServiceInvoker**
- C. ServiceAdministrator
- D. ServiceDeveloper

Answer: B

Explanation:

The ServiceInvoker role is primarily designed for invoking integrations programmatically via REST/SOAP APIs and cannot manually run integrations from the OIC console.

NEW QUESTION # 92

Your organization maintains two SOA cloud service instances used separately for testing and production. What is the best practice for defining the property values and endpoint addresses unique to each environment when deploying the same SOA composite application archive to both instances?

- **A. Create two separate configuration plans that contain the environment-specific values and then associate the appropriate plan with the SOA archive deployment.**
- B. You cannot deploy the same archive to two different environments. Define the specific properties and endpoint addresses statically within two separate SOA archives.
- C. Edit each application's deployment descriptor to dynamically retrieve values for properties and endpoint addresses from the environment upon deployment.
- D. Manually update any required values for unique properties or endpoint addresses in Fusion Middleware Control following deployment.

Answer: A

Explanation:

Creating two separate configuration plans for each environment is the best practice. This keeps environment-specific details separate from the SOA archive and promotes reusability and maintainability. Other methods are error-prone or inefficient.

NEW QUESTION # 93

.....

Test your knowledge of the 1Z0-1042-25 exam dumps with TrainingDump Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) practice questions. The software is designed to help with Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) exam dumps preparation. Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) practice test software can be used on devices that range from mobile devices to desktop computers. We provide the Oracle Cloud Infrastructure 2025 Application Integration Professional (1Z0-1042-25) exam questions

in a variety of formats, including a web-based practice test, desktop practice exam software, and downloadable PDF files.
