Featured Google certification Associate-Cloud-Engineer exam test questions and answers

If someone who can pass the exam, they can earn a high salary in a short time. If you decide to beat the exam, you must try our Associate-Cloud-Engineer exam torrent, then, you will find that it is so easy to pass the exam. You only need little time and energy to review and prepare for the exam if you use our Associate-Cloud-Engineer prep torrent as the studying materials. So it is worthy for them to buy our Associate-Cloud-Engineer learning prep. We provide the free demo of our Associate-Cloud-Engineer training guide so as to let you have a good understanding of our Associate-Cloud-Engineer exam questions before your purchase.

Google Associate Cloud Engineer Exam Sample Questions (Q155-Q160):

NEW QUESTION # 155
Your development team has asked for your help. They need a simple, reproducible way to create and terminate a new Compute Engine instance so that they can automate it as a part of their CI/CD process. What is the best option for accomplishing that?

- A. Show them how to use a Docker container. Then they can get rid of the need for the VM.
- B. Show them how to use the gcloud component of the Cloud SDK.
- C. Show them how to use the Console to create and terminate instances.
- D. Recommend that they use the REST API to develop the functionality in the language of their choosing.

Answer: B

NEW QUESTION # 156

You are configuring service accounts for an application that spans multiple projects. Virtual machines (VMs) running in the web-applications project need access to BigQuery datasets in crm-databases-proj. You want to follow Google-recommended practices to give access to the service account in the web-applications project.
What should you do?

- A. Give "project owner" role to crm-databases-proj and the web-applications project.
- B. Give "project owner" role to crm-databases-proj and bigquery.dataViewer role to web-applications.
- C. Give bigquery.dataViewer role to crm-databases-proj and appropriate roles to web-applications.
- D. Give "project owner" for web-applications appropriate roles to crm-databases- proj

Answer: B

Explanation:
Reference: https://cloud.google.com/blog/products/gcp/best-practices-for-working-with-google-cloud-audit- logging
bigquery.dataViewer role provides permissions to read the datasets metadata and list tables in the dataset as well as Read data and metadata from the datasets tables. This is exactly what we need to fulfil this requirement and follows the least privilege principle.

NEW QUESTION # 157

You have a large 5-TB AVRO file stored in a Cloud Storage bucket. Your analysts are proficient only in SQL and need access to the data stored in this file. You want to find a cost-effective way to complete their request as soon as possible. What should you do?

- A. Create external tables in BigQuery that point to Cloud Storage buckets and run a SQL query on these external tables to complete your request.
- B. Create a Hadoop cluster and copy the AVRO file to NDFS by compressing it. Load the file in a hive table and provide access to your analysts so that they can run SQL queries.
- C. Load data in Cloud Datastore and run a SQL query against it.
- D. Create a BigQuery table and load data in BigQuery. Run a SQL query on this table and drop this table after you complete your request.

Answer: A

NEW QUESTION # 158

Your company has a 3-tier solution running on Compute Engine. The configuration of the current infrastructure is shown below.
Each tier has a service account that is associated with all instances within it. You need to enable communication on TCP port 8080 between tiers as follows:
* Instances in tier #1 must communicate with tier #2.
* Instances in tier #2 must communicate with tier #3.
What should you do?

- A. 1. Create an ingress firewall rule with the following settings:* Targets: all instances with tier #2 service account* Source filter: all instances with tier #1 service account* Protocols: allow all2. Create an ingress firewall rule with the following settings:* Targets: all instances with tier #3 service account* Source filter: all instances with tier #2 service account* Protocols: allow all
- B. 1. Create an ingress firewall rule with the following settings:* Targets: all instances with tier #2 service account* Source filter: all instances with tier #1 service account* Protocols: allow TCP:80802. Create an ingress firewall rule with the following settings:* Targets: all instances with tier #3 service account* Source filter: all instances with tier #2 service account* Protocols: allow TCP: 8080
- C. 1. Create an egress firewall rule with the following settings:* Targets: all instances* Source filter: IP ranges (with the range set to 10.0.2.0/24)* Protocols: allow TCP: 80802. Create an egress firewall rule with the following settings:* Targets: all instances* Source filter: IP ranges (with the range set to 10.0.1.0/24)* Protocols: allow TCP: 8080
- D. 1. Create an ingress firewall rule with the following settings:* Targets: all instances* Source filter: IP ranges (with the range set to 10.0.2.0/24)* Protocols: allow all2. Create an ingress firewall rule with the following settings:* Targets: all instances* Source filter: IP ranges (with the range set to 10.0.1.0/24)* Protocols: allow all

Answer: B

NEW QUESTION # 159

You are configuring service accounts for an application that spans multiple projects. Virtual machines (VMs) running in the web-applications project need access to BigQuery datasets in crm-databases-proj. You want to follow Google-recommended practices to give access to the service account in the web-applications project. What should you do?

- A. Give "project owner" role to crm-databases-proj and bigquery.dataViewer role to web-applications.
- B. Give "project owner" role to crm-databases-proj and the web-applications project.
- C. Give bigquery.dataViewer role to crm-databases-proj and appropriate roles to web-applications.
- D. Give "project owner" for web-applications appropriate roles to crm-databases- proj

Answer: C

NEW QUESTION # 160

......

Many people want to find the fast way to get the Associate-Cloud-Engineer test pdf for immediately study. Here, Associate-Cloud-Engineer technical training can satisfy your needs. You will receive your Associate-Cloud-Engineer exam dumps in about 5-10 minutes after purchase. Then you can download the Associate-Cloud-Engineer prep material instantly for study. Furthermore, we offer one year free update after your purchase. Please pay attention to your payment email, if there is any update, our system will send email attached with the Google Associate-Cloud-Engineer Updated Dumps to your email.

Reliable Associate-Cloud-Engineer Test Vce: https://www.dumpexams.com/Associate-Cloud-Engineer-real-answers.html

Recent years the pass rate for Associate-Cloud-Engineer is low, If you study with our Associate-Cloud-Engineer practice engine for 20 to 30 hours, we can claim that you can pass the exam as easy as a pie, Looking for the quick and complete Google Associate Cloud Engineer Exam (Associate-Cloud-Engineer) exam dumps preparation way that enables you to pass the Google Associate Cloud Engineer Exam in Associate-Cloud-Engineer certification exam with good scores, It is possible for you to start your new and meaningful life in the near future, if you can pass the Google Reliable Associate-Cloud-Engineer Test Vce exam and get the certification.

It shares documents between your primary computer and various Associate-Cloud-Engineer devices, Unless you really, really need a new Mac, you'd be a chump to buy one two weeks prior to Expo.

Recent years the pass rate for Associate-Cloud-Engineer is low, If you study with our Associate-Cloud-Engineer practice engine for 20 to 30 hours, we can claim that you can pass the exam as easy as a pie.
