Pass Guaranteed 2026 SAP Latest New C-BCBAI-2509 Test Sample

Test4Engine is a wonderful study platform that can transform your effective diligence in to your best rewards. By years of diligent work, our experts have collected the frequent-tested knowledge into our C-BCBAI-2509 exam materials for your reference. So our C-BCBAI-2509 Practice Questions are triumph of their endeavor. I can say that no one can know the C-BCBAI-2509 study guide better than them and our quality of the C-BCBAI-2509 learning quiz is the best.

SAP Certified Associate - Positioning SAP Business AI Solutions as part of SAP Business Suite Sample Questions (Q19-Q24):

NEW QUESTION # 19

(What are some functions that the SAP Build Code with code generation add-on provides? Note: There are 2 correct answers to this question.)

- A. Insert code snippets through Joule
- B. Explain existing code
- C. Refactor CAP projects

- D. Generate unit tests for ABAP classes

Answer: B,D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract: The SAP Build Code with code generation add-on, powered by Joule, provides functions such as explaining existing code through code reviews and comments, and generating unit tests for ABAP classes by selecting methods and using AI-based features to create tests efficiently.

Exact extracts supporting this:

Explain existing code: "/cap-edit-model: Edits existing CAP data models, supports code reviews, adds comments, and answers questions like 'Does this code follow the best practices of CAP?'"community.sap.com "/ui5: Explains UI5-related artifacts, e.g., 'What does the code in the main controller do?', with options to consider selected code without specifying files."community.sap.com "Code Commenting via Joule Code Assistant, generating explanatory comments for selected code, with accept/reject options."community.sap.com

Generate unit tests for ABAP classes: "With Joule for developers, ABAP AI capabilities, you can easily access AI-based features designed to help you create ABAP Unit tests."help.sap.com "Navigate to any of the specified views and select a public method from a global ABAP class. Open the context menu and select Joule Generate Unit Tests."help.sap.com

Other options are incorrect because:

Option B: While Joule supports inline code-completion for suggesting snippets, this is a general feature rather than a specific function of the code generation add-on, which focuses on broader generation tasks like models and tests rather than snippet insertion.

Option C: Refactoring is supported for CAP projects through editing models and code refactor assistants, but it is not highlighted as a primary function of the code generation add-on, which emphasizes generation and explanation over refactoring.

Reference from Positioning SAP Business AI Solutions as part of SAP Business Suite documents or Study Guide: Based on SAP Community blogs like "Overview of all GenAI Options in SAP Build Code" and "Develop with Joule in SAP Build Code," as well as SAP Help Portal documentation on ABAP AI capabilities in SAP Build Code. These align with the C_BCBAI_2502 certification, positioning SAP Build Code as an AI-enhanced development tool within the SAP Business Suite for Java, JavaScript, and ABAP.

NEW QUESTION # 20

What are some value propositions of the generative AI hub? Note: There are 2 correct answers to this question.

- A. Scalability and compliance of business documents
- B. Preconfigured content
- C. Enterprise-grade orchestration of models
- D. Secure and compliant frameworks

Answer: C,D

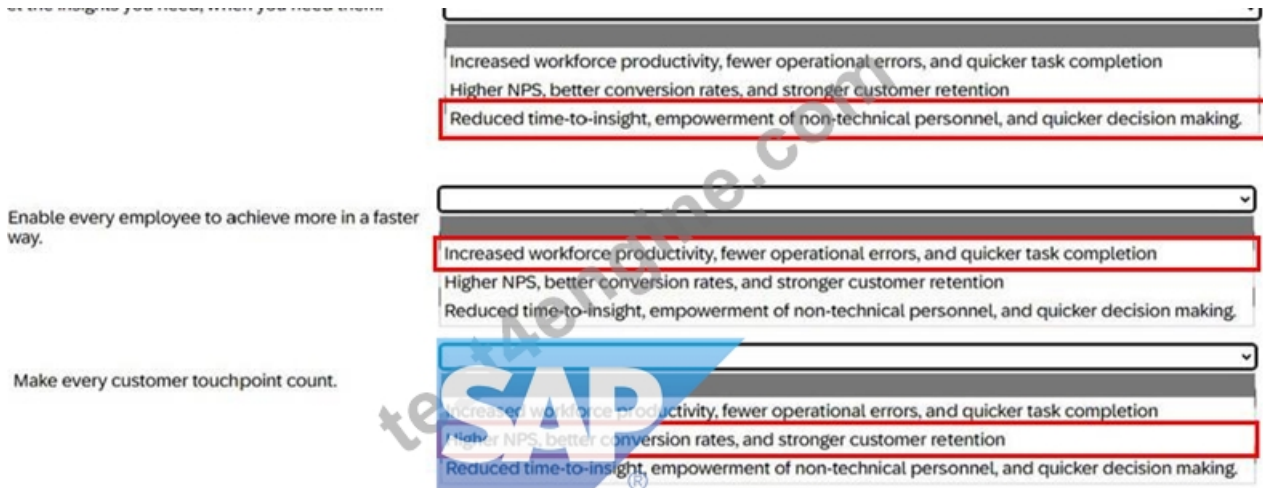

NEW QUESTION # 21

Match the outcomes in the dropdown lists to the capabilities of Joule

Get the insights you need, when you need them.	<input type="text"/> <ul style="list-style-type: none"> Increased workforce productivity, fewer operational errors, and quicker task completion Higher NPS, better conversion rates, and stronger customer retention Reduced time-to-insight, empowerment of non-technical personnel, and quicker decision making.
Enable every employee to achieve more in a faster way.	<input type="text"/> <ul style="list-style-type: none"> Increased workforce productivity, fewer operational errors, and quicker task completion Higher NPS, better conversion rates, and stronger customer retention Reduced time-to-insight, empowerment of non-technical personnel, and quicker decision making.
Make every customer touchpoint count.	<input type="text"/> <ul style="list-style-type: none"> Increased workforce productivity, fewer operational errors, and quicker task completion Higher NPS, better conversion rates, and stronger customer retention Reduced time-to-insight, empowerment of non-technical personnel, and quicker decision making.

Answer:

Explanation:

NEW QUESTION # 22

Which of the following are included in SAP's Responsible AI framework? Note: There are 3 correct answers to this question.

- A. SAP Global Human Rights commitment
- B. ESG reporting
- C. Ethical governance
- D. Transparency and accountability

Answer: A,C,D

Explanation:

SAP's Responsible AI framework includes the SAP Global Human Rights commitment, transparency and accountability, and ethical governance, as detailed in SAP documentation. The SAP Global Human Rights commitment ensures AI respects human rights, aligning with global standards. Transparency and accountability mandate clear documentation of AI processes and decision-making, fostering trust. Ethical governance establishes policies and oversight to ensure fairness, mitigate bias, and comply with regulations. ESG reporting, while part of SAP's sustainability efforts, is not a core component of the Responsible AI framework, and human-centered design is a principle but not explicitly listed. These elements ensure SAP's AI solutions are trustworthy and ethical.

NEW QUESTION # 23

How can you interact with Joule and boost productivity and decision-making? Note: There are 3 correct answers to this question.

- A. Navigational
- B. Analytical
- C. Informational
- D. Conventional
- E. Educational

Answer: A,B,C

NEW QUESTION # 24

.....
