Reliable NLN NEX Accurate Prep Material With Interarctive Test Engine & Trustable NEX Real Exam Questions

Now you do not need to worry about the relevancy and top standard of Exams4sures Nursing Entrance Exam (Math, Science and Verbal) in NEX exam questions. These NLN NEX dumps are designed and verified by qualified NEX exam trainers. Now you can trust Exams4sures NEX Practice Questions and start preparation without wasting further time. With the Exams4sures NEX exam questions, you will get everything that you need to learn, prepare and pass the challenging NEX exam with good scores.

The Exams4sures NLN NEX exam questions are being offered in three different formats. These formats are NEX web-based practice test software, desktop practice test software, and PDF dumps files. All these three Exams4sures NEX Exam Questions format are important and play a crucial role in your Nursing Entrance Exam (Math, Science and Verbal) exam preparation. With the NEX exam questions you will get updated and error-free NEX exam questions all the time.

NEX Real Exam Questions - Latest NEX Dumps Book

As for NLN NEX exam, it is the most difficult to pass. But, as long as you believe in Exams4sures, everything is ok. Exams4sures NLN NEX exam simulations contain the most accurate questions and answers. If you don't believe our NLN NEX certification training, you can go to our Exams4sures. You can find pdf real questions and answers and download it. And the purchase rate is unbelievably high every day. By choosing it, pass rate is 100%. Hurry up! Don't hesitate to add our NLN NEX Dumps Torrent to your shopping cart.

NLN Nursing Entrance Exam (Math, Science and Verbal) Sample Questions (Q140-Q145):

NEW QUESTION # 140
There are four drinks on sale:
* 20 ounce cup for $4.00
* 12 ounce cup for $3.00

* 10 ounce cup for $2.50
* 8 ounce cup for $2.40
Which drink is the most expensive price per ounce?

- A. 8 ounce cup
- B. 12 ounce cup
- C. 10 ounce cup
- D. 20 ounce cup

Answer: A

Explanation:
This question tests unit rate comparison, which is common on the NEX exam. To find the price per ounce, divide the cost by the number of ounces for each drink. For the 20-ounce cup: $4.00 ÷ 20 = $0.20 per ounce.
For the 12-ounce cup: $3.00 ÷ 12 = $0.25 per ounce. For the 10-ounce cup: $2.50 ÷ 10 = $0.25 per ounce. For the 8-ounce cup: $2.40 ÷ 8 = $0.30 per ounce. The most expensive price per ounce is $0.30, which corresponds to the 8-ounce cup. Therefore, option B is correct. The NEX frequently includes comparison problems that require calculating unit rates rather than comparing total prices. Always divide cost by quantity to ensure an accurate comparison.

NEW QUESTION # 141
The diagram below shows the rough endoplasmic reticulum of a cell as seen under the electron microscope.
The structures labeled Z are the site of protein synthesis.
Z is indicating

- A. centrosomes.
- B. chromosomes.
- C. mitochondria.
- D. ribosomes.

Answer: D

Explanation:
This question focuses on cell structure and function. The rough endoplasmic reticulum (RER) is characterized by the presence of small, dark granules attached to its surface. These granules are ribosomes. Ribosomes are the cellular structures responsible for protein synthesis, as they translate messenger RNA into amino acid chains. The presence of ribosomes gives the rough endoplasmic reticulum its "rough" appearance under an electron microscope. Mitochondria are involved in energy production, centrosomes play a role in cell division, and chromosomes contain genetic material within the nucleus. None of these structures are responsible for protein synthesis on the surface of the RER. The NEX Science exam frequently includes diagrams requiring students to identify organelles and link them to their functions. Recognizing ribosomes as the site of protein synthesis is a fundamental concept in cell biology.

NEW QUESTION # 142
What stimulates gustatory (taste) cells?

- A. Movement of otoliths
- B. Photons of light
- C. Deep pressure changes
- D. Substances in solution

Answer: D

Explanation:
Gustatory cells are sensory receptors responsible for taste and are located primarily in taste buds on the tongue. These cells are stimulated by chemical substances that are dissolved in saliva. When food dissolves in saliva, the dissolved molecules bind to receptors on gustatory cells, triggering nerve impulses that are interpreted by the brain as taste. Movement of otoliths is related to balance in the inner ear, deep pressure changes stimulate mechanoreceptors, and photons of light stimulate photoreceptors in the eye. The NEX Science exam frequently tests sensory physiology by asking students to match receptors with the correct type of stimulus. Recognizing that taste is a chemical sense dependent on substances in solution is fundamental.
======

NEW QUESTION # 143
Review the table of undisturbed sedimentary rock strata below.

According to the table, which of these fossils is the oldest?

- A. Fossil C
- B. Fossil D
- C. Fossil A
- D. Fossil B

Answer: C

Explanation:
This question tests understanding of the law of superposition, a fundamental principle in geology that is frequently tested on the NEX Science exam. The law of superposition states that in undisturbed sedimentary rock layers, the oldest layers are found at the bottom, while the youngest layers are found at the top. In the table shown, the soil surface is at the top, followed by Fossil D, Fossil C, Fossil B, and Fossil A at the bottom.
Because Fossil A is located in the lowest rock layer, it must be the oldest fossil. Fossils found in higher layers were deposited more recently. The key word in the question is "undisturbed," which means the layers have not been mixed or overturned by geological processes. The NEX exam often emphasizes recognizing this clue to correctly apply the law of superposition. Therefore, Fossil A is the correct answer because it represents the earliest life form preserved in the rock strata.

NEW QUESTION # 144
A nurse needs to administer 0.75 liters of IV fluid over 3 hours. What is the flow rate in milliliters per hour?
(1 liter = 1,000 milliliters)

- A. 300 mL/hr
- B. 200 mL/hr
- C. 150 mL/hr
- D. 250 mL/hr

Answer: D

Explanation:
This question tests unit conversion and rate calculation, both of which are essential skills on the NEX Math Section, especially for medication and IV flow problems. First, convert liters to milliliters because flow rates are typically expressed in milliliters per hour. Since 1 liter equals 1,000 milliliters, multiply 0.75 liters by
1,000 to get 750 milliliters. Next, determine the flow rate by dividing the total volume by the total time. The fluid is administered over 3 hours, so divide 750 milliliters by 3 hours. This calculation gives 250 milliliters per hour. Therefore, the correct answer is option C.
Option A results from dividing incorrectly, option B reflects underestimation, and option D would be correct only if the volume were larger. NEX exam questions often focus on proper setup of unit conversions before performing calculations. Always convert units first, then divide by time to find a rate.

NEW QUESTION # 145
......

NLN NEX Accurate Prep Material We are always right here waiting for your consult, so come and go to choose right now, NEX Real Exam Questions - Nursing Entrance Exam (Math, Science and Verbal) Brain-Dumps software with actual question & answers can surely offer extremely easy NEX Real Exam Questions - Nursing Entrance Exam (Math, Science and Verbal) preparation solutions to user, We are glad to meet your all demands and answer your all question about our NEX training materials.

Now the question is how the industry will evolve, Among new features and formatting NEX modifications, the entire interface has been revamped, We are always right here waiting for your consult, so come and go to choose right now!

Quiz 2026 NLN NEX: Perfect Nursing Entrance Exam (Math, Science and Verbal) Accurate Prep Material

Nursing Entrance Exam (Math, Science and Verbal) Brain-Dumps software with actual Latest NEX Dumps Book question & answers can surely offer extremely easy Nursing Entrance Exam (Math, Science and Verbal) preparation solutions to user, We are glad to meet your all demands and answer your all question about our NEX Training Materials.

Most IT workers are desire to work in the NEX, but the high quality and high profession of NEX valid exam lower the pass rate, We provide you update checks for 1 year after purchase for absolutely no cost.

- NLN NEX Accurate Prep Material offer you accurate Real Exam Questions to pass Nursing Entrance Exam (Math, Science and Verbal) exam □ Easily obtain □ NEX □ for free download through □ www.testkingpass.com □ □Exam NEX Questions Pdf
