Latest Portworx-Enterprise-Professional Test Online | Portworx-Enterprise-Professional Exam Flashcards

What's more, part of that Lead2Passed Portworx-Enterprise-Professional dumps now are free: https://drive.google.com/open?id=1JzPAJzNBE7X2SpeY44iW-6iv93xVWkRE

Pure Storage Pure Certified Portworx Enterprise Professional (PEP) Exam evolves swiftly, and a practice test may become obsolete within weeks of its publication. We provide free updates for Pure Storage Portworx-Enterprise-Professional exam questions for three months after the purchase to ensure you are studying the most recent solutions. Furthermore, Lead2Passed is a very responsible and trustworthy platform dedicated to certifying you as a specialist. We provide a free sample before purchasing Pure Storage Portworx-Enterprise-Professional valid questions so that you may try and be happy with its varied quality features. Learn for your Pure Storage with confidence by utilizing the Lead2Passed Portworx-Enterprise-Professional study guide, which is always forward-thinking, convenient, current, and dependable.

No matter where you are or what you are, Portworx-Enterprise-Professional practice questions promises to never use your information for commercial purposes. If you attach great importance to the protection of personal information and want to choose a very high security product, Portworx-Enterprise-Professional Real Exam is definitely your first choice. And we always have a very high hit rate on the Portworx-Enterprise-Professional study guide by our customers for our high pass rate is high as 98% to 100%.

Pure Storage Portworx-Enterprise-Professional Exam Flashcards - Portworx-Enterprise-Professional Test Pass4sure

For candidates who are going to buy Portworx-Enterprise-Professional learning materials online, they may pay more attention to that money safety. We apply international recognition third party for the payment, and therefore your account and money safety can be guaranteed if you choose Portworx-Enterprise-Professional exam materials from us. In attrition, in order to build up your confidence for Portworx-Enterprise-Professional Exam Dumps, we are pass guarantee and money back guarantee. If you fail to pass the exam in your first attempt, we will give you full refund and no other questions will be asked. You give us trust, and we help you pass the exam successfully.

Pure Storage Pure Certified Portworx Enterprise Professional (PEP) Exam

Sample Questions (Q69-Q74):

NEW QUESTION # 69
Which Portworx component is used to co-locate volumes with pods?

- A. Stork
- B. Volume Placement Strategy
- C. Autopilot

Answer: B

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
Portworx's Volume Placement Strategy ensures that persistent volumes are co-located with the pods that use them, enhancing performance and reducing latency. This strategy involves applying placement rules and constraints that guide Kubernetes scheduler and Portworx storage operations to place data volumes on nodes close to or the same as the pods. Co-location improves I/O throughput and application responsiveness by minimizing network hops between compute and storage resources. While Autopilot automates scaling and Stork manages storage-aware scheduling, Volume Placement Strategy specifically handles volume location relative to workloads. The Portworx architecture documentation highlights this component as critical for optimizing storage efficiency and workload performance in Kubernetes environments running Portworx storage【Pure Storage Portworx Architecture Docs source】.

NEW QUESTION # 70
Which platform is supported by Portworx for deployment?

- A. AWS
- B. DCOS
- C. Docker Swarm

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
Portworx primarily supports deployment on Kubernetes and is well-integrated with major cloud platforms including Amazon Web Services (AWS). AWS offers native infrastructure and storage services that complement Portworx's capabilities for cloud-native storage, including integration with Elastic Block Store (EBS) and S3 Object Storage. While Portworx historically supported container orchestrators like Docker Swarm and Mesosphere DC/OS (DCOS), the primary and recommended platform for production deployments today is Kubernetes on cloud providers such as AWS, Azure, and Google Cloud. AWS's ecosystem allows Portworx to leverage scalable compute and storage infrastructure, advanced networking, and cloud security features, making it a preferred platform. Portworx official platform support documentation lists AWS as a key supported environment for its container storage solutions【Pure Storage Portworx Platform Support Guide source】.

NEW QUESTION # 71
What is the minimum kernel needed for Portworx?

- A. Kernel version 4.15 or greater
- B. Kernel version 3.10 or greater
- C. Portworx works with any kernel

Answer: B

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
Portworx requires a minimum Linux kernel version of 3.10 or greater to operate properly. This requirement stems from Portworx's dependencies on certain kernel features and modules that became standard from kernel version 3.10 onwards. The kernel version affects support for device-mapper, overlay filesystems, network stack enhancements, and other low-level capabilities essential for Portworx's block storage functionality and performance. Although newer kernels (like 4.15+) offer additional features and improvements, Portworx maintains compatibility back to 3.10 to support a wide range of enterprise Linux distributions such as RHEL, CentOS, and Ubuntu LTS releases. The official Portworx system requirements document explicitly states kernel 3.10 as the

minimum supported version to ensure stability and compatibility in production environments【Pure Storage Portworx System Requirements source】.

NEW QUESTION # 72
What is a benefit of using Autopilot in Portworx environments?

- A. It automates the expansion of storage volumes based on predefined rules.
- B. It facilitates the migration of containers across clusters.
- C. Provides enhanced security features for data protection.

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
Autopilot is a key feature in Portworx designed to automate operational tasks such as capacity management and volume resizing. One of its primary benefits is automating the expansion of storage volumes based on predefined rules and thresholds. This means that when a volume approaches its storage limit, Autopilot can automatically trigger volume expansion without manual intervention, ensuring applications have uninterrupted access to storage resources. This automation reduces operational overhead, eliminates manual errors, and helps maintain application performance and availability. While Autopilot doesn't directly handle container migration or security enhancements, its dynamic volume management capabilities play a critical role in operational efficiency and business continuity. The Portworx documentation highlights Autopilot as a tool for intelligent, policy-driven storage management that adapts to workload demands in real time【Pure Storage Portworx Autopilot Guide source】.

NEW QUESTION # 73
When upgrading Portworx on Kubernetes using the Operator, what step must the administrator take if using the px-versions configmap?

- A. Delete the existing configmap.
- B. Update the version manifest.
- C. Create a new namespace for the configmap.

Answer: B

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
During Portworx upgrades via the Kubernetes Operator, if the deployment uses a px-versions ConfigMap to manage available Portworx versions, the administrator must update the version manifest within this ConfigMap to include the new version. This update informs the Operator of the target version for upgrades and ensures that the correct container images are pulled and deployed. Simply creating a new namespace or deleting the ConfigMap is insufficient and can cause upgrade failures or inconsistent version deployments. The Portworx Operator upgrade documentation emphasizes updating the px-versions ConfigMap manifest as a necessary step in orchestrated upgrades, enabling controlled, predictable version management within Kubernetes clusters【Pure Storage Portworx Upgrade Guide source】.

NEW QUESTION # 74
......

Business Applications Portworx-Enterprise-Professional certification exam with our braindumps, just send us your failed score report. After we confirm your Portworx-Enterprise-Professional score report and we can give full refund of the Portworx-Enterprise-Professional Exam to you in time. Meanwhile, if you also need to take other related exams you also can choose another exam instead of the failed exam.

Portworx-Enterprise-Professional Exam Flashcards: https://www.lead2passed.com/Pure-Storage/Portworx-Enterprise-Professional-practice-exam-dumps.html

Secondly, we are the leading position with high passing rate of Portworx-Enterprise-Professional best questions in this field, Do not waste time on negligible matters or choose the useless practice materials, our Portworx-Enterprise-Professional pass-sure braindumps materials will help you reach success smoothly, In order to allow users to have timely access to the latest information, our Portworx-Enterprise-Professional real exam has been updated, New Lead2Passed is here to bring the solutions for your

problems, if you are aspirant of Portworx-Enterprise-Professional exam then Portworx-Enterprise-Professional exam questions solution is for you.

It's a miniature version of the main collection Portworx-Enterprise-Professional Exam Flashcards floor, holding several dozen cubicles in two rows, You can change the order in which columns appear by dragging the column Portworx-Enterprise-Professional heading of the column you want to move and dropping it in the new location.
