TDA-C01 Actualtest & Real TDA-C01 Exams

You can attempt the TDA-C01 test multiple times to relieve exam stress and boost confidence. Besides Windows, TestPDF Tableau TDA-C01 web-based practice exam works on iOS, Android, Linux, and Mac. You can take Tableau Certified Data Analyst (TDA-C01) practice exams (desktop and web-based) of TestPDF multiple times to improve your critical thinking and understand the TDA-C01 test inside out. TestPDF has been creating the most reliable Tableau Dumps for many years. And we have helped thousands of Tableau aspirants in earning the TDA-C01 certification.

Tableau TDA-C01 Certification is a valuable credential for anyone who wants to demonstrate their expertise in Tableau. Tableau Certified Data Analyst certification validates that the holder has a thorough understanding of Tableau's features and functionalities, and is able to use the tool to analyze and visualize data effectively. It is especially useful for data analysts who work in organizations that rely heavily on data-driven decision making, as it demonstrates their ability to use Tableau to extract insights from complex data sets.

Tableau Certified Data Analyst Sample Questions (Q168-Q173):

NEW QUESTION # 168

You have the following dataset.

You want to create a new calculated dimension field named Category that meets the following conditions:

- . When Subject is Computer Science or Science, Category must be Sciences.
- . When Subject is English or Social Studies, Category must be Humanities.

Which two logical functions achieve the goal? Choose two.

- **A. IF [Subject]- 'Science' THEN 'Sciences'
ELSEIF [Subject]='English' THEN 'Humanities'
ELSEIF [Subject]-'Social Studies' THEN 'Humanities'
ELSEIF [Subject]='Computer Science' THEN 'Sciences'
END**
- B. IIF((CONTAINS ([Subject], 'Science') = TRUE) , 'Humanities', 'Sciences')
- **C. CASE [Subject]
WHEN 'Computer Science' THEN 'Sciences'
WHEN 'Science' THEN 'Sciences'
WHEN 'English' THEN 'Humanities'
WHEN 'Social Studies' THEN 'Humanities'
End**
- D. IF ENDSWITH ([Subject], 'Computer Science') THEN 'Sciences' ELSE 'Humanities' END

Answer: A,C

Explanation:

To create a new calculated dimension field named Category that meets the given conditions, you can use either the IF or the CASE logical function. Both functions allow you to evaluate an expression and return a value based on different scenarios. Option A uses the IF function with multiple ELSEIF clauses to check the value of the Subject field and assign it to either 'Sciences' or 'Humanities'. Option D uses the CASE function with multiple WHEN clauses to do the same thing. Both options will produce the same result, but the CASE function is more concise and easier to read. Option B is incorrect because it will assign 'Humanities' to any subject that contains 'Science' in its name, which is not the desired outcome. Option C is incorrect because it will only check if the subject ends with 'Computer Science' and ignore the other subjects. Reference:

NEW QUESTION # 169

You have the following data source in Tableau Server.

You need to ensure that the data is updated every hour.

What should you select?

- **A. Extract Refreshes**
- B. Connected Workbooks
- C. New
- D. Connections

Answer: A

NEW QUESTION # 170

Open the link to Book1 found on the desktop. Open the Histogram worksheet and use the Superstone data source. Create a histogram on the Quantity field by using bin size of 3.

Answer:

Explanation:

Send us your feedback on it

NEW QUESTION # 171

You have the following box plot that shows the distribution of average profits made in every state by region.

Which region has the smallest distribution of profits?

- A. Central
- B. South
- C. West
- D. East

Answer: A

Explanation:

The central region has the smallest distribution of profits because it has the smallest interquartile range (IQR), which is the distance between the first and third quartiles of the box plot. The IQR measures the spread of the middle 50% of the data. The smaller the IQR, the less variation in the data. Reference: https://help.tableau.com/current/pro/desktop/en-us/buildexamples_boxplot.htm

NEW QUESTION # 172

When using a Show/Hide button in Tableau, what happens if the object is in a Tiled layout container?

- A. The layout automatically adjusts to fill the space.
- B. The object gets deleted from the dashboard.
- C. The hidden object remains in the same position but is grayed out.
- D. The object disappears from the item hierarchy.

Answer: A
