ORACLE 1z0-071 Exam Certification Path

To be qualified to take the ORACLE 1z0-071 exam, you must meet the following requirements and prerequisites:

Oracle 1z0-071 Dumps recommends that you should have at least one year of qualification or experience in the IT industry. If you do not have one year of experience, ORACLE's prerequisites are:

- You must have scored 600 on the Computer Science Aptitude Test (CSAT) or 700 on the Graduate Management Admissions Test (GMAT).
- Furthermore, you must complete 15 hours of college graduate coursework* in computer science, information systems management, or information technology coming from a regionally accredited institution.
- A prerequisite for Oracle 1z0-071 is to have an understanding of the following concepts, which are listed below. The concepts are the foundation on which the Oracle Certification exam will be based. You should understand DML (data manipulation language).
- You must have completed 60 undergraduate credits in Computer Science, Information Systems Management, Information Tech, or related discipline.

The fundamental tenet of Oracle Database Administration is that before you can administer a database, you must know how to create one. This chapter covers the creation of database objects in general and goes into detail on creating tables, views managing indexes, sequences, and triggers. It also discusses how to use PL/SQL code inside SQL statements to create object definitions or assignments without having to resort to interactively coding them inside SQL*Plus or through direct DDL statements with CREATE statements.

Oracle Database SQL Sample Questions (Q295-Q300):

NEW QUESTION # 295

View the exhibit and examine the data in ORDERS_MASTER and MONTHLY_ORDERS tables.
