SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q47-Q52):

NEW QUESTION # 47

Through which applications can you launch the Cloud Integration Automation Service (CIAS)? Note:

There are 2 correct answers to this question.

- **A. SAP for Me**
- **B. SAP Cloud ALM**
- C. SAP Signavio Process Navigator
- D. SAP Business Accelerator Hub

Answer: A,B

NEW QUESTION # 48

Based on the SAP Activate methodology, which activities must you perform in the Explore phase? Note:

There are 2 correct answers to this question.

- **A. Use the Test system to demonstrate SAP Best Practice processes.**
- **B. Conduct the Fit-to-Standard analysis to gather configuration values.**
- C. Define the organizational structure and chart of accounts.
- D. Conduct the Digital Discovery Assessment to identify extension requirements.

Answer: A,B

Explanation:

Based on the SAP Activate methodology, the Explore phase is where consultants configure business processes based on the information gathered in the Fit-to-Standard workshops. The Fit-to-Standard analysis is conducted in a series of workshops and allows for validation of predefined scenarios agreed upon and to make room for enhancements or additional configuration required. To prepare for this workshop, it is recommended that teams get familiar with the SAP Best Practices content, including the process flows, test scripts with sample data, and other documentation available in SAP Best Practices Explorer. Consultants should also use the Test system to demonstrate SAP Best Practice processes and enable business users to run the end-to-end processes and identify any gaps. The other two activities, conducting the Digital Discovery Assessment and defining the organizational structure and chart of accounts, are part of the Prepare phase, not the Explore phase. References = SAP Activate - Explore Phase: Use Fit-to-Standard to confirm business process fit and identify gaps in your SAP S/4HANA Cloud Implementation, SAP Explore Phase Activities: Define Target BP and Architecture, SAP Activate Elements and Phases, Explaining the Explore Phase

NEW QUESTION # 49

Which activities does the consultant do before the first Fit-to-Standard workshop? Note: There are 2 correct answers to this question.

- **A. Deactivate scope items that are NOT part of the Statement of Work/Digital Discovery Assessment.**
- B. Evaluate the L2 Business-Driven Configuration Questionnaire responses.
- C. Upload customer master data in the Starter system using migration templates.
- **D. Review the integration requirements collected from the Digital Discovery Assessment.**

Answer: A,D

Explanation:

Before the first Fit-to-Standard workshop, the consultant should do the following activities:

* Deactivate scope items that are NOT part of the Statement of Work/Digital Discovery Assessment. This is to ensure that the Starter system reflects the agreed scope of the project and does not include any unnecessary or out-of-scope items. The consultant can use the Scope Item Management app to deactivate scope items¹.

* Review the integration requirements collected from the Digital Discovery Assessment. This is to understand the customer's integration needs and prepare for the integration topics that will be discussed in the Fit-to-Standard workshop. The consultant can use the Integration Solution Advisor tool to review the integration requirements and the recommended integration scenarios².

The consultant should NOT do the following activities before the first Fit-to-Standard workshop:

* Upload customer master data in the Starter system using migration templates. This is not required before the first Fit-to-Standard workshop, as the customer master data is not relevant for the process validation. The consultant should upload the customer master data in the Quality system after the Fit-to-Standard workshop, using the SAP S/4HANA Migration Cockpit³.

* Evaluate the L2 Business-Driven Configuration Questionnaire responses. This is not required before the first Fit-to-Standard workshop, as the L2 Business-Driven Configuration Questionnaire is not available at this stage. The consultant should evaluate the L2 Business-Driven Configuration Questionnaire responses after the Fit-to-Standard workshop, using the SAP Activate Methodology.

References =

NEW QUESTION # 50

You want to restrict end user activities for an application.

Where would you look up the business catalog(s) that grant access to the app?

- A. In the Configure Your Solution app
- B. In the App Finder app
- **C. In the SAP Fiori Apps Reference Library**
- D. In the Define Your Scope app

Answer: C

NEW QUESTION # 51

Where are the manual test cases created for customer User Acceptance Testing?

- A. SAP Solution Manager
- **B. SAP Cloud ALM**
- C. SAP Signavio Process Navigator
- D. Test Automation Tool

Answer: B

NEW QUESTION # 52
