If you spend some time and pay attention to C-S4CPB-2508 test answers, there is no reason to not pass test and get the certification.

SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q30-Q35):

NEW QUESTION # 30

Who should be identified and assigned the role of the IT Contact immediately when the implementation begins?

- A. Customer system admin
- B. Partner project manager
- C. Customer project manager
- D. Partner lead configuration expert

Answer: A

Explanation:

The IT Contact is the person who is responsible for setting up the initial system access, provisioning users, and managing authentication for the SAP S/4HANA Cloud Public Edition project. The IT Contact should be identified and assigned immediately when the implementation begins, as they will receive all the SAP communications and notifications related to the system setup and configuration. The IT Contact should also be available and accessible throughout the project, and collaborate with the project team and the business stakeholders.

The IT Contact should be someone who is a hands-on system administrator, not an executive. They should have the skills and experience to perform the system administration tasks, such as creating users, assigning roles, configuring identity providers, and troubleshooting issues. They should also be committed and engaged with the project, and provide feedback and participate in testing and training activities.

Therefore, the correct answer is C, as the customer system admin is the most suitable person to be the IT Contact for the SAP S/4HANA Cloud Public Edition project. References = 1 How to Choose the Right IT Contact for Your SAP S/4HANA Cloud Public Edition Project - SAP Community

NEW QUESTION # 31

Which embedded support offerings can you make use of in the SAP Fiori Launchpad? Note: There are 3 correct answers to this question.

- A. Video tutorials from the SAP Help Portal
- B. Recorded system simulations from the Learning Center
- C. Assessment questions from the SAP Learning Hub
- D. Recorded webinars from the SAP Learning Website
- E. Digital assistance from generative AI (SAP Joule)

Answer: A,B,E

Explanation:

The SAP Fiori Launchpad provides embedded support offerings that can help users learn and perform tasks more efficiently. These offerings include:

- * Digital assistance from generative AI (SAP Joule): This is a conversational AI assistant that can answer user questions, provide guidance, and execute tasks using natural language. SAP Joule can be accessed by selecting the headphones icon in the top right corner of the SAP Fiori Launchpad and choosing the chat option.
- * Recorded system simulations from the Learning Center: These are interactive tutorials that show users how to perform common tasks and scenarios in the SAP S/4HANA Cloud system. Users can access the simulations by selecting the question mark icon in the top right corner of the SAP Fiori Launchpad and choosing the graduation cap icon. The simulations are created with the SAP Enable Now tool and can be customized by customers if needed.
- * Video tutorials from the SAP Help Portal: These are short videos that explain the features and functionalities of the SAP S/4HANA Cloud system and the SAP Fiori Launchpad. Users can access the videos by selecting the question mark icon in the top right corner of the SAP Fiori Launchpad and choosing the megaphone icon. The videos are also available on the SAP Help Portal website.

The other options are not embedded support offerings in the SAP Fiori Launchpad. Recorded webinars from the SAP Learning Website and assessment questions from the SAP Learning Hub are external learning resources that users can access separately from the SAP Fiori Launchpad. References = Using the Embedded Support Capabilities and the Joule Generative AI Assistant > Using the Embedded Support Capabilities and the Joule Generative AI Assistant > SAP Fiori Launchpad Embedded Help and Support. SAP Fiori Launchpad for SAP S/4HANA Cloud > SAP Fiori Launchpad > What is SAP Fiori launchpad? SAP Fiori Launchpad - Overview > Services.

NEW QUESTION # 32

If you cannot find a prepackaged solution process that addresses integration requirements in SAP Signavio Process Navigator, where do you look next?

- A. SAP Discovery Center
- B. SAP Business Accelerator Hub
- C. SAP Cloud ALM
- D. SAP Business Technology Platform

Answer: B

Explanation:

If you cannot find a prepackaged solution process that addresses integration requirements in SAP Signavio Process Navigator, you should look next at the SAP Business Accelerator Hub. The SAP Business Accelerator Hub is a central repository of integration content that can help you to connect SAP S/4HANA Cloud Public Edition with other SAP and non-SAP applications. You can browse, search, and filter the available integration packages, scenarios, and APIs, and access the relevant documentation and configuration guides¹. The SAP Business Accelerator Hub also provides links to the SAP Integration Suite tools, such as SAP Cloud Integration, SAP API Management, and SAP Cloud Integration Automation Service, that you can use to implement and manage the integrations².

The other options are not the correct places to look for integration requirements. SAP Discovery Center is a portal that helps you to discover, try, and buy SAP solutions and services³. SAP Business Technology Platform is a platform that enables you to extend, integrate, and build applications in the cloud⁴. SAP Cloud ALM is a cloud-based application lifecycle management tool that supports you in implementing, operating, and enhancing your cloud solutions⁵. References = SAP Business Accelerator Hub, SAP S/4HANA Cloud Public Edition - Integration, SAP Discovery Center, SAP Business Technology Platform, SAP Cloud ALM.

NEW QUESTION # 33

You are recording actions for a custom process step in a test automate

When do you press the "Read" button on the recording panel? Note: There are 2 correct answers to this question.

- A. To capture a static label on the screen that should be checked during test execution.
- **B. To capture a value in a text field that should be stored as a variable.**
- C. To capture an error message on the screen that can be used later.
- **D. To capture text in a message screen that can be used for data binding later.**

Answer: B,D

Explanation:

When you are recording actions for a custom process step in a test automate, you press the "Read" button on the recording panel in the following situations:

* To capture a value in a text field that should be stored as a variable. This allows you to reuse the value in other steps or test cases, or to compare it with an expected value1.

* To capture text in a message screen that can be used for data binding later. This allows you to extract data from the message screen and use it as an input for another step or test case2.

You do not press the "Read" button to capture an error message or a static label on the screen, as these are not values that need to be stored or used later. Instead, you can use the "Check" button to verify that the error message or the label is displayed as expected3. NEW QUESTION # 34

What activities are applied to the entire system and cannot be changed after confirmation in SAP Central Business Configuration?

Note: There are 2 correct answers to this question.

- **A. Group currency**
- B. Scoping
- C. Configuration activities
- **D. Fiscal year variant**

Answer: A,D
