After successful competition of the Amazon AWS-Solutions-Architect-Associate certification, the certified candidates can put their career on the right track and achieve their professional career objectives in a short time period. For the recognition of skills and knowledge, more career opportunities, professional development, and higher salary potential, the Amazon AWS-Solutions-Architect-Associate Certification Exam is the proven way to achieve these tasks quickly.

The AWS-Solutions-Architect-Associate (AWS Certified Solutions Architect - Associate (SAA-C02)) Certification Exam is an excellent way to showcase your expertise in designing and deploying scalable and reliable AWS systems. It is a valuable credential for individuals who are interested in pursuing a career in cloud computing and can help them stand out in a competitive job market. If you are interested in becoming an AWS certified solutions architect, taking the AWS-Solutions-Architect-Associate certification exam is a great place to start.

The AWS Certified Solutions Architect – Associate (SAA-C02) exam is a certification offered by Amazon Web Services (AWS) for individuals who want to demonstrate their knowledge and skills in designing and deploying scalable, highly available, and fault-tolerant systems on AWS. AWS Certified Solutions Architect - Associate (SAA-C03) certification is intended for solutions architects with at least one year of experience designing available, cost-efficient, fault-tolerant, and scalable distributed systems on AWS.

The AWS-Solutions-Associate exam covers a wide range of AWS services and concepts, including compute, storage, networking, security, and database services. Candidates are expected to have a solid understanding of AWS architecture, best practices, and cost optimization strategies. They should also be able to identify and recommend the most appropriate AWS services to meet specific business requirements.

AWS-Solutions-Architect-Associate Practice Exam | New AWS-Solutions-Architect-Associate Exam Cram

AWS-Solutions-Architect-Associate learning materials are high-quality, because we have a professional team to collect the latest information for the exam. We can ensure you that AWS-Solutions-Architect-Associate exam braindumps you receive is the latest information we have. Our company is strict with the quality and answers, therefore you just need to use them at ease. We offer you free demo to have a try before buying AWS-Solutions-Architect-Associate Exam Dumps, so that you can have a better understanding of what you are going to buy. In addition, you can receive the download link and password within ten minutes, and if you don't, you can contact us, and we will solve that for you.

Amazon AWS Certified Solutions Architect - Associate (SAA-C03) Sample Questions (Q446-Q451):

NEW QUESTION # 446

A company provides machine learning solutions. The company's users need to download large data sets from the company's Amazon S3 bucket. These downloads often take a long time, especially when the users are running many simulations on a subset of those datasets. Users download the datasets to Amazon EC2 instances in the same AWS Region as the S3 bucket. Multiple users typically use the same datasets at the same time.

Which solution will reduce the time that is required to access the datasets?

- A. Configure the S3 bucket to use the S3 Intelligent-Tiering storage class with S3 Transfer Acceleration activated.
- **B. C**
- C. Move the datasets onto a General Purpose SSD (gp3) Amazon Elastic Block Store (Amazon EBS) volume. Attach the volume to all the EC2 instances.
- D. Create an Amazon Elastic File System (Amazon EFS) network File system. Migrate the datasets by using AWS DataSync.
- E. Configure the S3 bucket to use the S3 Standard storage class with S3 Transfer Acceleration activated.

Answer: B

NEW QUESTION # 447

You have a distributed application that periodically processes large volumes of data across multiple Amazon EC2 Instances. The application is designed to recover gracefully from Amazon EC2 instance failures. You are required to accomplish this task in the most cost-effective way. Which of the following will meet your requirements?

- A. Dedicated instances
- B. Reserved instances
- **C. Spot Instances**
- D. On-Demand instances

Answer: C

NEW QUESTION # 448

A company is migrating a large, mission-critical database to AWS. A solutions architect has decided to use an Amazon RDS for MySQL Multi-AZ DB instance that is deployed with 80,000 Provisioned IOPS for storage. The solutions architect is using AWS Database Migration Service (AWS DMS) to perform the data migration. The migration is taking longer than expected, and the company wants to speed up the process. The company's network team has ruled out bandwidth as a limiting factor.

Which actions should the solutions architect take to speed up the migration? (Choose two.)

- A. Create a new DMS instance that has a larger instance size.
- B. Change the storage type on the target DB instance to Amazon Elastic Block Store (Amazon EBS) General Purpose SSD (gp2).
- C. Disable Multi-AZ on the target DB instance.
- **D. Turn off logging on the target DB instance until the initial load is complete.**
- **E. Restart the DMS task on a new DMS instance with transfer acceleration enabled.**

Answer: D,E

Explanation:

NEW QUESTION # 449

A solutions architect needs to ensure that API calls to Amazon DynamoDB from Amazon EC2 instances in a VPC do not traverse the internet. What should the solutions architect do to accomplish this? (Select TWO)

- **A. Create a gateway endpoint for DynamoDB**
- B. Create an ENI for the endpoint in each of the subnets of the VPC
- C. Create a security group entry in the default security group to provide access
- **D. Create a route table entry for the endpoint**
- E. Create a new DynamoDB table that uses the endpoint

Answer: A,D

Explanation:

Explanation

A VPC endpoint enables you to privately connect your VPC to supported AWS services and VPC endpoint services powered by AWS PrivateLink without requiring an internet gateway, NAT device, VPN connection, or AWS Direct Connect connection. Instances in your VPC do not require public IP addresses to communicate with resources in the service. Traffic between your VPC and the other service does not leave the Amazon network.

Gateway endpoints

A gateway endpoint is a gateway that you specify as a target for a route in your route table for traffic destined to a supported AWS service. The following AWS services are supported:

Amazon S3

DynamoDB

<https://docs.aws.amazon.com/vpc/latest/userguide/vpc-endpoints.html>

NEW QUESTION # 450

A company runs an application on Amazon EC2 instances. The application is deployed in private subnets in three Availability Zones of the us-east-1 Region. The instances must be able to connect to the internet to download files. The company wants a design that is highly available across the Region.

Which solution should be implemented to ensure that there are no disruptions to internet connectivity?

- A. Deploy a NAT gateway in a public subnet of each Availability Zone.
- B. Deploy an internet gateway in a public subnet of each Availability Zone.
- C. Deploy a NAT instance in a private subnet of each Availability Zone.
- D. Deploy a transit gateway in a private subnet of each Availability Zone.

Answer: A

Explanation:

Explanation (AWS Docs):

To allow private subnets to access the internet, deploy NAT gateways in a public subnet in each AZ for high availability. NAT instances are less scalable and less fault-tolerant.

"To create a highly available architecture, create a NAT gateway in each Availability Zone and configure your routing to use it."

- NAT Gateway Overview

NEW QUESTION # 451

.....

Our AWS-Solutions-Architect-Associate prepare questions are suitable for people of any culture level. According to different audience groups, our AWS-Solutions-Architect-Associate preparation materials for the examination of the teaching content of a careful division, so that every user can find a suitable degree of learning materials. More and more candidates choose our AWS-Solutions-Architect-Associate Quiz guide, they are constantly improving, so what are you hesitating about? As long as users buy our products online, our AWS-Solutions-Architect-Associate practice materials will be shared in five minutes, so hold now, but review it! This may be the best chance to climb the top of your life.
