Will you feel nervous for the exam? If you do, we can relieve your nerves if you choose us. OGEA-101 Soft test engine can stimulate the real exam environment, so that you can know procedures of the real exam environment, and it will build up your confidence. In addition, OGEA-101 exam materials are verified by the experienced experts, and therefore the quality can be guaranteed. We offer you free demo to have a try before buying, so that you can have a better understanding of what you are going to buy. If you buy OGEA-101 Exam Materials from us, we also pass guarantee and money back guarantee if you fail to pass the exam.

If you are going to take The Open Group OGEA-101 certification exam, it is essential to use OGEA-101 training materials. If you are looking for reference materials without a clue, stop！ If you don't know what materials you should use, you can try ExamsTorrent The Open Group OGEA-101 exam dumps. The hit rate of the dumps is very high, which guarantees you can pass your exam with ease at the first attempt. ExamsTorrent The Open Group OGEA-101 Practice Test dumps can determine accurately the scope of the examination compared with other exam materials, which can help you improve efficiency of study and help you well prepare for OGEA-101 exam.

Complete OGEA-101 Exam Dumps - Pass Guaranteed 2026 OGEA-101: First-grade TOGAF Enterprise Architecture Part 1 Exam Actual Test Answers

With our OGEA-101 exam questions, the most important and the most effective reward is that you can pass the exam and get the OGEA-101 certification. And it is also what all of the candidates care about. At the same time, you can also get some more practical skills. Your work efficiency will increase and your life will be more capable. Our OGEA-101 Guide questions are such a very versatile product to change your life and make you become better.

The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q100-Q105):

NEW QUESTION # 100

In which phase of the ADM cycle do building blocks become implementation-specific?

- A. Phase D
- B. Phase C
- C. Phase E
- D. Phase B

Answer: C

Explanation:

Building blocks are reusable components of business, IT, or architectural capability that can be combined to deliver architectures and solutions. Building blocks can be defined at various levels of detail, depending on the stage of architecture development. In the earlier phases of the ADMcycle (A to D), building blocks are defined in generic terms, such as logical or physical, to provide a high-level view of the architecture. In Phase E: Opportunities and Solutions, building blocks become implementation-specific, meaning that they are linked to specific products, standards, technologies, and vendors that are available in the market. This phase also identifiesthe delivery vehicles, such as projects, programs, or portfolios, that will realize the building blocks12 References: 1: The TOGAF Standard, Version 9.2, Part II: Architecture Development Method (ADM), Chapter 23: Phase E: Opportunities and Solutions 2: The TOGAF Standard, Version 9.2, Part IV:
Architecture Content Framework, Chapter 36: Building Blocks

NEW QUESTION # 101

In which part of the ADM cycle do building block gaps become associated with work packages that will address the gaps?

- A. Phase E
- B. Phases B C and D
- C. Phases G and H
- D. Phases F

Answer: A

Explanation:

In Phase E of the ADM cycle, building block gaps become associated with work packages that will address the gaps. This phase involves creating an Implementation and Migration Plan that defines a set of work packages and Transition Architectures that will deliver the Target Architecture. Reference: The TOGAF Standard | The Open Group Website, Section 3.2.5 Phase E:
Opportunities & Solutions.

NEW QUESTION # 102

Complete the sentence. The architecture domains that are considered by the TOGAF standard as subsets of an overall enterprise architecture are Business, Technology,

- A. Logical and Physical
- B. Capability and Segment
- C. Application and Data
- D. Information and Data

Answer: C

Explanation:

These domains provide a consistent way to describe and understand the architecture from different perspectives, such as business, information, and technology12. Each domain has its own set of concepts, models, views, and artifacts that define the structure and behavior of the architecture within that domain12.
The other options are incorrect because:
*Logical and Physical are not architecture domains, but rather levels of abstraction that can be applied to any domain. Logical architecture describes the functionality and behavior of the system, while physical architecture describes the implementation and deployment of the system3.

*Information and Data are not distinct architecture domains, but rather aspects of the same domain. Information architecture describes the meaning and context of the data, while data architecture describes the structure and format of the data4.

*Capability and Segment are not architecture domains, but rather levels of granularity that can be applied to any domain. Capability architecture describes the current and desired states of a specific business capability, while segment architecture describes a subdivision of the enterprise that has a clear business focus5.

References: 1: The TOGAF Standard, Version 9.2 - Definitions 2: TOGAF Standard - Introduction - Definitions 3: [Logical vs Physical Architecture] 4: [Information Architecture vs Data Architecture] 5: [The TOGAF Standard, Version 9.2 - Applying the ADM Across the Architecture Landscape]

NEW QUESTION # 103

Which of the following best summarizes the purpose of Enterprise Architecture?

- A. Governing the Stakeholders.
- B. Controlling the bigger changes.
- C. Guiding effective change.
- D. Taking major improvement decisions.

Answer: C

Explanation:
EA applies architecture principles and practices to analyze, design, plan, and implement enterprise analysis that supports digital transformation, IT growth, and the modernization of IT2. EA also helps organizations improve the efficiency, timeliness, and reliability of business information, as well as the alignment, agility, and adaptability of the architecture to the changing needs and requirements3. Therefore, the best summary of the purpose of EA is to guide effective change.

NEW QUESTION # 104

Which section of the TOGAF template for Architecture Principles should describe the relationship to other principles?

- A. Rationale
- B. Name
- C. Implications
- D. Statement

Answer: A

Explanation:
According to the TOGAF template for Architecture Principles, the Rationale section should describe the relationship to other principles, as well as the business benefits and the intentions of adhering to the principle. The Rationale section should use business terminology and point to the similarity of information and technology principles to the principles governing business operations. The Rationale section should also explain how the principle supports the achievement of the business objectives and key architecture drivers. Reference:
* Architecture Principles Template
* The TOGAF Standard, Version 9.2 - Architecture Principles
* The Open Group Exam OGEA-103 Topic 1 Question 4 Discussion

NEW QUESTION # 105

......

Without self-assessment, you cannot ace the OGEA-101 test. To ensure that you appear in the final TOGAF Enterprise Architecture Part 1 Exam (OGEA-101) examination without anxiety and mistakes, ExamsTorrent offers desktop The Open Group OGEA-101 Practice Test software and web-based OGEA-101 practice exam. These OGEA-101 practice tests are customizable, simulate the original OGEA-101 exam scenario, and track your performance.
