CompTIA Linux+ Certification Exam Sample Questions (Q727-Q732):

NEW QUESTION # 727

Which of the following is used on the client to boot a Linux system from a TFTP server?

- A. PXE
- B. EFI
- C. HTTP
- D. GRUB

Answer: A

NEW QUESTION # 728

A systems administrator receives the following message after running an ip link command to verify the status of a network interface named enp0s3:

state DOWN

Which of the following commands should the administrator use to resolve this issue?

- A. ip link enp0s3 up
- B. ip link ifb enp0s3 up
- C. ip link add enp0s3 up
- D. ip link set enp0s3 up

Answer: D

Explanation:

* A is correct syntax to bring up a network interface.

Incorrect Options:

* B, C, D: Invalid or misused ip link subcommands.

man ip

NEW QUESTION # 729

An administrator wants to use a Linux server's GUI remotely but is limited by security to using TCP port 22. Which of the following is the BEST choice for installation on the Linux server to enable this functionality?

- A. VNC
- B. NX
- C. XRDp
- D. X-forwarding

Answer: A

NEW QUESTION # 730

A user is unable to log on to a Linux workstation. The systems administrator executes the following command:

```
cat /etc/shadow | grep user1
```

The command results in the following output:

```
user1 :! $6$QERgAsdvojadv4asdvaarC/9dj34GdafGVaregmksfa:18875:0:99999:7 :::
```

Which of the following should the systems administrator execute to fix the issue?

- A. chgrp user1:user1 /home/user1
- B. chown -R user1:user1 /home/user1
- C. passwd -u user1
- D. sed -i 's/::/::g' /etc/shadow

Answer: C

Explanation:

The output shows that the user1 account has a locked password, indicated by the exclamation point (!) in the second field of the /etc/shadow file. To unlock the password and allow the user to log in, the systems administrator should use the passwd command with the -u (unlock) option.

NEW QUESTION # 731

A systems administrator is analyzing the data usage on a Linux system. Which of the following commands will display a list of the entire /var contents along with sizes?

- A. ls -ltr /var | sort -n
- B. lsblk /var
- C. du -ah /var/
- D. df -h /var

Answer: C

Explanation:

The du(disk usage) command is used to display the size of files and directories.

du -ah /var/- The -h option makes the sizes human-readable (e.g., KB, MB, GB).
