It examines the role of these principles in supporting digital transformations and agile work processes.</li> </ul>

## Peoplecert ITIL 4 Specialist: High-velocity IT Exam Sample Questions (Q30-Q35):

### NEW QUESTION # 30

An organization is undergoing a digital transformation and is conducting a strategic analysis of its customers' needs. The organization uses agile methods to manage its digital products and a more traditional waterfall approach to manage its legacy systems. The organization is also considering introducing new products and services. Which is the BEST way for this organization to undertake this analysis?

- A. Perform a detailed gap analysis of current and future customer needs
- B. Use a single standardized approach for all customer needs analysis
- C. Develop models that help analysts perform tasks that are appropriate for a given context
- D. Focus on digital products and defer legacy systems analysis

**Answer: C**

### NEW QUESTION # 31

Which is a type of digital transformation?

- A. Using robots to enable new ways of working
- B. Converting data from analogue form to digital form
- C. Creating products and services that include digital technology
- D. Using an information system to process data and present it to users

**Answer: C**

### NEW QUESTION # 32

Users often do not provide feedback because they do not believe it will be addressed. Which is the BEST method for encouraging users to submit feedback in this situation?

**Answer:**

Explanation:

Making feedback processing visible for everyone

### NEW QUESTION # 33

An organization has recently made improvements to how users request new phones, track their arrival and get help setting the phone up.

Which practice has been most affected by these improvements?

**Answer:**

Explanation:

Service request Management

#### NEW QUESTION # 34

A software development team works in a heavily-regulated organization that is undergoing a digital transformation. The team carried out a pilot to demonstrate that CI/CD could significantly reduce the lead time for making quality changes. Although impressed with the results, the organization's leadership team has concerns and is unwilling to support the use of CI/CD until their concerns are addressed.

Which are the TWO MOST LIKELY reasons for the leadership team's concerns?

- \* The pilot did not adequately address governance, risk, and compliance issues
- \* The organization is focused on innovation and lead time is not a priority
- \* Leaders desire smaller, more frequent, and more reliable deployments
- \* The company's policies require that Dev, testing and Ops are separated duties

- A. 1 and 4
- B. 3 and 4
- C. 2 and 3
- D. 1 and 2

**Answer: A**

Explanation:

In a heavily regulated organization, leadership concerns about CI/CD usually center on control, compliance, segregation of duties, auditability, and policy alignment. That makes statement 1 highly likely: the pilot may have proven speed and quality improvements without fully addressing governance, risk, and compliance expectations. Statement 4 is also highly likely because many regulated environments maintain formal separation between development, testing, and operations responsibilities.

Statement 2 is unlikely, because the scenario specifically says the pilot reduced lead time for quality changes, which leadership found impressive. Statement 3 describes a likely desired outcome of CI/CD, not a reason for resistance.

#### NEW QUESTION # 35

.....

If you can get a certification, it will help you a lot, for instance, it will help you get a more job and a better title in your company than before, and the ITIL-4-Specialist-High-velocity-IT certification will help you get a higher salary. We believe that our company has the ability to help you successfully pass your exam and get a ITIL-4-Specialist-High-velocity-IT certification by our ITIL-4-Specialist-High-velocity-IT exam torrent. We can promise that you would like to welcome this opportunity to kill two birds with one stone. If you choose our ITIL-4-Specialist-High-velocity-IT Test Questions as your study tool, you will be glad to study for your exam and develop self-discipline, our ITIL-4-Specialist-High-velocity-IT latest question adopt diversified teaching methods, and we can sure that you will have passion to learn by our products.
