Manufacturing-Cloud-Professional 시험대비 덤프 최신 샘플, Manufacturing-Cloud-Professional 최신 업데이트 버전 인증덤프

Salesforce Manufacturing-Cloud-Professional 시험 기출문제를 애타게 찾고 계신가요? PassTIP의 Salesforce Manufacturing-Cloud-Professional 덤프는 Salesforce Manufacturing-Cloud-Professional 최신 시험의 기출문제뿐만 아니라 정답도 표기되어 있고 저희 전문가들의 예상문제도 포함되어 있어 한 방에 응시자분들의 고민을 해결해드립니다. 구매 후 시험문제가 변경되면 덤프도 시험문제 변경에 따라 업데이트하여 무료로 제공해드립니다.

제조 클라우드 공인 전문가가 되려면 후보자는 105 분 안에 60 질문 객관식 시험을 통과해야 합니다. 시험은 Salesforce가 관리하며 테스트 센터에서 온라인 또는 직접 복습 할 수 있습니다. 시험의 합격 점수는 69%이며 시험 수수료는 \$ 200 USD입니다.

Salesforce Manufacturing-Cloud-Professional 시험을 준비하기 위해 개인은 Salesforce가 제공하는 다양한 교육 과정을 수강 할 수 있습니다. 이 과정은 제조 판매 및 운영 계획, 수요 관리 및 주문 관리와 같은 주제를 다룹니다. 또한 개인은 실습 시험 및 가이드를 포함한 학습 자료에 액세스하여 시험 준비를 할 수 있습니다. 시험은 도전적이며 개인은 Salesforce의 제조 클라우드를 잘 이해해야 합니다.

최신 Accredited Professional Manufacturing-Cloud-Professional 무료 샘플 문제 (Q97-Q102):

질문 # 97

Universal container wants to stream line the way they collaborate on sales agreement with their channel partners which is the recommended option

- A. Leverage Heroku for Manufacturing cloud to set up a secure site for collaboration
- B. Leverage my domain to set up a secure site for collaboration
- C. Leverage the manufacturing experience cloud template to set up a secure site for collaboration
- D. Leverage the salesforce site manufacturing cloud template to set up a secure site for collaboration

정답: C

설명:

Manufacturing Cloud comes with a predefined manufacturing partner template that can help manufacturers collaborate efficiently with their channel partners on sales agreements, forecasts, leads, and opportunities. The manufacturing partner template is a responsive portal that provides partners with access to knowledge articles, dashboards, and reports. Partners can also update products, prices, quantities, and adjustments on sales agreements, as well as view and edit account forecasts. The manufacturing experience cloud template is built on Experience Cloud, which allows you to customize the site with branding, themes, components, and pages. You can also assign user permissions and roles for the site to control the access and visibility of your partners. 질문 # 98

A salesforce Manufacturing cloud admin wants to change the forecast frequency form quarterly to monthly in the account settings. Which two things do they need to be aware of?

- A. The length of the time that has elapsed since the last change to the forecast setting.
- B. The administrator grants them to right make changes to the forecast settings in the adjustments.
- C. A recalculation of the forecast for the accounts added since the least update will be carried out
- D. All the previously active account forecasts will expire
- E. A full regeneration of all the eligible account forecasts will be carried out.

정답: D,E

설명:

Account forecasts are long-term projections of revenue and volume for accounts based on sales agreements, opportunity products, and account manager targets. Account forecasts can be generated and displayed monthly or quarterly, depending on the business needs. The forecast frequency can be changed in the account forecast settings by an administrator. However, changing the forecast frequency has some consequences that the administrator needs to be aware of. First, a full regeneration of all the eligible account forecasts will be carried out, meaning that all the existing account forecasts will be recalculated based on the new frequency. This may take some time and consume system resources. Second, all the previously active account forecasts will expire, meaning that they will no longer be available for viewing or editing. This is to avoid confusion and inconsistency in the forecast data. Therefore, the administrator should carefully consider the impact of changing the forecast frequency and communicate the change to the account managers and other stakeholders. 질문 # 99

Universal container wants to enter a sales agreement for Widget A, Which three minimum data element required on sales agreement

- A. Account, Product, Orders
- B. Opp, Pricebook, Product
- C. Account, Opp, Contracts
- D. Account, Price book, Product

정답: D

설명:

Explanation

A sales agreement is a long-term contract between a manufacturer and a customer that specifies the products, prices, quantities, and delivery schedules for a given period of time. To create a sales agreement, you need to specify the account (the customer), the price book (the list of products and prices), and the product (the item to be sold). These are the minimum data elements required to create a sales agreement in Manufacturing Cloud. References: Create a Sales Agreement, Get Started with Sales Agreements

질문 # 100

Universal Containers (UC) has implemented Sales Cloud and Service Cloud in seven countries in EMEA for about 100 users. UC has successfully tested and signed off on additional Sales Agreements functionality. In order to have control over the rollout and monitor the adoption, UC wants to roll out in a phased manner, country by country. UC follows a single-org strategy. How should a consultant enable this rollout scenario?

- A. Deploy the new functionality and assign the Manufacturing licenses to all of the users.
- B. Deploy the new functionality and make the Sales Agreements tab visible for the designated users.
- C. Deploy the new functionality and assign the permission set to the designated users.

정답: C

설명:

Explanation

To enable a phased rollout scenario, the consultant can deploy the new functionality to the production org and assign the Manufacturing Cloud permission set to the users who are part of the rollout. This way, only the designated users can access the Sales Agreements tab and functionality. The other users can continue to use the standard Sales Cloud or Service Cloud features without any disruption. References: Salesforce Manufacturing Cloud Implementation Guide, page 25

질문 # 101

A new custom field is created on the Account Product Forecast (APF) Table. Account Managers have already been assigned the standard Manufacturing Account Forecast permission set. Which two actions can be taken to give the Account Managers 'Read' access to this new field?

- A. Create a new custom permission set of license type 'Salesforce'. Grant Read access to the field. Assign the newly created permission set to the Account Managers
- B. Clone the standard permission set Manufacturing Account Forecast to a new permission set with license type Manufacturing Forecast Psl. Grant Read access to the field on the new permission set. Assign the cloned permission set to the Account Managers.
- C. Give 'Read' access to the field on the standard Manufacturing Account Forecast' permission set.
- D. Clone the standard permission set Account Forecast to a new permission set with license type 'Salesforce. Grant 'Read' access to the field on the new permission set. Assign the cloned permission set to the Account Managers

정답: B,C

설명:

Explanation

= These two actions can be taken to give the Account Managers 'Read' access to the new custom field on the APF Table. The first action involves cloning the existing permission set that already grants access to the APF Table and its standard fields, and then modifying the cloned permission set to include the new custom field.

The second action involves editing the existing permission set directly to add the new custom field. Both actions require the same license type, which is Manufacturing Forecast Psl, to access the APF Table. The other two actions are not valid because they use a different license type, which is Salesforce, that does not support the APF Table.
