SAP C-ARSOR-2404 Exam Syllabus Topics:

Topic	Details
Topic 1	Event and Auction Creation: This substantial portion of the exam is crucial for procurement specialists and sourcing managers. It provides a comprehensive overview of the various event types available in SAP Ariba Sourcing and guides candidates through the process of initiating new events. This section is fundamental for mastering the core aspects of creating and managing sourcing events and auctions within the SAP Ariba ecosystem.
Topic 2	Administration: This section is critical for system administrators and procurement team leaders. It delves into the intricacies of workflow configuration, project and task setup, and data handling within the SAP Ariba Sourcing platform. Mastery of these elements is crucial for ensuring the sourcing system operates efficiently and effectively.

Topic 3	• Project Creation and Management: Despite its smaller scope, this section is essential for project managers and sourcing coordinators. It covers the fundamentals of defining sourcing projects, comprehending approval mechanisms, and overseeing sourcing requests. These competencies are foundational for effectively orchestrating sourcing activities within an organization.
Topic 4	• Product Sourcing: This area is tailored for professionals managing direct materials procurement. It encompasses the description, utilization, and administration of product sourcing functionalities specific to direct materials. This specialized knowledge is indispensable for navigating the complexities of supply chains involving direct materials.
Topic 5	• Auctions: Sourcing specialists and auction managers will find this section particularly relevant. It explores the diverse auction types offered by SAP Ariba, encompassing both the theoretical justification for auctions and the practical aspects of their implementation and management. This knowledge is vital for maximizing the strategic value of auctions in procurement processes.
