P.S. Free 2026 Juniper JN0-460 dumps are available on Google Drive shared by DumpsReview: <https://drive.google.com/open?id=1idTSz9Avm3o0Y1WrRVPUO6caXX5hybpJ>

As we know, if you can obtain the job qualification JN0-460 certificate, which shows you have acquired many skills. In this way, your value is greatly increased in your company. Then sooner or later you will be promoted by your boss. Our JN0-460 Preparation exam really suits you best for your requirement. We have been considered to be the best friend for helping numerous of our customers successfully get their according JN0-460 certification.

This society is ever – changing and the test content will change with the change of society. You don't have to worry that our JN0-460 study materials will be out of date. In order to keep up with the change direction of the exam, our question bank has been constantly updated. We have dedicated IT staff that checks for updates every day and sends them to you automatically once they occur. The update for our JN0-460 Study Materials will be free for one year and half price concession will be offered one year later.

## By Achieving the Juniper JN0-460 You will Get the Job

The Juniper JN0-460 desktop practice exam software is customizable and suits the learning needs of candidates. A free demo of the

Mist AI Wired, Specialist (JNCIS-MistAI-Wired) (JN0-460) desktop software is available for sampling purposes. You can change JN0-460 Practice Exam's conditions such as duration and the number of questions. This simulator creates a Juniper JN0-460 real exam environment that helps you to get familiar with the original test.

## Juniper Mist AI Wired, Specialist (JNCIS-MistAI-Wired) Sample Questions (Q83-Q88):

### NEW QUESTION # 83

What are three requirements for using ZTP during a Mist AI greenfield provisioning? (Choose three.)

- A. Internet access
- B. DHCP server
- C. Junos Space
- D. Claim code
- E. SNMP server

**Answer: A,B,D**

### NEW QUESTION # 84

Which of the following is a key consideration when scaling Campus Fabric Architectures?

- A. Planning for future expansion and technology evolution
- B. Maintaining a single layer design
- C. Ignoring user and device growth
- D. Ensuring adequate coffee supply for the IT department

**Answer: A**

### NEW QUESTION # 85

Which control plane protocol does Juniper recommend when deploying VXLAN?

- A. PIM
- B. IGMP
- C. EVPN
- D. OVSDB

**Answer: C**

### NEW QUESTION # 86

What is the purpose of an EVPN Type 4 route?

- A. to provide a designated forwarder election
- B. to provide MAC advertisement
- C. to provide a mass withdraw
- D. to provide BUM flooding

**Answer: A**

Explanation:

According to Juniper Networks' EVPN documentation, an EVPN Type 4 route, also known as an Ethernet Segment route, is a critical component of the BGP EVPN control plane used specifically in multihoming scenarios. When a Customer Edge (CE) device is connected to two or more Provider Edge (PE) routers via a Link Aggregation Group (LAG), these PE routers must coordinate to manage traffic flow and prevent network loops.

The primary purpose of the Type 4 route is to enable Designated Forwarder (DF) election. In a multihomed Ethernet Segment (identified by a unique Ethernet Segment Identifier or ESI), only one PE router-the Designated Forwarder-is permitted to forward Broadcast, Unknown unicast, and Multicast (BUM) traffic from the EVPN core to the CE device. Without this election process, multiple PE routers would forward the same BUM packets to the CE, leading to traffic duplication and potential broadcast storms.

The workflow begins when a PE router is configured with an ESI on a physical or logical interface; it then generates and advertises a Type 4 route to all other PE routers in the network. This route carries the ESI and an "ES-import" extended community, which allows other PEs connected to the same segment to automatically discover their peers. Once these "peering" PEs are discovered, they collectively execute a DF election algorithm-such as the default modulo-based algorithm or the newer preference-based algorithm-to select the DF and Backup Forwarder (BDF) for each VLAN or bridge domain. By ensuring a deterministic and synchronized selection of the forwarder, Type 4 routes provide the foundational stability required for active-active and active-standby multihoming in modern campus and data center fabrics.

#### NEW QUESTION # 87

You want a Juniper cloud-ready switch to connect to the Juniper Mist Cloud. In this scenario, which two statements are correct? (Choose two.)

- A. The switch must connect to the Juniper Agile Licensing Portal.
- **B. The switch must connect to a DNS server.**
- C. The switch must be running Junos OS version 23.2 or higher.
- **D. The switch needs outbound connectivity to the Juniper Mist Cloud using either TCP port 2200 or port 443.**

**Answer: B,D**

Explanation:

For Juniper cloud-ready EX Series switches (EX2300, EX3400, EX4100, EX4400, etc.) to successfully onboard to the Juniper Mist Cloud, specific connectivity requirements must be met:

"Cloud-managed EX switches require outbound connectivity to the Mist Cloud on TCP ports 2200 or 443.

Switches must also have access to DNS services to resolve cloud service URLs during onboarding." Option A: Incorrect - minimum version depends on switch model; older models may onboard with earlier releases (e.g., 20.x, 21.x).

Option B: Correct - outbound TCP 2200 or 443 connectivity is required for cloud registration.

Option C: Incorrect - switches connect directly to Mist Cloud, not the Agile Licensing Portal.

Option D: Correct - DNS resolution is mandatory for discovering Mist Cloud endpoints.

#### NEW QUESTION # 88

.....

Our JN0-460 learning guide allows you to study anytime, anywhere. If you are concerned that your study time cannot be guaranteed, then our JN0-460 learning guide is your best choice because it allows you to learn from time to time and make full use of all the time available for learning. Our online version of JN0-460 learning guide does not restrict the use of the device. You can use the computer or you can use the mobile phone. You can choose the device you feel convenient at any time. What is more, you can pass the JN0-460 exam without difficulty.
