## CSC CANADIAN SECURITIES COURSE EXAM NEWEST 2024- 2025 ACTUAL EXAM COMPLETE 321 QUESTIONS AND CORRECT DETAILED ANSWERS (VERIFIED ANSWERS)

### Terms in this set (321)

Agent	An investment dealer operates as an agent when it acts on behalf of a buyer or a seller of a security and does not itself own title to the securities at any time during the transactions.
Broker	An investment dealer or a duly registered individual that is registered to trade in securities in the capacity of an agent or principal and is a member of a self-regulatory organization.
CDS Clearing and Depository Services Inc.	CDS provides customers with physical and electronic facilities to deposit and withdraw depository-eligible securities and manage their related ledger positions (securities accounts). CDS also provides electronic clearing services both domestically and internationally, allowing customers to report, confirm and settle securities trade transactions.
Clearing	The process of confirming and matching security trade details.
Closed-end fund	Shares in closed-end investment companies are readily transferable in the open market and are bought and sold like other shares. Capitalization is fixed.

## CSI CSC2 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Portfolio Analysis: This section of the exam measures the skills of a Portfolio Manager and covers portfolio management approaches including risk and return measurement, portfolio optimization strategies, management styles, and the complete portfolio management process from objective setting to performance evaluation and rebalancing.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>The Corporation: This section of the exam measures the skills of a Corporate Finance Analyst and covers corporate structures, financial statements, disclosure requirements, investor rights, financing methods, capital raising processes, prospectus requirements, securities distribution, and exchange listing procedures for corporations.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>The Economy: This section of the exam measures the skills of an Economic Analyst and covers fundamental economic concepts including microeconomics and macroeconomics, economic growth measurement, business cycles, labor markets, interest rates, inflation, international trade, and both fiscal and monetary policy with emphasis on the Bank of Canada's role and government policy challenges.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Investment Analysis: This section of the exam measures the skills of a Research Analyst and covers both fundamental and technical analysis methods, including macroeconomic, industry and company analysis techniques, financial statement interpretation, ratio analysis, and security valuation approaches.</li></ul>
Topic 5	<ul style="list-style-type: none"><li>Analysis of Managed and Structured Products: This section of the exam measures the skills of an Investment Products Specialist and covers mutual funds, exchange-traded funds, alternative investments, structured products, and other managed products including their structures, regulations, features, risks, strategies, performance measurement, and tax implications within the Canadian investment landscape.</li></ul>

## CSI Canadian Securities Course Exam2 Sample Questions (Q29-Q34):

### NEW QUESTION # 29

Which investment account generally offers the least sophisticated products and has the lowest minimum requirement for investible assets?

- A. Separately managed.
- B. Unified managed.
- C. Robo-advisory.
- D. Non-model-based.

**Answer: C**

### NEW QUESTION # 30

What is the normal shape of a yield curve?

- A. Downward slope
- B. inverted
- C. Upward slops
- D. Humped

**Answer: C**

Explanation:

The normal shape of a yield curve is an upward slope, indicating that longer-term bonds offer higher yields than shorter-term bonds. This reflects the additional risk and time value of money associated with longer maturities.

- \* A. Downward slope: This could describe a yield curve during unusual circumstances, such as a period of market uncertainty or deflation.
- \* B. Inverted: An inverted yield curve, where shorter-term yields exceed longer-term yields, is a rare occurrence and often signals economic recession.
- \* D. Humped: A humped curve is rare and occurs when intermediate-term yields exceed both short-term and long-term yields.

### NEW QUESTION # 31

If the government wants to stimulate the economy through fiscal policy, what action should it take?

- A. Increase spending and money supply
- B. Decrease interest rates and increase money supply
- C. Decrease taxes and increase spending
- D. Decrease taxes and interest rates

**Answer: C**

### NEW QUESTION # 32

The principle of retraction in retractable preferred shares is identical to what other security?

- A. Retractable bonds and debentures
- B. Redeemable preferred shares.
- C. Retractable common shares
- D. Callable preferred shares.

**Answer: A**

Explanation:

The principle of retraction in retractable preferred shares allows the shareholder to force the issuing company to redeem the shares for cash at a predetermined price on or after a specified date. This feature is identical to retractable bonds and debentures, which give the bondholder the option to require the issuer to repay the principal before maturity.

\* A. Callable preferred shares: Callability benefits the issuer, not the holder, and is not similar to retraction.

\* B. Retractable common shares: Such securities are not common in the market and are not comparable to retractable preferred shares.

\* C. Redeemable preferred shares: Redemption is at the issuer's discretion, unlike retraction, which is at the holder's discretion.

Reference: CSC Volume 1, Chapter 8, "Preferred Shares - Retractable Preferred Shares" explains the retraction feature and its similarity to retractable bonds.

### NEW QUESTION # 33

Which is a typical feature of investing in a listed private equity company?

- A. Controls and limits on private equity management to protect existing investors.
- B. Average levels of liquidity.
- C. Ability to act on legitimate insider information.
- D. Access to a wide range of skills and large number of personnel.

**Answer: D**

Explanation:

Investing in a listed private equity company offers the benefit of access to a broad array of skills and a large talent pool. Unlike traditional private equity investments, these entities are publicly traded and often operate with extensive resources and expertise to evaluate and manage investment opportunities.

\* Key Features of Listed Private Equity Companies

\* They provide liquidity compared to traditional private equity, as shares can be traded on public exchanges.

\* They leverage a diverse team of analysts, strategists, and operational experts to identify and optimize investment opportunities.

\* Evaluating Other Options:

\* Average levels of liquidity (A): Listed private equity companies are considered to have higher liquidity relative to traditional private equity funds.

\* Controls and Limits (C): These companies may not necessarily impose stricter controls than traditional private equity.

- \* Ability to act on legitimate insider information (D): Insider trading is strictly regulated and prohibited by law.
  - \* Risk and Return Trade-Off: While providing advantages like transparency and liquidity, listed private equity investments may be subject to market volatility akin to other publicly traded equities.
  - \* Volume 2, Chapter 22: Alternative Investments - Section on Listed Private Equity.
  - \* Volume 2, Chapter 20: Investment Structures and Risks - Private Equity Analysis.
- Detailed Explanation:References:
