The next step is to send it to an approver to either approve the task or reject it, As well as our after-sales services, Please believe us that our CAS-004 torrent question is the best choice for you.

The high pass rate of our CAS-004 exam prep is 99% to 100%, These free updates will help you study as per the CompTIA CAS-004 latest examination content.

Passing an exam isn't an easy thing for some candidates, if you choose the CAS-004 training materials of us, we will make the exam easier for you, Nowadays the competition in the job market is fiercer than any time in the past.

CAS-004 Vce Format & Reliable CAS-004 Exam Materials - CAS-004 Latest Test Labs

P.S. Free & New CAS-004 dumps are available on Google Drive shared by Exam4Docs: https://drive.google.com/open?id=1kDCbLsjnk_YPgrbQ1muG72ab2P-djIyy

In a year after your payment, we will inform you that when the CAS-004 exam guide should be updated and send you the latest version. Our company has established a long-term partnership with those who have purchased our CAS-004 exam questions. We have made all efforts to update our products in order to help you deal with any change, making you confidently take part in the CAS-004 exam. Every day they are on duty to check for updates of CAS-004 Study Materials for providing timely application. We also welcome the suggestions from our customers, as long as our clients propose rationally. We will adopt and consider it into the renovation of the CAS-004 exam guide. Anyway, after your payment, you can enjoy the one-year free update service with our guarantee.

It is not a time to get scared of taking any difficult certification exam such as CAS-004. The excellent study guides, practice questions and answers and dumps offered by Exam4Docs are your real strength to take the test with confidence and pass it without facing any difficulty. Passing an CAS-004 exam rewards you in the form of best career opportunities. A profile rich with relevant credentials opens up a number of career slots in major enterprises. Exam4Docs's CAS-004 Questions and answers based study material guarantees you career heights by helping you pass as many exams as you want.

Prominent Features of Exam4Docs CompTIA CAS-004 Exam Questions

Everyone wants to have a good job and decent income. But if they don't have excellent abilities and good major knowledge they are hard to find a decent job. Passing the test CAS-004 certification can make you realize your dream and find a satisfied job. Our study materials are a good tool that can help you pass the exam easily. You will feel convenient if you buy our product not only because our CAS-004 Exam Prep is of high pass rate but also our service is also perfect. What's more, our update can provide the latest and most useful CAS-004 exam guide to you, in order to help you learn more and master more.

CompTIA Advanced Security Practitioner (CASP+) Exam Sample Questions (Q255-Q260):

NEW QUESTION # 255

A security consultant needs to set up wireless security for a small office that does not have Active Directory. Despite the lack of central account management, the office manager wants to ensure a high level of defense to prevent brute-force attacks against wireless authentication.

Which of the following technologies would BEST meet this need?

- A. Faraday cage
- B. WPA2 PSK
- C. WEP 128 bit
- **D. WPA3 SAE**

Answer: D

Explanation:

Explanation

WPA3 SAE prevents brute-force attacks.

"WPA3 Personal (WPA-3 SAE) Mode is a static passphrase-based method. It provides better security than what WPA2 previously provided, even when a non-complex password is used, thanks to Simultaneous Authentication of Equals (SAE), the personal authentication process of WPA3."

NEW QUESTION # 256

A host on a company's network has been infected by a worm that appears to be spreading via SMB. A security analyst has been tasked with containing the incident while also maintaining evidence for a subsequent investigation and malware analysis.

Which of the following steps would be best to perform FIRST?

- A. Turn off the infected host immediately.
- **B. Isolate the infected host from the network by removing all network connections.**
- C. Run a full anti-malware scan on the infected host.
- D. Modify the smb.conf file of the host to prevent outgoing SMB connections.

Answer: B

NEW QUESTION # 257

A security architect needs to implement a CASB solution for an organization with a highly distributed remote workforce. One Of the requirements for the implementation includes the capability to discover SaaS applications and block access to those that are unapproved or identified as risky. Which of the following would BEST achieve this objective?

- A. Deploy endpoint agents that monitor local web traffic and control access according to centralized policy.
- B. Deploy endpoint agents that monitor local web traffic to enforce DLP and encryption policies.
- **C. Implement cloud infrastructure to proxy all user web traffic and control access according to centralized policy.**
- D. Implement cloud infrastructure to proxy all user web traffic to enforce DI-P and encryption policies.

Answer: C

NEW QUESTION # 258

An organization found a significant vulnerability associated with a commonly used package in a variety of operating systems. The organization develops a registry of software dependencies to facilitate incident response activities. As part of the registry, the organization creates hashes of packages that have been formally vetted. Which of the following attack vectors does this registry address?

- A. Cipher substitution attack
- B. Side-channel analysis
- C. On-path attack
- D. Pass-the-hash attack
- E. Supply chain attack

Answer: E

NEW QUESTION # 259

A security consultant is designing an infrastructure security solution for a client company that has provided the following requirements:

- * Access to critical web services at the edge must be redundant and highly available.
- * Secure access services must be resilient to a proprietary zero-day vulnerability in a single component.
- * Automated transition of secure access solutions must be able to be triggered by defined events or manually by security operations staff.

Which of the following solutions BEST meets these requirements?

- A. Implementation of multiple IPSec VPN solutions with diverse endpoint configurations enabling user optionality in the selection of a remote access provider
- B. Remote access services deployed using vendor-diverse redundancy with event response driven by playbooks.
- C. Two separate secure access solutions orchestrated by SOAR with components provided by the same vendor for compatibility.
- D. Reverse TLS proxy configuration using OpenVPN/OpenSSL with scripted failover functionality that connects critical web services out to endpoint computers.

Answer: B

Explanation:

Remote access services deployed using vendor-diverse redundancy with event response driven by playbooks is the best solution to meet the requirements. Vendor-diverse redundancy means using different vendors or technologies to provide the same service or function, which can increase the availability and resilience of the service. For example, if one vendor's VPN solution fails due to a zero-day vulnerability, another vendor's VPN solution can take over without affecting the users. Event response driven by playbooks means using predefined workflows or scripts to automate the actions or decisions that need to be taken in response to certain events or triggers. For example, a playbook can define how to switch between different remote access solutions based on certain criteria or conditions, such as performance, availability, security, or manual input.

Playbooks can also be integrated with SOAR platforms to leverage their capabilities for orchestration, automation, and response.
