Use this CWDP-305 practice material to ensure your exam preparation is successful. Mock exams at TestKingIT are available in CWDP-305 desktop software and web-based format. Both CWNP CWDP-305 self-assessment exams have similar features. They create an CWNP CWDP-305 actual test-like scenario, point out your mistakes, and offer customizable sessions.

CWNP Certified Wireless Design Professional Sample Questions (Q205-Q210):

NEW QUESTION # 205

What should you do during the design process of a point-to-point bridge link to minimize CCI and ACI?

- A. Perform an outdoor site survey in the area of both buildings and determine the best channel to use
- B. Choose a channel on the 5 GHz band outside of the UNII-1 and UNII-3 channels
- C. Choose a channel on the 2.4 GHz band other than the overused 1, 6, and 11
- D. Install the antennas and choose the least busy channel using trial and error problem solving

Answer: A

Explanation:

In outdoor environments, channel contention, co-channel interference (CCI), and adjacent channel interference (ACI) can negatively affect bridge performance. The most effective method for identifying usable channels is through a site survey, which includes spectrum analysis at both endpoints.

From CWDP-305:

"Performing an outdoor site survey is critical for point-to-point deployments. This reveals existing RF usage in the area, allowing the selection of channels with minimal interference for optimal link stability."

NEW QUESTION # 206

When selecting a centralized WLAN architecture, what new problem may arise when you change the data forwarding model from centralized to distributed?

- A. All RRM controls will also need to be distributed to a master AP that acts as a channel and transmit power arbiter for other APs in the ESS.
- B. The router between the APs and the controller must be made aware of the APs as forwarding client STAs.
- C. APs that were designed for a centralized forwarding model may not support all features in distributed forwarding mode.
- D. Centralized control functions, such as key management and distribution, RRM, and load balancing will no longer be supported.

Answer: C

Explanation:

Comprehensive and Detailed Explanation:

When transitioning from a centralized to a distributed data forwarding model in a WLAN architecture, it's important to consider the capabilities of the existing APs. Some APs designed specifically for centralized forwarding may lack the necessary hardware or firmware support to operate effectively in a distributed forwarding mode. This can lead to compatibility issues and may require hardware upgrades or replacements to ensure proper functionality in the new architecture.

NEW QUESTION # 207

If radar has reportedly been detected on your WLAN deployment, what bands would you consider avoiding?

Response:

- A. 5 GHz UNII-1 and 2
- B. 5 GHz UNII-1, 2, and 3
- C. 5 GHz UNII-2 and 3
- D. 5 GHz UNII-2, 2e, and 3
- E. 5 GHz UNII-2 and 2e

Answer: E

NEW QUESTION # 208

An organization is implementing a new WLAN. They are upgrading a very old 802.11g network that only a few devices used Now.

they expect more than 250 devices to use the new WLAN that will operate 802.11ax Aps. What wired-side consideration should you address in your design recommendations?

- A. Modem pools
- B. Spanning-tree loops
- C. Client ARP tables
- **D. DHCP pools**

Answer: D

NEW QUESTION # 209

Which DHCP option, when required, must be configured to help access points (APs) locate their wireless LAN controller (WLC) during deployment?

- A. 0
- **B. 1**
- C. 2
- D. 3

Answer: B

NEW QUESTION # 210

One thing has to admit, more and more certifications you own, it may bring you more opportunities to obtain better job. This is the reason that we need to recognize the importance of getting the CWDP-305 certifications. More qualified certification for our future employment has the effect to be reckoned with, only to have enough qualification certifications to prove their ability, can we win over rivals in the social competition. Therefore, the CWDP-305 Guide Torrent can help users pass the qualifying CWDP-305 examinations that they are required to participate in faster and more efficiently.
