

# 1Z0-1163-1 New Exam Camp & Reliable 1Z0-1163-1 Test Price

P.S. Free & New 1Z0-1163-1 dumps are available on Google Drive shared by Real4test: <https://drive.google.com/open?id=1wAIF5tfKzBUA-wZx18LwzpW-xa5NTIx>

If you want to progress and achieve their ideal life, if you are not satisfied with life now, if you still use the traditional methods by exam, so would you please choose the 1Z0-1163-1 test materials, it will surely make you shine at the moment. Our 1Z0-1163-1 latest dumps provide users with three different versions, including a PDF version, a software version, and an online version. Although involved three versions of the teaching content is the same, but for all types of users can realize their own needs, whether it is which version of 1Z0-1163-1 Learning Materials, believe that can give the user a better learning experience. Below, I would like to introduce you to the main advantages of our research materials, and I'm sure you won't want to miss it.

## Oracle 1Z0-1163-1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• OMBPs for Manufacturing: This section measures the skills of Manufacturing Operations Managers in utilizing Oracle Cloud's manufacturing capabilities. It explains the flow of manufacturing processes, module integration, and best practices that enhance operational efficiency. Candidates will analyze metrics that assess productivity, cost control, and overall manufacturing performance.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• OMBPs for Innovation: This section evaluates the expertise of Supply Chain Innovation Analysts in leveraging SCM Innovation modules. It focuses on understanding the functionalities that drive product development and improving time-to-market. Candidates will explore key design considerations, best practices, and performance metrics that ensure faster product launches and enhanced innovation processes.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• OMBPs for Order Management: This section evaluates the proficiency of Order Fulfillment Analysts in managing Oracle Cloud's order management modules. It covers the process flow and integration of different components to streamline order processing. Candidates will study key design considerations and metrics related to customer satisfaction, order fulfillment efficiency, and accuracy in managing customer demand.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>• Oracle Cloud Applications and Oracle Modern Best Practice (OMBP): This section of the exam measures the skills of Cloud Application Consultants in understanding Oracle Cloud Applications and their capabilities. It covers the key offerings within the Oracle Cloud ecosystem and highlights the features of the Oracle SCM suite. Candidates will learn about data flow between the SCM OMBPs and how these processes optimize supply chain management.</li></ul>

## To Become Oracle Certified, Rely on Updated 1Z0-1163-1 Dumps

It is known to us that getting the 1Z0-1163-1 certification has become more and more popular for a lot of people in different area, including students, teachers, and housewife and so on. Everyone is desired to have the 1Z0-1163-1 certification. Our 1Z0-1163-1 Exam Dumps Question is very necessary for you to try your best to get the certification in a short time. 1Z0-1163-1 Exam Braindumps is willing to give you a hand to pass the exam. 1Z0-1163-1 Exam Torrent will be the best study tool for you to get the certification

### Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 Sample Questions (Q11-Q16):

#### NEW QUESTION # 11

What is the main purpose of the Supply Chain Collaboration feature in Oracle Fusion Cloud SCM?

- A. It enables real-time communication between suppliers and buyers for improved supply chain visibility.
- B. It eliminates the need for supplier contracts.
- C. It automates internal financial reporting without supplier interaction.

**Answer: A**

Explanation:

The Supply Chain Collaboration feature in Oracle Fusion Cloud SCM facilitates real-time communication between suppliers and buyers through tools like the Supplier Portal, improving visibility into supply chain activities such as order status and inventory levels. Option A is incorrect as it involves supplier interaction, not just internal reporting. Option B is false-contracts remain essential. This collaboration enhances coordination and responsiveness across the supply chain.

#### NEW QUESTION # 12

What is the primary purpose of the Supply Chain Orchestration process in Oracle Fusion Cloud SCM?

- A. It eliminates the need for supplier collaboration.
- B. It provides a manual approach to tracking supply chain transactions.
- C. It automates the execution of supply chain tasks across different applications.
- D. It only manages warehouse operations without linking to procurement or manufacturing.

**Answer: C**

Explanation:

The Supply Chain Orchestration process (C) in Oracle Fusion Cloud SCM automates the execution of supply chain tasks across applications like procurement, manufacturing, and inventory management. It coordinates activities-e.g., triggering a PO when inventory is low or scheduling production after an order-ensuring seamless integration. Option A is false-supplier collaboration is often required. Option B is incorrect-it links all supply chain areas, not just warehouses. Option D is wrong-automation replaces manual tracking. For example, if a customer order requires 200 units, Orchestration aligns procurement and production automatically, reducing delays and errors, and enhancing end-to-end visibility.

#### NEW QUESTION # 13

What is the role of the Global Order Promising feature in Oracle Fusion Cloud SCM?

- A. It provides real-time order commitment dates based on supply and demand constraints.
- B. It guarantees same-day delivery for all orders.
- C. It eliminates the need for supplier collaboration.
- D. It focuses only on local inventory availability.

**Answer: A**

#### NEW QUESTION # 14

Which function does the Global Order Promising component serve in Oracle Fusion Cloud SCM?

- A. It guarantees order fulfillment within 24 hours.
- **B. It provides real-time order promising based on supply and demand constraints.**
- C. It focuses only on local supplier availability.

**Answer: B**

Explanation:

Global Order Promising (GOP) in Oracle Fusion Cloud SCM provides real-time order promising by evaluating supply and demand constraints across the enterprise, ensuring accurate delivery commitments. Option A is incorrect as GOP considers global, not just local, availability. Option C is false-it doesn't guarantee a 24-hour fulfillment but provides feasible timelines. This enhances customer satisfaction and planning accuracy.

#### NEW QUESTION # 15

How does embedding Oracle Method Based Practices (OMBPs) in Starter Configurations benefit Oracle Fusion Applications implementations?

- A. Allows third-party vendors to access and modify configurations.
- B. Enables fully customized setup based on individual customer requirements.
- **C. Provides a standard configuration that supports solution-led implementation of Oracle Fusion Applications.**

**Answer: C**

Explanation:

Embedding Oracle Method Based Practices (OMBPs) in Starter Configurations (C) provides a prebuilt, standard configuration that streamlines Oracle Fusion Applications implementations using a solution-led approach. These configurations incorporate best practices-e.g., predefined workflows for demand planning-reducing setup time and ensuring consistency. For instance, a company can deploy SCM modules with optimized settings out of the box, customizing only where necessary. Option A is incorrect-third-party access isn't a focus; security restricts modifications. Option B is partially true but misses the point-OMBPs standardize first, then allow customization, not the reverse. This approach accelerates deployment, lowers costs, and leverages Oracle's expertise for reliable outcomes.

#### NEW QUESTION # 16
