But we persisted for so many years on the PRINCE2-Agile-Foundation exam questions. Our PRINCE2-Agile-Foundation practice guide just wants to give you a product that really makes you satisfied. I know that we don't say much better than letting you experience our PRINCE2-Agile-Foundation Training Questions yourself. You can free download the demos of the PRINCE2-Agile-Foundation learning quiz to have a try!

PRINCE2 Agile Foundation Sample Questions (Q19-Q24):

NEW QUESTION # 19
What is the purpose of the 'agile enablement' workshop?

- A. To identify, assess, and plan for risks associated with transitioning products into operations
- B. To identify, assess, and plan for risks associated with project delivery
- C. To identify, assess, and plan for risks associated with agile adoption
- D. To identify, assess, and plan for risks associated with business as usual

Answer: C

Explanation:
The Agile Enablement Workshop is specifically designed to support the transition of teams and organizations into agile ways of working. Its primary purpose is to identify, assess, and plan for risks related to agile adoption. This includes challenges like cultural resistance, skills gaps, tooling needs, and process adaptations.
The workshop ensures that these risks are proactively managed to smooth the agile transformation and increase the chances of

successful agile delivery.

By focusing on agile adoption risks rather than project delivery or business as usual, the workshop addresses the foundational changes required for agility at team and organizational levels. Effective enablement workshops facilitate buy-in, identify training needs, and help tailor agile frameworks to the organization's context.

Reference: PRINCE2 Agile Foundation Version 2, Section 4.4 "Agile Enablement," and PRINCE2 Agile Study Guide, Chapter 4.

NEW QUESTION # 20

Which statement explains the PRINCE2 Agile behavior of 'exploration'?

- A. It uses the most effective channel to communicate information
- B. It empowers the project management team at the delivery level
- C. It seeks out feedback collaboratively from project stakeholders
- D. It displays the progress rate to everyone using burn-down charts

Answer: C

NEW QUESTION # 21

In which workshop does planning for the next stage occur?

- A. Team retrospective workshop
- B. Team planning workshop
- C. Release planning workshop
- D. Progress review workshop

Answer: C

Explanation:

The Release Planning Workshop is the forum where planning for the next stage occurs in PRINCE2 Agile.

This workshop brings together the project management team and delivery teams to plan the scope, schedule, and resources for the upcoming release or stage. It helps align business priorities with delivery capacity and supports incremental and iterative delivery approaches.

The Team Planning Workshop focuses on more detailed planning at the team level within the release, the Team Retrospective Workshop is dedicated to reflecting on performance and improving processes, and the Progress Review Workshop is for reviewing progress against the plan rather than planning future work.

Reference: PRINCE2 Agile Foundation Version 2, Section 6.4 "Planning Workshops," and PRINCE2 Agile Study Guide, Chapter 7, "Planning."

NEW QUESTION # 22

What is a role of personas in the 'business case' practice?

- A. To group users based on demographic data
- B. To identify and articulate specific user benefits
- C. To differentiate between product versions
- D. To ensure project timelines are met

Answer: B

Explanation:

Personas in PRINCE2 Agile serve as fictional, archetypal users representing the needs, behaviors, and goals of real users. In the business case practice, personas are used to identify and articulate specific user benefits.

This ensures the project focuses on delivering value that meets the actual needs of different user groups.

By understanding personas, teams can tailor product features and prioritize requirements that provide meaningful benefits, thereby strengthening the business case and increasing stakeholder buy-in. Personas help clarify who will use the product, what problems they face, and how the solution delivers value.

Personas go beyond demographic grouping (A); they are detailed profiles including motivations and pain points. They do not relate directly to timelines (B) or product version differentiation (D).

Using personas aligns with agile principles of customer focus and continuous stakeholder engagement embedded in PRINCE2 Agile.

Reference: PRINCE2 Agile Foundation Version 2, Section 7.1 "Using Personas in Business Case," and PRINCE2 Agile Study

Guide, Chapter 7.

NEW QUESTION # 23

How should team working agreements be created?

- A. By the supplier subject matter expert agreeing what should be included
- B. By the customer representative deciding what should be included
- C. By team members agreeing on what should be included
- D. By the project manager deciding what should be included

Answer: C

NEW QUESTION # 24
