100% Pass Quiz Unparalleled Microsoft - New PL-300 Exam Discount

The language which is easy to be understood and simple, PL-300 exam questions are suitable for any learners no matter he or she is a student or the person who have worked for many years with profound experiences. So it is convenient for the learners to master the PL-300 Guide Torrent and pass the exam in a short time. The amount of the examinee is large. For the office workers, they are both busy in their job and their family life; for the students, they possibly have to learn or do other things.

Microsoft Power BI Data Analyst Sample Questions (Q102-Q107):

NEW QUESTION # 102

Case Study 4 - Contoso Ltd 2

Overview

Contoso, Ltd. is a manufacturing company that produces sports equipment. Contoso holds quarterly board meetings for which financial analysts manually prepare Microsoft Excel reports, including balance sheets and profit and loss statements for each of the company's four business units.

Existing Environment

Data and Sources

Data for the reports comes from the sources shown in the following table.

Data type	Description
Azure SQL database	Detailed revenue, cost, and expense data Uses a public endpoint
Microsoft Dynamics 365 Business Central	Summary balance sheet data and product catalog data

The balance sheet data is unrelated to the profit and loss results other than they both relate to dates.

Balance Sheet Data

The balance sheet data is imported and includes the final monthly balances of each account in the format shown in the following table.

AccountCategory	Account	Month	Year	BalanceAmount
Current assets	Cash and cash equivalents	3	2020	20,289
Current assets	Inventories	3	2020	4,855
Long-term liabilities	Long-term debt	3	2020	50,207
Current assets	Cash and cash equivalents	2	2020	28,209
Current assets	Inventories	2	2020	5,845
Long-term liabilities	Long-term debt	2	2020	49,887
Current assets	Cash and cash equivalents	1	2020	25,567
Current assets	Inventories	1	2020	65,998
Long-term liabilities	Long-term debt	1	2020	46,124

The balance sheet data always includes a row for each account for each month.

Product Catalog Data

The product catalog shows how products roll up to product categories, which roll up to the business units. The product list is provided in the format shown in the following table.

Product ID	Product name	Product description	Product category	Business unit
HL-U509-R	Sport-100 Helmet, Red	Universal fit, well-vented, lightweight, snap-on visor	Accessories	Unit A
RA-H123	Hitch Rack - 4-Bike	Carries four bikes securely, steel construction, fits a 2-inch receiver hitch	Accessories	Unit A
BK-M18S-40	Mountain-500 Silver, 40	Suitable for any type of riding, on- or off-road, fits any budget, smooth-shifting with a comfortable ride	Bikes	Unit B
FD-2342	Front Derailleur	Wide-link design	Components	Unit A

Revenue data is provided at the date and product level. Expense data is provided at the date and department level.

Business Issues

Historically, it has taken two analysts a week to prepare the reports for the quarterly board meetings. Also, there is usually at least one issue each quarter where a value in a report is wrong because of a bad cell reference in an Excel formula. On occasion, there are conflicting results in the reports because the products and departments that roll up to each business unit are not defined consistently.

Requirements

Planned Changes

Contoso plans to automate and standardize the quarterly reporting process by using Power BI.

The company wants to reduce how long it takes to populate the reports to less than two days.

The company wants to create common logic for the business units, products, and departments.

The logic will be used across all reports, including but not limited to the quarterly reporting for the board.

Technical Requirements

Contoso wants the reports and datasets refreshed with minimum manual effort.

The company wants to provide the board with a single package of reports that will contain custom navigation and links to supplementary information.

Maintenance, including manually updating data and access, must be minimized as much as possible.

Security Requirements

The reports must be made available to the board from powerbi.com. An Azure Active Directory (Azure AD) group will be used to share information with the board.

Contoso identifies the following security requirements for analyst access:

- Analysts must be able to access all balance sheet and product catalog data.

- Analysts must be able to access only the profit and loss data of their respective business unit.
- Analysts must be able to create new reports from the dataset that contains the profit and loss data, but the reports built by the analysts must NOT be included in the quarterly reports for the board.
- Analysts must NOT be able to share the quarterly reports with anyone.
- Analysts must NOT be able to make new reports by using the balance sheet data.

Report Requirements

You plan to relate the balance sheet table to a date table in Power BI in a many-to-one relationship based on the last day of the month. At least one of the balance sheet reports in the quarterly reporting package must show the ending balances for the quarter, as well as for the previous quarter.

The date table will contain the columns shown in the following table.

Column name	Data type	Sample value
Date	Date	4-Apr-2020
Month	Integer	202004
Month Name	Text	February
Quarter	Integer	20202
Year	Integer	2020

The definitions and attributes for the products, departments, and business units must be consistent across all the reports.

The board must be able to get the following information from the quarterly reports:

- Revenue trends over time
- The ending balances of each account
- Changes in long-term liabilities from the previous quarter
- The percent of total revenue contributed by each product category
- A comparison of quarterly revenue versus the same quarter from the previous year
- The reports must be updated with the latest data by 5 AM each day.

Hotspot Question

You need to create a measure that returns the percent of revenue by product category.

How should you complete the measure? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Category Revenue Contribution =

VAR AllCategoryRev =

	▼ (SUM ([Revenue]),
ALL	
ALLEXCEPT	
CALCULATE	
DIVIDE	
FILTER	

	▼ (ProductList[ProductCategory]))
ALL	
ALLEXCEPT	
CALCULATE	
DIVIDE	
FILTER	

RETURN

	▼ (SUM([Revenue]), AllCategoryRev)
ALL	
ALLEXCEPT	
CALCULATE	
DIVIDE	
FILTER	

Answer:

Explanation:

Category Revenue Contribution =
 VAR AllCategoryRev =

	▼ (SUM ([Revenue]),
ALL	
ALLEXCEPT	
CALCULATE	
DIVIDE	
FILTER	

	▼ (ProductList [ProductCategory]))
ALL	
ALLEXCEPT	
CALCULATE	
DIVIDE	
FILTER	

RETURN

	▼ (SUM([Revenue]), AllCategoryRev)
ALL	
ALLEXCEPT	
CALCULATE	
DIVIDE	
FILTER	

NEW QUESTION # 103

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

From Power Query Editor, you profile the data shown in the following exhibit.

	IoT GUID	IoT DateTime	IoT ID
	Valid 100% Error 0% Empty 0%	Valid 100% Error 0% Empty 0%	Valid 100% Error 0% Empty 0%
1	48196321-38D9-EC11-883D-0022489A2...	21/05/2022 18:59:25	100001000
2	49196321-38D9-EC11-883D-0022489A2...	21/05/2022 18:59:26	100001001
3	0300C742-38D9-EC11-883D-0022489A2...	21/05/2022 19:00:21	100001002
4	0400C742-38D9-EC11-883D-0022489A2...	21/05/2022 19:00:21	100001003
5	0500C742-38D9-EC11-883D-0022489A2...	21/05/2022 19:00:21	100001004
6	0600C742-38D9-EC11-883D-0022489A2...	21/05/2022 19:00:21	100001005

The IOT ID columns are unique to each row in query.

You need to analyze 10T events by the hour and day of the year. The solution must improve dataset performance.

Solution: You change the IOT DateTime column to the Date data type.
Does this meet the goal?

- A. Yes
- B. No

Answer: A

NEW QUESTION # 104

You plan to create a report that will display sales data from the last year for multiple regions. You need to restrict access to individual rows of the data on a per region-basis by using roles.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

- Publish the report.
- Import the data to Power BI Desktop.
- Add a filter to the report.
- Create a role definition.
- Assign users to the role.

Answer Area

Answer:

Explanation:

Actions

- Publish the report.
- Import the data to Power BI Desktop.
- Add a filter to the report.
- Create a role definition.
- Assign users to the role.

Answer Area

- Import the data to Power BI Desktop.
- Create a role definition.
- Assign users to the role.
- Publish the report.

Explanation:

Answer Area

- 1 Import the data to Power BI Desktop.
- 2 Create a role definition.
- 3 Assign users to the role.

NEW QUESTION # 105

You have a Power BI report that contains five pages.

Pages 1 to 4 are visible and page 5 is hidden.

You need to create a solution that will enable users to quickly navigate from the first page to all the other visible pages. The solution must minimize development and maintenance effort as pages are added to the report.

What should you do first?

- A. Add a bookmark navigation button to page 1.
- B. Add a page navigation button to page 1.
- C. Create a bookmark for each page.
- D. Add a blank button to page 1.

Answer: C

NEW QUESTION # 106

You have a Rawer BI report That imports a dace table and a sales table from an Azure SQL database data source. The sales table has the following date foreign keys:

- * Due Date
- * Order Date
- * Delivery Date

You need to support the analysis of sales over time based on all three dates at the same time.

Solution: From the Fields pane, you rename the date table as Due Date. You use a DAX expression to create Order Date and Delivery Date as calculated tables. You create active relationships between the sales table and each date table.

Does this meet the goal?

- A. Yes
- B. No

Answer: A

NEW QUESTION # 107

.....

The advent of our Microsoft PL-300 study guide with three versions has helped more than 98 percent of exam candidates get the certificate successfully. Rather than insulating from the requirements of the Microsoft PL-300 Real Exam, our Microsoft PL-300 practice materials closely co-related with it. And their degree of customer's satisfaction is escalating.

High PL-300 Quality: <https://www.itcertmagic.com/Microsoft/real-PL-300-exam-prep-dumps.html>

Normally if you purchase our PL-300: Microsoft Power BI Data Analyst torrent, system will automatically send you an email including account, password and downloading link about latest test king PL-300 guide in a minute, Microsoft PL-300 certification exam is experiencing a great demand within the IT industry, At ITCertMagic, we are proud to offer you actual PL-300 exam questions in our Microsoft PL-300 practice exam material.

Our PL-300 exam resources must be your smart choice since you never worry to waste any money on them, This, combined with being indoors, means no pesticides or herbicides and reduces water requirements.

Pass The Exam On Your First Try With Microsoft PL-300 Exam Dumps

Normally if you purchase our PL-300: Microsoft Power BI Data Analyst torrent, system will automatically send you an email including account, password and downloading link about latest test king PL-300 guide in a minute.

Microsoft PL-300 certification exam is experiencing a great demand within the IT industry, At ITCertMagic, we are proud to offer you actual PL-300 exam questions in our Microsoft PL-300 practice exam material.

While, how to get the PL-300 exam certification is another questions, In this way, you will be able to not only evaluate your progress but also overcome mistakes before the PL-300 actual examination.
