And they are good at simplifying the content of the Experience-Cloud-Consultant Exam Braindumps to be understood by our customers all over the world.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q49-Q54):

NEW QUESTION # 49

Cloud Kicks wants to allow site users to tag site content with custom tags or member-created topics.

Which two permissions must be enabled for site users in Setup to accomplish this?

Choose 2 answers

- A. Tags Allowed
- B. Create Topics
- C. Member Can Access Topics
- D. Assign Topics

Answer: B,C

Explanation:

To allow site users to tag site content with custom tags or member-created topics, you need to enable two permissions for site users in Setup:

Create Topics. This permission allows users to create new topics and assign them to content, such as posts, files, or articles. Users can also edit or delete the topics they created.

Member Can Access Topics. This permission allows users to access the topic management features on the site, such as viewing, following, or unfollowing topics. Users can also see the topics assigned to content and filter content by topics.

NEW QUESTION # 50

Ursa Major Solar (UMS) recently went through a major rebranding effort that resulted in a new company logo along with new brand colors. UMS wants to update brand colors across all of its sites. The sites are built with Lightning templates.

Which tool should the Experience Cloud consultant recommend to make these changes?

- A. Experience Cloud Script Master
- B. ExperienceBundle
- C. Lightning Builder
- D. Site Builder

Answer: D

Explanation:

To update brand colors across all of its sites, UMS should use the Site Builder tool. Site Builder is a tool that allows you to edit the look and feel of your Experience Cloud sites using a drag-and-drop interface. You can change the theme, layout, components, and branding of your sites without coding. Site Builder also supports Lightning templates, which are responsive and modern templates for Experience Cloud sites.

NEW QUESTION # 51

Ursa Major Solar (UMS) is building a portal for its premium B2B customers. Customer will be able to access their account information, open cases, download NDAs, and create dashboards Which user license allows UMS to meet these requirements?

- A. Platform Portal
- B. Commerce Portal
- C. Customer Community
- D. Channel Account

Answer: A

Explanation:

Platform Portal is a user license type that allows users to access custom objects and a subset of standard CRM objects, such as accounts, contacts, cases, and dashboards. This license type is suitable for UMS's premium B2B customers who need to access their account information, open cases, download NDAs, and create dashboards.

NEW QUESTION # 52

Universal Containers (UC) maintains multiple customer experiences, but only one profile for all customer users. No customer has access to more than one experience.

Which two steps should the UC admin take to grant access to each customer? Choose 2 answers

- A. Select the profile for a given experience.
- B. Edit the applicable user profile.
- C. Select a permission set for a given experience.
- D. Create a permission set.

Answer: C,D

Explanation:

To grant access to each customer, the UC admin should select a permission set and a profile for a given experience. A permission set is a collection of settings and permissions that give users access to various tools and functions in Experience Cloud. A profile is a collection of settings and permissions that determine what users can see and do in Experience Cloud. By selecting a permission set and a profile for each experience, the UC admin can control the access level of each customer user.

NEW QUESTION # 53

Ursa Major Solar (UMS) wants to differentiate between the leads created by partners and the leads created by its own Sales team. All lead records are shared with partners; however, some of the information captured by the Sales team on the lead record should not be shared with partners.

Which two steps should UMS take at a minimum in order to meet the requirement?

Choose 2 answers

- A. Create a separate channel for partners in PRM Workspaces.
- B. Enable "Lead Sharing" in Digital Experience settings.
- C. Create Lead Record Types for Lead Distribution.
- D. Create Page Layouts for Lead Distribution.

Answer: C,D

Explanation:

To differentiate between the leads created by partners and the leads created by its own Sales team, UMS should create lead record types and page layouts for lead distribution. A record type is a way to offer different business processes, picklist values, and page layouts to different users based on their profiles. A page layout is a way to control the layout and organization of detail and edit pages in Salesforce. By creating lead record types and page layouts, UMS can customize the fields and values that are displayed to partners and Sales team members.

NEW QUESTION # 54

.....
