- **A. Digital transformation**
- B. Organizational disruption
- C. Digital positioning
- D. Operational technology

**Answer: A**

### NEW QUESTION # 27

What is the FIRST step in creating a measurement and evaluation system?

- A. Creating a system of key performance indicators
- B. Identifying success factors
- **C. Defining the objectives**
- D. Selecting metrics and measurement tools

**Answer: C**

### NEW QUESTION # 28

Which is the BEST approach to defining a vision and a strategy in an organization with multiple specialization divisions?

- A. Vision and strategy should be defined in collaboration with the enterprise architects and consultants
- B. Vision and strategy should be defined by the executive leader and communicated to the divisions
- **C. Vision and strategy should be defined in collaboration with the leaders of the organization and division**
- D. Vision and strategy should be defined by the governing body and communicated to the divisions' leaders

**Answer: C**

## Explanation:

Vision and strategy should be defined in collaboration with the leaders of the organization and division to ensure alignment, coherence, and buy-in across the organization. This can help create a shared understanding of the goals, values, and direction of the organization and its divisions, as well as leverage the expertise and insights of different leaders.
