Microsoft Power BI Data Analyst Sample Questions (Q174-Q179):

NEW QUESTION # 174

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this scenario, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have several reports and dashboards in a workspace.

You need to grant all organizational users read access to a dashboard and several reports.

Solution: You publish an app to the entire organization.

Does this meet the goal?

- A. No
- B. Yes

Answer: B

Explanation:

By using an app, it's easier for designers to manage permissions on these collections since the app can have permissions that are different than those set on the workspace.

An app combines related content -- dashboards, spreadsheets, datasets, and reports -- all in one place. An app can have one or more of each content type, all bundled together Reference:
