Regularly updated as per the updates by the GAQM CASPO-001

Our GAQM CASPO-001 practice exam software will record all the attempts you have made in the past and display any modifications or improvements made in each attempt. This Certified Agile Scrum Product Owner (CASPO) (CASPO-001) exam simulation software enables you to track your progress and quantify how much you have improved.

The CASPO-001 exam covers a wide range of topics such as Agile Scrum methodology, Product Owner roles and responsibilities, stakeholder management, product backlog management, agile requirements gathering, and product visioning. CASPO-001 Exam is designed to test the candidate's ability to apply these concepts in real-world scenarios.

GAQM Certified Agile Scrum Product Owner (CASPO) Sample Questions (Q63-Q68):

NEW QUESTION # 63
What best describes the relationship of the Product Owner and the stakeholders? (Choose the best answer)

- A. The Product Owner has the final call over the requirements and should involve the stakeholders as little as possible.
- B. The Product Owner provides the stakeholders with acceptance forms at the Sprint Review to record their formal agreement over the delivered software.
- C. The Product Owner actively asks for stakeholder input and expectations to process into the Product Backlog.
- D. The Product Owner writes the User Stories as provided by the stakeholders.

Answer: C

Explanation:
The Scrum Guide states: "The Product Owner is also accountable for effective Product Backlog management, which includes... representing the needs of many stakeholders in the Product Backlog." Option C reflects this collaborative approach-actively seeking stakeholder input to shape the Product Backlog. Option A is too passive; the Product Owner interprets, not just transcribes. Option B contradicts Scrum's emphasis on stakeholder engagement. Option D introduces a formal process not in Scrum; the Sprint Review is for feedback, not signed agreements. Thus, C is best.

NEW QUESTION # 64
Which phrase best describes a Product Owner? (Choose the best answer)

- A. Go-between between Developers and customers
- B. Team manager
- C. Value optimizer
- D. Requirements engineer

Answer: C

Explanation:
The Scrum Guide defines the Product Owner as "accountable for maximizing the value of the product resulting from the work of the Scrum Team." Option B (Value optimizer) encapsulates this core focus on value delivery. Option A (Requirements engineer) is too narrow-while they manage requirements, their role transcends engineering to strategic vision. Option C (Team manager) is incorrect-they don't manage the team; the Scrum Master supports team self-management. Option D (Go-between) understates their authority; they actively shape the product, not just relay information. Thus, B is the best description.

NEW QUESTION # 65
The Product Owner's authority to change and update the Product Backlog is unlimited, except for: (Choose the best answer)

- A. Nothing. The entire organization must respect a Product Owner's decisions.
- B. High impact changes that have not been approved by the change request board.
- C. Decisions by the CFO, the CEO, or the board of directors.
- D. Decisions by the chief program manager.
- E. Technical and architectural work that needs to be done first, as indicated by the chief enterprise architect.
- F. Work for which impediments exist that the Scrum Master still needs to resolve.

Answer: A

Explanation:
The Scrum Guide grants the Product Owner sole authority over the Product Backlog: "The Product Owner is one person, not a committee... For Product Owners to succeed, the entire organization must respect their decisions." No external roles or processes override this.
* A, C, D, E: These introduce roles (CFO, CEO, program manager, architect, change board) not recognized in Scrum as limiting the

Product Owner's authority.
* F:Impediments affect execution, not the Product Owner's right to update the backlog.

NEW QUESTION # 66
Must the Product Owner be present at the Sprint Retrospective? (Choose the best answer)

- A. It is mandatory. The Sprint Retrospective is an opportunity for the Scrum Team to assess its performance and improve itself.
- B. It is optional. Attendance is only required when the Product Owner gets invited by the Scrum Master.
- C. It is not allowed. The Sprint Retrospective is an opportunity for the Scrum Team to inspect itself.

Answer: A

Explanation:
The Sprint Retrospective involves the entire Scrum Team-Product Owner, Scrum Master, and Developers- to inspect and improve. TheScrum Guidestates: "The Scrum Team inspects how the last Sprint went with regards to individuals, interactions, processes, tools, and their Definition of Done." The Product Owner's presence is mandatory because they are part of the team, contributing to discussions on collaboration and process (e.g., backlog refinement).
* A:Optional attendance contradicts the team-wide focus.
* C:Exclusion is incorrect; it's not just for Developers.

NEW QUESTION # 67
Who is responsible for clearly expressing Product Backlog Items? (Choose the best answer)

- A. The business analyst who represents the Product Owner in the Developers.
- B. The Scrum Master.
- C. The Scrum Master, or the Scrum Master may have the Developers do it.
- D. The Product Owner.

Answer: D

Explanation:
TheScrum Guideexplicitly states: "The Product Owner is accountable for effective Product Backlog management, which includes... clearly expressing Product Backlog items." This responsibility ensures that the items reflect stakeholder needs and are understandable to the Developers. Option B is incorrect-the Scrum Master facilitates and coaches, not manages the Product Backlog. Option C is wrong-neither the Scrum Master nor Developers are accountable for this; it's the Product Owner's role. Option D introduces a
"business analyst" role, which isn't part of Scrum; the Product Owner directly handles this duty without delegation to a proxy. Thus, A is correct.

NEW QUESTION # 68
......

Do some fresh things each day that moves you out of your comfort zone. If you stay cozy every day, you will gradually become lazy. Now, you have the opportunity to change your current conditions. Our CASPO-001 real exam dumps are specially prepared for you. Try our CASPO-001 study tool and absorb new knowledge. After a period of learning, you will find that you are making progress. The knowledge you have studied on our CASPO-001 Exam Question will enrich your life and make you wise. Our CASPO-001 real exam dumps are manufactured carefully, which could endure the test of practice. Stable and healthy development is our long lasting pursuit. In order to avoid fake products, we strongly advise you to purchase our CASPO-001 exam question on our official website.
