review of what you have learned. Just have a try, and there is always a version for you.

Pegasystems Certified Pega Business Architect 24 Sample Questions (Q104-Q109):

NEW QUESTION # 104

A requirement states: When a business guest checks out of a hotel, the guest must complete a hotel review to receive a corporate discount. Select the case type relationship that satisfies the requirement.

Response:

- A. Configure hotel review as a parallel process to the checkout request.
- B. Configure checkout request as a child case of hotel review.
- **C. Configure hotel review as a child case of the checkout request.**
- D. Configure both checkout request and hotel review as top-level cases.

Answer: C

NEW QUESTION # 105

Choose two use cases that require the configuration of conditional paths within the case type.

(Choose Two)

Response:

- **A. An application requires customers to specify the type of request from a drop-down list. The request routes to the appropriate department work queue. A user with access to the work queue processes the case through fulfillment.**
- **B. A scholarship eligibility application requires students to enter standardized test scores. Students with qualifying test scores can schedule an interview. Students without qualifying test scores receive a rejection email.**
- C. A shopping application requires a guest to fill out payment information. A user who enters a membership number skips the payment information step.
- D. A catering booking application requires customers to enter information about expected party size, event date, and event time. When customers submit the information, the catering company sends a confirmation email.

Answer: A,B

NEW QUESTION # 106

UPlus Bank offers new mortgage loans to eligible customers. The bank creates a loan request form to collect the loan requests and decides not to consider the loan request if a customer already applied for a loan. To achieve the business use case, which of the following automation shapes is best suitable?

Response:

- A. Send email
- B. Persist case
- C. Create case
- **D. Search duplicate cases**

Answer: D

NEW QUESTION # 107

You need to send an email to customers who are approved for a mortgage. The system automatically sends a preliminary approval to customers by email. How do you configure the case to achieve this behavior?

Response:

- A. Enable email notifications on the case type.
- **B. Enable email notifications on the case type, and then add a Send Email step to the case life cycle after the Approval step.**
- C. Configure a Collect Information step with read-only information, and then route the step to the customer.
- D. Add a Send Email step to the case life cycle after the Approval step.

Answer: B

NEW QUESTION # 108

In a mortgage application, the user creates a loan request. Before approving, the loan officer must receive appraisal results. How do you configure the Case Types to reflect this relationship? (Note: This question appears as a duplicate of Question 50, but I'll treat it as a separate instance for completeness.)

- A. Make Appraisal a parent Case Type and Loan Request a child Case Type.
- **B. Make Loan Request a parent Case Type and Appraisal a child Case Type.**
- C. Make both Loan Request and Appraisal parent Case Types.
- D. Make Mortgage a parent Case Type, with Loan Request and Appraisal as child Case Types.

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

This question tests case relationships in Pega's Case Management framework, specifically parent-child case dependencies.

* A: Correct. The Loan Request is the parent case, and Appraisal is a child case, as the appraisal is a sub-task required before approval. Extract: Pega Academy, Case Management - Case Dependencies: "A parent case creates child cases for sub-tasks, such as an appraisal for a loan request."

* B: Incorrect. Both being parents is illogical, as appraisal is a dependency. Extract: Pega Academy, Case Management: "Parent-child relationships reflect task dependencies."

* C: Incorrect. Appraisal as parent reverses the dependency. Extract: Pega Academy, Case Management: "Child cases support parent case tasks."

* D: Incorrect. Introducing Mortgage as parent adds unnecessary complexity. Extract: Pega Academy, Case Management: "Case Types should reflect specific task hierarchies."
