So, it will be a great benefit for you. If you want to dedicate your free time to preparing for the PRINCE2 Practitioner Exam (PRINCE2-Practitioner) exam, you can check with the soft copy of pdf questions on your smart devices and study when you get time. On the other hand, if you want a hard copy, you can print PRINCE2-Practitioner exam questions.

PRINCE2 Practitioner Exam Sample Questions (Q44-Q49):

NEW QUESTION # 44
This question provides a number of changes which may or may not be required to the Extract from the Communication Management Strategy provided in the additional information.
What statement applies to the Records section?

- A. Move entry 6 to the Configuration Management Strategy because it defines the identification scheme for the project's products.
- B. Move entry 7 to Communication procedure because it refers to the method to be used for communication to external parties.
- C. Move entry 8 to Tools and techniques because it refers to a filing technique.

Answer: A

NEW QUESTION # 45

During the initiation stage, the project manager aligns the project's risk management approach to ABC Company's risk management policy. As a result, the project will use two risk registers, one for ABC Company's risks and one for external supplier risks.

Is this an appropriate application of the 'tailor to suit the project' principle, and why?

- A. Yes, because the risk management approach should comply with the supplier's needs.
- B. No, because a single risk register should be used to record risks to the project.
- C. No, because all three stakeholder interests need to be represented effectively on the project.
- D. Yes, because project controls should take the project's environment into account.

Answer: A

Business Case Theme
Testlet 1
Scenario
Additional Information
During the initiation stage the Project Manager met with the Marketing Director to find out more about the requirements of the promotional calendar and recorded the following notes:

There has been a reduction in the order numbers at the MNO Manufacturing due in part to the increased marketing activities of its competitors. 10% of customers have not re-ordered in this financial year and staff morale is poor. A number of skilled staff have left as a result and replacement staff have not been recruited due to the reduced operation. If the project is successful, a recruitment campaign will be required to fill the existing staff vacancies and there may be a requirement for additional staff. Operational costs are likely to increase because skilled staff are expensive and difficult to find.

In financial terms, there were a total of 1,500 orders in the last financial year, each with an average profit of E2k. The Marketing department believes that sending a promotional calendar to our current and prospective customers would increase orders by at least 10% with a minimum of 10 further orders from the list of prospective customers within 12 months from the date of distribution.

The Marketing Director will be funding the project from the business marketing budget. She believes that the effect of a good company image portrayed by a successful calendar would last into a second year. She has forecast the same increase in orders for a second year and predicts that the annual employee satisfaction survey will show a measurable improvement in staff morale.
A number of alternatives were explored, including:

* 20% discount for all repeat customers - not cost-effective and very short term
* A promotional calendar as a free Christmas gift - would target current and prospective customers and the benefits would last into a second year
* A series of television and press advertisements was too expensive
* A direct mail shot to all customers - benefit would be short term
* Creation of an internet website - would not suit all customers

The calendar is seen as the favored option, as long as the company's competitors do not increase their marketing activity. Whilst the Marketing department wants a very high quality, glossy product, the project management team must be aware of the cost this will incur.

Using the Project Scenario and the additional Information provided for this question In the Scenario Booklet, answer the following question.

NEW QUESTION # 46

Who is responsible for confirming stage and project progress against agreed tolerances?

- A. Project Manager
- B. Executive
- C. Project Support
- D. Project Assurance

Answer: D

NEW QUESTION # 47

Scenario
Additional Information
Extract from the Communication Management Strategy.
The project information in the table below is true, but it may not be recorded under the correct heading or be in the correct

document.

Using the Project Scenario, select the appropriate response to each of the following 5 questions which have been raised by the Project Board.

The project is now at the end of the initiation stage. Having decided that the Calendar project is a relatively simple project, the Project Manager combined the Starting Up a Project process and the Initiating a Project process. No Project Brief has been produced. Instead the Project Manager used the project mandate to produce a simple Project Initiation Documentation (PIO). The PIO includes the Business Case, a product checklist and several Product Descriptions, Including the Project Product Description. Short sections are also included for each of the strategies and the controls to be applied. The Project Manager has elected to use the Daily Log to record all risks, issues, lessons and quality - results.

After the initiation stage there will be two further stages during which a small number of Work Packages will be authorized. While these are being managed, the Project Manager will hold regular checkpoints, which will support the production of weekly Highlight Reports to the Project Board.

No Benefits Review Plan has been developed. Where should the schedule of benefit reviews be recorded?

- A. As deliverables of the project, all benefit reviews should be scheduled and documented in the Project Plan during initiation.
- B. Small projects do not require a schedule of benefit reviews as only one review is required towards the end of the project and this should be documented within the Business Case.
- C. Benefit reviews should be planned and recorded in the simple PID.

Answer: C

NEW QUESTION # 48
PLANS
During the initiation stage, the project manager is creating the project plan.
Here are three activities carried out as part of PRINCE2's recommended approach to planning.
As part of which step of the approach (A-F) should each activity be carried out?
Choose only one step for each activity. Each step can be used once, more than once, or not at all.
