**Free PDF Quiz Accurate Fortinet - NSE6\_FSR-7.3 - Valid Fortinet NSE 6 - FortiSOAR 7.3 Administrator Learning Materials**

It is known to us that to pass the NSE6\_FSR-7.3 exam is very important for many people, especially who are looking for a good job and wants to have a NSE6\_FSR-7.3 certification. Because if you can get a certification, it will be help you a lot, for instance, it will help you get a more job and a better title in your company than before, and the NSE6\_FSR-7.3 Certification will help you get a higher salary. We believe that our company has the ability to help you successfully pass your exam and get a NSE6\_FSR-7.3 certification by our NSE6\_FSR-7.3 exam torrent.

## Fortinet NSE 6 - FortiSOAR 7.3 Administrator Sample Questions (Q10-Q15):

### NEW QUESTION # 10

Refer to the exhibit.

Node Name	Status	Role	License Details
primary.internal.lab	Faulted	Secondary	Serial Number: FSRVMPTM20000484 Total Users: 2 Device UUID: 520e5f3badcd9647b829c8905fec465b
secondary.internal.lab	Active	Primary	Serial Number: FSRVMPTM21000105 Total Users: 2 Device UUID: 927ec24c7eabd15e684c996bd04ea968

The former primary node was relegated to the secondary role but is stuck in the Faulted state.

Which two steps must you take to restore operation in the high availability (HA) cluster? (Choose two.)

- A. Enter the `csadm ha join-cluster` command to have the node that is in the Faulted state rejoin the HA cluster as a secondary node.
- B. Perform a fire drill to test the database integrity of the node that is in the Faulted state.
- C. On the node that is in the Faulted state, enter the `csadm ha leave-cluster` command.
- D. Restart the node that is in the Faulted state to trigger another election.

**Answer: A,C**

Explanation:

In a FortiSOAR HA cluster, if the former primary node is relegated to a secondary role but is stuck in a Faulted state, it indicates that the node has lost sync or faced a failure during a role change. To restore its functionality, first, you should remove it from the cluster using the `csadm ha leave-cluster` command. Once it has left the cluster, you can use the `csadm ha join-cluster` command to re-add the node as a secondary node.

This process will allow it to sync back up with the cluster and resume its role as intended.

### NEW QUESTION # 11

Which two system monitoring reports are available on the System Monitoring widget? (Choose two.)

- A. RAM Usage
- B. CPU Usage
- C. Playbook Health Status
- D. Service Status

**Answer: B,D**

### NEW QUESTION # 12

Refer to the exhibit. How long after the `syops-ha` service goes down will the heartbeat missed notification be sent to the administrator?

**Service**  
SMTP

**Email**  
csadmin@internal.lab

Please ensure your SMTP service is configured.

**Monitoring Interval (Minutes)**  
5

The monitoring job will run at this schedule

---

**System Health Thresholds**  
A notification will be generated when the resource consumption on the server is high. Define the respective thresholds below:

<b>Memory Utilization (%)</b> 80	<b>CPU Utilization (%)</b> 80	<b>Disk Utilization (%)</b> 80
<b>Swap Memory Utilization (%)</b> 50	<b>Workflow Queue Threshold</b> 100	<b>WAL Files Size (GB)</b> 20

---

**Cluster Health**  
An email notification will also be generated if there are missed heartbeats from any of the cluster nodes, or if the replication lag is high. Define the respective thresholds below:

<b>Missed Heartbeat Count</b> 3	<b>Replication Lag (GB)</b> 3
------------------------------------	----------------------------------

- A. 60 minutes
- B. 5 minutes
- C. 15 minutes
- D. 3 minutes

**Answer: C**

**Explanation:**

If you set the Monitoring Interval to 5 minutes and the missed Heartbeat Count to 3, this means that when the heartbeat is missed and the cyups-ha services is down for the last 15 minutes or more the notification will be sent.

**NEW QUESTION # 13**

Refer to the exhibit.

**User Profile**  
Edit Profile Details

Status: Active

Name: John Smith  
Type: Select  
Email: jsmith@abc.com

**Team and Role**  
Apply Teams and Roles

**Authentication**  
Access, Reset Password

Username: [Field] Reset Password

Access Type: Named [ ] Concurrent [X]

Authentication Type: Native

User Type: Application User

**2-Factor**  
Edit 2-Factor Authentication settings

Which statement correctly describes the user's login behavior?

- A. The user is sent to a waiting queue if there are named users logged in.
- B. The user can log in only if there are enough seats available.
- C. The user will always be able to draw from the concurrent pool and log in.
- D. The user has an active concurrent session that does not time out.

**Answer: B**

Explanation:

In FortiSOAR, when a user is configured with "Concurrent" access type, their ability to log in depends on the availability of concurrent user seats. This means the user can only log in if there are available seats in the concurrent pool. If all seats are occupied, the user must wait until a seat becomes free. This configuration allows multiple users to share a pool of licenses, making it suitable for environments where not all users need constant access.

#### NEW QUESTION # 14

Which two authentication configuration timers, when reached, log users out of the FortiSOAR GUI with no grace period? (Choose two.)

- A. Reauthenticate Dashboard User
- **B. Idle Timeout**
- C. Token Refresh
- **D. Reauthenticate Application User**

**Answer: B,D**

Explanation:

Idle Timeout forces logout immediately when the user has been inactive for the configured period, without any grace period. Reauthenticate Application User enforces a hard session expiration that requires users to log in again once the timer is reached, also without a grace period.

#### NEW QUESTION # 15

.....

If you want to understand our NSE6\_FSR-7.3 exam prep, you can download the demo from our web page. You do not need to spend money; because our NSE6\_FSR-7.3 test questions provide you with the demo for free. You just need to download the demo of our NSE6\_FSR-7.3 exam prep according to our guiding; you will get the demo for free easily before you purchase our products. By using the demo, we believe that you will have a deeply understanding of our NSE6\_FSR-7.3 Test Torrent. We can make sure that you will like our products; because you will it can help you a lot.
