NEW QUESTION # 71

You have a Microsoft SharePoint site as shown in the following exhibit.

The screenshot shows a SharePoint document library named 'Documents' with the following files and sensitivity labels:

Name	Sensitivity
File1.docx	SLabel1
File2.xlsx	SLabel2
File3.doc	
File4.txt	

You need to view the settings of SLabel1.

What should you use?

- **A. the Microsoft Purview portal**
- B. the Microsoft Defender portal
- C. the SharePoint admin center
- D. the Microsoft 365 admin center

Answer: A

Explanation:

To examine or modify the settings of a specific sensitivity label, you must use the Microsoft Purview portal.

While you can see which labels are applied to sites or files within the SharePoint admin center or document libraries, the actual configuration, definition, and security settings for the sensitivity label itself are managed exclusively in the Microsoft Purview portal.

Where to go:

Navigate to: Microsoft Purview portal

Go to: Solutions > Information Protection

Select: Labels (or "Sensitivity labels")

- A. Data Lifecycle Management
- **B. Insider Risk Management**
- C. Communication Compliance
- D. Data Security Posture Management

Answer: B

Microsoft specifically provides policy templates for departing users

, describing scenarios where users who are leaving an organization might download files, print files, or copy data to personal cloud storage or messaging services near their resignation or end date. That matches this question exactly, where User1 is leaving in two weeks and you need to determine whether the user is exfiltrating data.

The other options do not fit. Communication Compliance is for reviewing risky communications, Data Security Posture Management focuses on broader data exposure posture, and Data Lifecycle Management is for retention and deletion. None of those is the Microsoft Purview solution specifically built to monitor suspicious user activity and data exfiltration risk for departing employees. Microsoft positions Insider Risk Management as the correct tool for this scenario.
