Salesforce Certified Experience Cloud Consultant certification validates the candidate's expertise in the areas of Salesforce Experience Cloud administration, design, and configuration. To qualify for this certification, candidates should have a minimum of two years of experience working with Salesforce and at least six months of experience in the Salesforce Experience Cloud domain. Salesforce Certified Experience Cloud Consultant certification exam consists of 60 multiple-choice questions and requires a passing score of 63%.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q130-Q135):

NEW QUESTION # 130

Ursa Major Solar created a public knowledge base where both authenticated customers and unauthenticated guest users can view Known articles as a self-service option to troubleshoot issues.

When creating a Knowledge article, which checkbox should be selected so that all users can view the articles?

- A. Visible to Customer
- B. Visible to Partner
- C. Visible to Anyone
- **D. Visible to Public Knowledge Base**

Answer: D

NEW QUESTION # 131

What is the most efficient way that a Salesforce Admin can create a single Experience Cloud Site user from a Contact?

- A. Use Data Loader to add the Contact in Salesforce as a Customer user.
- **B. Enable the Contact in Salesforce as a Customer user.**
- C. Email the Contact a link to the Self-Registration page for the site.
- D. Enable the Account as a Customer Account so all Contacts in that Account become Customer users.

Answer: B

Explanation:

This option allows the Salesforce Admin to create a customer user from an existing contact that is associated with a customer account. The customer user inherits the role, profile, and permission sets from the contact.

The Salesforce Admin can also specify a username, email address, and nickname for the customer user.

NEW QUESTION # 132

Which step denotes the completion of an Experience Cloud site setup?

- A. Setting up SSO
- **B. Activating the site**
- C. Assigning roles to users
- D. Assigning profiles to users

Answer: B

Explanation:

The step that denotes the completion of an Experience Cloud site setup is activating the site. Activating the site is the final step that makes your Experience Cloud site live and accessible to your users and visitors. Before activating the site, you need to complete other steps such as creating pages, adding components, configuring settings, assigning permissions, and testing functionality. After activating the site, you can still make changes and updates as needed.

NEW QUESTION # 133

Cloud Kicks (CK) wants to create a public site to recruit potential volunteers. Volunteering events are stored in a custom VolunteeringEvent object.

How can CK give guest users access to a custom object?

- A. Through guest user organization-wide defaults (OWD)
- B. Through guest user Sharing Sets
- **C. Through guest user Sharing Rules**
- D. Through guest user roles

Answer: C
