Any changes taking place in the environment and forecasting in the next ACD201 exam will be compiled earlier by them. About necessary or difficult questions, they left relevant information for you.

## Appian ACD201 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Performance and Scalability: This section of the exam measures the skills of Appian Developers and covers designing performant components, building memory-efficient models, conducting database load and automated testing, analyzing server memory and logs for risks, and resolving performance concerns for end users.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Application Design and Development: This section of the exam measures the skills of Appian Developers and covers translating business requirements into user stories, building end-to-end applications, managing object security, applying design best practices, and ensuring user-centric experiences through proper UX design.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Advanced Appian Concepts: This section of the exam measures the skills of Solution Architects and covers creating and configuring authentication methods, setting up integration objects, designing APIs, evaluating smart services and plug-ins, and applying SSO mechanisms with SAML and LDAP.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>Data Management: This section of the exam measures the skills of Solution Architects and covers designing and documenting data models, recommending record types for optimization and security, working with relational data, and implementing complex models with supporting objects.</li></ul>

## Appian Senior Developer Sample Questions (Q67-Q72):

### NEW QUESTION # 67

You need to connect to an external system using OAuth 2.0: SAML Bearer Assertion Flow authentication type, which requests access to an API on behalf of a signed in user.

This standard has the several steps involved with the SAML Bearer Assertion Flow.

Which two steps should you perform? (Choose two.)

- A. Enable the checkbox labeled OAuth 2.0: SAML Bearer Assertion Flow in the Admin Console.
- B. Create a Bearer Assertion process flow to authenticate the user.
- C. **Upload Client Certificate to Connected System**
- D. **Add required users and groups to OAuth 2.0 SAML Bearer Assertion Users system group.**

**Answer: C,D**

Explanation:

Adding required users and groups to the OAuth 2.0 SAML Bearer Assertion Users system group ensures only authorized users can initiate the authentication flow.

Uploading a client certificate to the Connected System is needed for the assertion and secure communication required by the SAML Bearer Assertion Flow.

### NEW QUESTION # 68

You need to update an existing Appian application.

The application needs to be responsive and compatible with a variety of screen widths. For example: phone /tablet browser, Appian mobile app, desktop monitor.

Which two functions/parameters should you consider when updating the interfaces? (Choose two.)

- A. a!isPageWidth()
- B. stackWhen in Columns Layout and Side By Side Layout**
- C. Width of a page in the site object
- D. a!isNativeMobile()**

**Answer: B,D**

Explanation:

The stackWhen parameter in layout components helps interfaces adapt to different screen sizes by controlling when columns or side-

by-side layouts stack vertically.

The `a!isNativeMobile()` function detects if the interface is being viewed on a native mobile app, allowing you to tailor the interface for mobile responsiveness.

### NEW QUESTION # 69

You're building an order management system.

You need to create a field that displays the total number of days it took to deliver each order, and show and sort by this data in a read-only grid. The data must be available in real-time.

Which function is the most appropriate for calculating this value?

- A. `calworkdays()`
- **B. `a!customFieldDateDiff()`**
- C. `a!subtractDateTime()`

#### Answer: B

Explanation:

`a!customFieldDateDiff()` is specifically designed for calculating date differences as custom record fields, enabling sorting and real-time calculation in read-only grids.

### NEW QUESTION # 70

You're refining a story for a centralized distribution center that extends the current application by allowing inventory managers to review orders.

These orders are created through a record action that various workshops access from a shared Appian site.

Which consideration best suits this use case?

- A. What are the personas that will be utilizing this application so that an Appian group structure can be developed and maintained?
- B. How will you handle errors resulting from a failed integration as a result of the workshops using an external system to place orders?
- **C. What components have already been built relating to this piece of functionality so that you can reuse them and speed up development?**

#### Answer: C

Explanation:

Identifying the personas (such as inventory managers and workshop users) ensures you can design and maintain an appropriate Appian group structure for managing access and permissions, which is critical for a centralized application accessed by multiple roles.

### NEW QUESTION # 71

An energy company wants to allow the public to be able to report power outages directly and provide supporting documentation in the form of photos and/or videos. The company also requires the reporter's contact details.

How can a developer design and implement this requirement in Appian?

- A. A custom version of the Appian mobile app that the user can use to capture details, attached photos, and upload documents.
- B. A site where the user can trigger a process that captures the information including any uploaded files, and uploads everything to an internal Microsoft SharePoint site.
- **C. A portal that interacts with records that stores the name, address, contact information, with a defined folder to store uploaded documents.**

#### Answer: C

Explanation:

A portal interacting with records can capture public outage reports, contact details, and upload supporting documents to a defined folder, making the process accessible to the public without requiring authentication.

## NEW QUESTION # 72

Living in such a world where competitiveness is a necessity that can distinguish you from others, every one of us is trying our best to improve ourselves in every way. It has been widely recognized that the ACD201 Exam can better equip us with a newly gained personal skill, which is crucial to individual self-improvement in today's computer era. With the certified advantage admitted by the test Appian certification, you will have the competitive edge to get a favorable job in the global market.
