問題 #29

Project Scenario - Health and Safety Training Project:

ABC Company is a well-established training company that uses a standard model to develop training materials and deliver courses to customers.

ABC Company has commissioned a project in response to recent changes in government legislation relating to health and safety on construction sites. The project will deliver "capability to provide health and safety training", including the materials needed for classroom-based training and e-learning. The expected benefits for construction companies include a reduction in lost days and legal costs due to accidents.

The e-learning course will be developed by a specialist external consultancy. The materials for classroom-based training will be delivered by ABC Company's development team. All course materials will be piloted before they are used. ABC Company will deliver training to its customers and also hopes to sell the course materials to other training companies as part of their operational business. ABC Company will use their own sales and marketing departments to promote the courses.

The legislation requires construction companies to comply with the new legislation within two years. The course materials and trainers have to be accredited by a government agency before courses can be delivered.

ABC Company is planning to deliver pilot courses within five months of starting the project.

The ABC Company standard development model for new courses recommends the following stages:

Stage 1	Initiation stage
Stage 2	Classroom-based training materials Marketing materials Training venue specifications Accredited classroom-based course
Stage 3	E-learning course Amended course booking procedures Marketed courses Planned pilot courses Updated corporate quality procedures Accredited e-learning course Accredited trainers
Stage 4	Delivered pilot courses Finalized materials Project product: Capability to provide health and safety training

End of the Project scenario.

Additional Information:

The Chief Executive Officer (CEO) founded the company five years ago. Under her leadership, ABC Company has grown quickly into a successful training company. It delivers a range of accredited professional training.

The Finance Director is also a founder member of ABC Company and is responsible for authorizing budgets for the Operations and Development Teams. She authorizes all large contracts personally.

The Purchasing Manager reports to the Finance Director and is responsible for managing and monitoring supplier contracts.

The Operations Director is responsible for the delivery of all training and for the training development budget. His department organizes courses, venues and trainers. They work with the Product and the Sales teams to provide a comprehensive training schedule. ABC Company's IT manager reports to the Operations Director.

The Business Development Director has recently been appointed to identify new training needs and propose new products. She will work with the Operations Director to ensure a cost-conscious approach and that appropriate development technologies are used for the health and safety course.

The Training Development Manager reports to the Business Development Director and is responsible for developing training materials and gaining accreditation, in accordance with the standard course development model. Course developers in his team have skills in a range of development technologies and are allocated to projects as needed.

The Training Delivery Manager, who reports to the Operations Director, is responsible for ensuring that internal and external trainers deliver ABC Company training courses to the required standard. He also checks course materials to ensure they are fit for purpose.

and of the required quality.

The Central Services Director has responsibility for corporate communications, facilities management and configuration management. He recently led a project to consolidate all company quality systems into one quality management system and set up a corporate quality department, now managed by the Corporate Quality Manager.

The Corporate Document Manager reports to the Central Services Director. She helped establish the company's document management system and now operates it across the business. She manages a team of administrators and contracts staff when workload is high.

The Sales Director joined ABC Company two months ago and is keen to establish himself by suggesting new markets for the courses and material. All account managers and the marketing team report to him. They promote existing training courses to other training companies and existing customers.

End of the additional information.

A new Training Delivery Manager is being recruited to replace the current manager in six month's time. The new Training Delivery Manager will need to review the 'classroom-based training materials' before they are finalized. As a result, the Chief Executive Officer (CEO), who is not part of the project management team, has stated that the project's duration should be at least seven months. Any deviations from this timescale must be escalated to the CEO.

Is this an appropriate application of the 'manage by exception' principle, and why?

- A. No, because completing the project earlier than expected should not be reported as an exception.
- B. Yes, because the CEO should be responsible for resolving exceptions throughout the project.
- C. No, because the executive should set time tolerances for the Health and Safety Training Project.
- D. Yes, because a project time constraint should be set to meet ABC Company's business objectives.

答案： A

問題 #30

The project is now in stage 2. The Project Manager has heard about the possibility of a competitor also producing a calendar to be delivered earlier than the target date for this project. There is a threat that the early release of a competitor's calendar may weaken the impact of the MNO Manufacturing Company calendar, thereby reducing the anticipated benefits of the Calendar project.

Which 2 statements should be recorded under either the Records or Reporting headings?

- A. Risks that are likely to occur within the next two weeks should be recorded as imminent.
- B. A summary of risks will be maintained and included with the monthly Highlight Reports to the Project Board.
- C. Project Support will maintain the Risk Register.
- D. The Change Authority will report monthly to the Project Manager on the status of the change budget.
- E. The evaluated net effect of all risks will be updated at the end of each stage and included in the End Stage Report.

答案： D,E

問題 #31

The development of the 'e-learning course' will be outsourced to an external supplier and their key members will join the project management team. The supplier wants to keep their work processes confidential and not share these with ABC Company. ABC Company has agreed.

Who should approve the external supplier's team plan?

- A. Corporate, programme management or customer
- B. Supplier assurance
- C. Senior supplier
- D. Project manager

答案： A

End of the additional information.

The project is at the start of stage 3, and there will be six teams working on product delivery. In order to exercise control, the project manager has asked each team to submit a detailed team plan for approval. The external team manager for the 'e-learning course' has agreed to submit a summary to the project manager, but will submit the detailed team plan to the senior supplier to review and approve.

Is the team manager's response appropriate, and why?

- A. Yes, because team plans are mandatory on a project of this size and complexity.
- B. Yes, because a supplier may want to keep the details of the specialist work confidential.
- C. No, because the team plan must be submitted to project assurance to check it is viable.
- D. No, because the project manager needs detailed plans to manage the work of several teams.

答案： D
