Pass Guaranteed Quiz 2026 UiAAAv1: Updated UiPath Agentic Automation Associate Exam Preview

To fit in this amazing and highly accepted exam, you must prepare for it with high-rank practice materials like our UiAAAv1 study materials. Our UiAAAv1 exam questions are the Best choice in terms of time and money. If you are a beginner, start with the learning guide of UiAAAv1 Practice Engine and our products will correct your learning problems with the help of the UiAAAv1 training brandumps.

UiPath Agentic Automation Associate Sample Questions (Q29-Q34):

NEW QUESTION # 29

Scenario: A Citrix Administrator needs to create local user accounts for other administrators with limited privileges. The other administrators will need only:

- Read-only access
- The ability to enable and disable services and servers

Which built-in Command Policy permission level can the administrator use?

- A. Read-Only
- B. Network
- C. Sysadmin
- D. Operator

Answer: D

NEW QUESTION # 30

A Delivery Group has been created to publish APP_A, APP_B, and APP_C to an AD Group called "HR." There are 10 users in the AD group (HR1-HR10). It was found that a specific user, HR10, should not have access APP_A. What must be done to make sure the HR group can access the applications, but HR10 does not have access to APP_A?

- A. Limit Visibility on APP_A to HR1-HR9
- B. Remove HR10 from the Delivery Group
- C. Limit Visibility on APP_A to HR10
- D. Remove APP_A from the Delivery Group

Answer: A

Explanation:

Application visibility controls in Citrix Studio allow administrators to restrict which users or groups can see and launch specific applications. By limiting APP_A's visibility to HR1-HR9, all HR users except HR10 retain access, ensuring the Delivery Group setup remains intact while excluding only the specified user.

NEW QUESTION # 31

A Citrix Administrator is tasked with configuring Autoscale in an on-prem Citrix Virtual Apps and Desktops environment. However, when launching Citrix Studio and locating the Delivery Group, the option to Manage Autoscale is missing. What must the administrator do to enable and configure Autoscale using a GUI interface?

- A. Use Citrix Web Studio instead of Citrix Studio
- B. Enable Autoscale using a GPO
- C. Enable Autoscale using a Citrix Policy
- D. use PowerShell to enable Autoscale

Answer: A

Explanation:

Autoscale management is only available through Citrix Web Studio, not the traditional Citrix Studio console. To enable and configure Autoscale with a GUI, the administrator must use Web Studio.

NEW QUESTION # 32

Which PowerShell command should a Citrix Administrator run to obtain the name of a deployment, the local host cache configuration and the license level?

- A. Get-BrokerController
- B. Get-BrokerCatalog
- C. Get-BrokerSite
- D. Get-BrokerResource

Answer: C

Explanation:

The Get-BrokerSite PowerShell command retrieves details about the Citrix Site, including the deployment name, local host cache configuration, and license level. This makes it the correct command for gathering this type of information.

NEW QUESTION # 33

What are two methods of configuring AutoScale to power on machines as needed? (Choose two.)

- A. Host-Based
- B. Desktop-Based
- C. Schedule-Based
- D. Load-Based
- E. Server-Based

Answer: C,D

Explanation:

AutoScale can be configured using a schedule-based method, where machines power on/off according to defined time schedules, and a load-based method, where machines are powered on/off dynamically in response to user demand and load conditions. These two methods ensure resource optimization while maintaining user experience.

NEW QUESTION # 34

.....

The Real4Prep is committed to offering updated and verified UiAAAv1 exam practice questions all the time. To achieve this objective the Real4Prep has hired a team of experienced and qualified UiAAAv1 Exam experts.
