NEW QUESTION # 70

Which of the following actions should planners NOT take when they start falling behind on implementation?

- **A. Reduce stakeholder participation**
- B. Narrow the project scope
- C. Re-assess the project schedule
- D. Renegotiate and deploy more resources

Answer: A

Explanation:

Reducing stakeholder participation when implementation is behind schedule is counterproductive. Engaged stakeholders provide critical support, resources, and feedback that can help overcome obstacles. The IASP SPP curriculum stresses inclusive problem-solving and transparency during challenges to maintain trust and momentum. Reassessing schedules, reallocating resources, and adjusting scope are appropriate recovery actions. Reducing stakeholder involvement risks increased resistance, information gaps, and further delays.

- B. Key performance indicators against its strategic environment
- C. Profit and loss statement against its balance sheet
- D. Employee satisfaction levels against employee performance reviews

- B. quality circles
- C. consensus management
- D. reengineering

NEW QUESTION # 73

What should a leader do FIRST after making a mistake?

- A. Correct the problem
- B. Determine the right answer and actions
- C. Acknowledge the mistake
- D. Determine who else contributed

Answer: C

Explanation:

The first step a leader should take after making a mistake is to acknowledge it openly. This demonstrates accountability, builds trust, and sets a tone of integrity that encourages transparency throughout the organization. The IASP SPP curriculum stresses that acknowledgment is essential before corrective actions or root cause analysis can be effective. Failure to acknowledge mistakes can erode credibility and morale.
