Training C-C4H56-2411 For Exam, Latest C-C4H56-2411 Exam Questions Vce

A lot of applicants have studied from SAP C-C4H56-2411 practice material. They have rated it positively because they have cracked SAP C-C4H56-2411 Certification on their first try. BraindumpsPrep guarantees its customers that they can pass the C-C4H56-2411 test on the first attempt.

SAP Certified Associate - Implementation Consultant - SAP Service Cloud Version 2 Sample Questions (Q73-Q78):

NEW QUESTION # 73

Which of the following actions do you need to grant access to the relevant service objects? Note: There are 2 correct answers to this question.

- A. Assign a business role to a service organization
- B. Set up the case designer with the assignment step employee
- C. Assign a business role to an employee
- D. Assign a business role to a user

Answer: C,D

Explanation:

To grant access to service objects (e.g., cases) in SAP Service Cloud V2, administrators must assign a business role to a user to define their permissions for accessing specific objects. Similarly, assigning a business role to an employee ensures the employee has the necessary access rights linked to their user account. According to SAP documentation, "Access to service objects is granted by assigning business roles to users or employees." Assigning a business role to a service organization (B) is not a standard action, as roles are assigned to individuals. Setting up the case designer with the assignment step employee (D) is for case routing, not object access.
