從Google Drive中免費下載最新的Fast2test Health-Cloud-Accredited-Professional PDF版考試題庫：
<https://drive.google.com/open?id=1XGA7uea5RFn12hqPT7GsWw3ln2HsZmlm>

如果你想在短時間內，以最小的努力，達到最有效果的結果Salesforce的Health-Cloud-Accredited-Professional考試準備，你可以使用Fast2test Salesforce的Health-Cloud-Accredited-Professional考試培訓資料，Fast2test的培訓資料是通過實踐檢驗了的，也是通過眾多考生證明了它確實可以百分百通過考試，利用了它，你將達到你的目的，得到最佳的效果。

Fast2test的Health-Cloud-Accredited-Professional資料的命中率高達100%。它可以保證每個使用過它的人都順利通過考試。當然，這也並不是說你就完全不用努力了。你需要做的就是，認真學習這個資料裏出現的所有問題。只有這樣，在考試的時候你才可以輕鬆應對。怎麼樣？Fast2test的資料可以讓你在準備考試時節省很多的時間。它是你通過Health-Cloud-Accredited-Professional考試的保障。想要這個資料嗎？那就快點擊Fast2test的網站來購買吧。另外，你也可以在購買之前先試用一下資料的樣本。這樣你就可以親自確定資料的質量如何了。

>> Health-Cloud-Accredited-Professional權威認證 <<

選擇我們的高質量的Health-Cloud-Accredited-Professional權威認證： Salesforce Health Cloud Accredited Professional，Salesforce Health-Cloud-Accredited-Professional一定會很簡單

人生充滿選擇，選擇不一定給你帶來絕對的幸福，但選擇給了你絕對的機會，而一旦錯過選擇，只能凝望。Fast2test Salesforce的Health-Cloud-Accredited-Professional考試培訓資料是每個IT人士通過IT認證必須的培訓資料，有了這份考試資料就等於手握利刃，所有的考試難題將迎刃而解。Fast2test Salesforce的Health-Cloud-Accredited-Professional考試培訓資料是針對性強，覆蓋面廣，更新快，最完整的培訓資料，有了它，所有的IT認證都不要害怕，你都會順利通過的。

Salesforce Health Cloud Accredited Professional認證是醫療保健專業人士想要證明自己實施和管理Salesforce Health Cloud

方面專業知識的寶貴資格。該認證考試涵蓋了與醫療數據管理、患者管理、護理協調和健康分析相關的各種主題。通過獲得這個認證，專業人士可以提高自己的職業前景，在他們的領域中獲得專家的認可。

最新的 Salesforce Health Cloud Health-Cloud-Accredited-Professional 免費考試真題 (Q91-Q96):

問題 #91

How should a consultant at a large provider system model a patient in Health Cloud?

- A. Leverage Contact-Contact
- B. Configure Account
- **C. Leverage Person Account**
- D. Configure Contact

答案: C

解題說明:

Step-by-Step Explanation:

* Person Account as Patient Model: Salesforce Health Cloud is designed to leverage the Person Account model to represent patients, especially for large provider systems.

* Exact Extract:

"Health Cloud uses person accounts to represent patients as individuals with whom you do business. Person accounts combine the functionality of accounts and contacts into a single record." Reference: Administer Health Cloud - Enable Person Accounts Why Not Other Options?

Account: Used for organizations, not individuals (patients).

Contact: Contacts are linked to Accounts; on their own, they don't support the full Health Cloud data model.

Contact-Contact: Not a recommended or documented model for patients in Health Cloud.

Conclusion: To model a patient in Health Cloud, the Person Account model is the officially recommended approach.

問題 #92

Bloomington Caregivers would like to bulk upload information to support Provider Search and Provider Relationship Card.

What are the two best practice recommendations to upload this information?

Choose 2 answers

- A. Use Provider Card API.
- B. Use Provider Relationship API.
- **C. Use Composite API Request.**
- **D. Use Data Loader.**

答案: C,D

解題說明:

Bloomington Caregivers aims to bulk upload information to support Provider Search and the Provider Relationship Card in Salesforce Health Cloud. Implementing this requires populating various provider-related objects efficiently. Two best practice methods for achieving this are:

1. Using Composite API Requests (Answer C):

* Purpose: The Composite API allows for the creation and linking of multiple related records in a single API call. This is particularly beneficial when dealing with complex data models involving multiple objects, as it ensures data integrity and reduces the number of API calls.

* Implementation Steps:

* Prepare Data Payload: Structure your data in a JSON format that includes all necessary records and their relationships.

* Make Composite API Call: Use the Composite API to submit the data payload, which will process the creation of multiple records in a single transaction.

* Verify Data Integrity: After the API call, confirm that all records have been created and linked correctly.

* Advantages:

* Efficiency: Reduces the number of API calls by bundling multiple operations into one request.

* Atomic Transactions: Ensures that all operations succeed or fail together, maintaining data consistency.

Reference: For detailed guidance on using Composite API requests for provider data, refer to Salesforce's documentation: Import Data for Provider Cards.

2. Using Data Loader (Answer D):

Purpose: Data Loader is a client application provided by Salesforce that facilitates bulk data import and export. It's suitable for handling large volumes of data and supports the insertion, update, deletion, and export of Salesforce records.

Implementation Steps:

Prepare CSV Files: Organize your provider data into CSV files, ensuring that all required fields are populated and relationships are properly mapped.

Configure Data Loader: Install and set up Data Loader on your system, configuring it to connect to your Salesforce instance.

Import Data: Use Data Loader to insert or update records in Salesforce, following the correct sequence to maintain data relationships.

Verify Import Results: After the import, review success and error logs to ensure all records were processed correctly.

Advantages:

User-Friendly Interface: Provides a graphical interface for mapping fields and managing data operations.

Support for Large Data Volumes: Capable of handling up to 5 million records in a single operation.

Reference: For more information on using Data Loader for mass data uploads, see Salesforce's FAQ: Can I mass upload data into Salesforce?.

Conclusion:

By utilizing Composite API Requests and Data Loader, Bloomington Caregivers can efficiently bulk upload provider information to support Provider Search and the Provider Relationship Card in Salesforce Health Cloud. These methods ensure data integrity, streamline the import process, and enhance the functionality of provider-related features within the platform.

問題 #93

A payer is implementing Health Cloud and wants to leverage predefined rules for its prior authorization request review process. The payer would like to leverage out-of-the-box Health Cloud functionality to drive speed to value.

Which prebuilt feature should a consultant recommend the payer leverage?

- A. FlexCards
- B. OmniScript Templates
- C. Expression Set Templates
- D. Integration Procedures

答案: C

解題說明:

For a payer implementing Health Cloud, leveraging predefined rules for prior authorization reviews can significantly improve efficiency and speed. Salesforce Health Cloud provides Expression Set Templates as an out-of-the-box feature to achieve this.

* Predefined Rules:

* Expression Set Templates come with prebuilt rule sets that can evaluate conditions, making them ideal for automating prior authorization request reviews.

* Customizable Logic:

* While they provide predefined logic, templates can also be customized to align with specific payer policies or regulatory requirements.

* Faster Implementation:

* Using out-of-the-box templates accelerates time-to-value, as they require minimal configuration compared to building rules from scratch.

* A. Integration Procedures: Focuses on data integration and server-side processing but does not address predefined rules for authorization reviews.

* C. FlexCards: Provides UI components for displaying information but does not support rule evaluation.

* D. OmniScript Templates: Useful for guided workflows but not specifically for predefined rule management.

Expression Sets in Salesforce Health Cloud

問題 #94

An administrator for Health Cloud wants to ensure that the files in their full sandbox instance are encrypted.

Which encryption solution supports the encryption of files in this scenario?

- A. Salesforce Shield
- B. Salesforce Data Mask
- C. Classic Encryption
- D. Industry Data Security

答案：A

解題說明：

Step-by-Step Explanation:

* Requirement:

* Encrypt files in a full sandbox instance.

* Salesforce Shield Platform Encryption:

* Provides encryption of files and attachments at rest across Salesforce environments (including sandboxes).

* "Use Shield Platform Encryption to encrypt files and attachments stored in Salesforce, including those in sandbox environments."

Salesforce Shield Platform Encryption Guide

* Other Options:

* Classic Encryption: Only encrypts a limited set of standard fields, not files or attachments.

* Salesforce Data Mask: Masks data for sandbox use, but does not encrypt files for runtime.

* Industry Data Security: Not a Salesforce product for file encryption.

Shield Platform Encryption Guide

問題 #95

How does an administrator display device information on a patient card?

- A. Create a custom field on the EHR_DeviceRequest object with a formula that return the information.
- B. Create a custom field on the FilterCondition__c object with a formula that return the information.
- C. Create a custom field on the EHR_MedicalDevice object with a formula that return the information.
- D. Create a custom field on the EHR_Patient object with a formula that return the information.
- E. Create an Asset record and create a care registered device record that look up to the patient.

答案：E

問題 #96

.....

所有的Salesforce職員都知道，Health-Cloud-Accredited-Professional認證考試的資格是不容易拿到的。但是，參加Health-Cloud-Accredited-Professional認證考試獲得資格又是提升自己能力以及更好地證明自己的價值的途徑，所以不得不選擇。那麼，難道沒有一個簡單的方法可以讓大家更容易地通過Salesforce認證考試嗎？當然有了。Fast2test的考古題就是一個最好的方法。Fast2test有你需要的所有資料，絕對可以滿足你的要求。你可以到Fast2test的网站了解更多的信息，找到你想要的考試資料。

最新Health-Cloud-Accredited-Professional考證: <https://tw.fast2test.com/Health-Cloud-Accredited-Professional-premium-file.html>

Fast2test 最新Health-Cloud-Accredited-Professional考證的資料完全可以經受得住時間的檢驗，您是否感興趣想通過Health-Cloud-Accredited-Professional考試，然後開始您的高薪工作，為什麼不嘗試Fast2test 最新Health-Cloud-Accredited-Professional考證公司的PDF版本和軟件版本的在線題庫呢，Salesforce Health-Cloud-Accredited-Professional權威認證 但是這是最浪費時間並且很可能得不到預期的效果的方法，我們的題庫將為您提供Salesforce Health-Cloud-Accredited-Professional實踐檢驗與已反映了實際測試，Salesforce Health-Cloud-Accredited-Professional權威認證 這樣你肯定就會相信我說的了，Salesforce Health-Cloud-Accredited-Professional權威認證 IT考試的認證資格得到了國際社會的廣泛認可，選擇Fast2test可以保證你可以在短時間內學習及加強IT專業方面的知識，還可以以高分數通過Salesforce Health-Cloud-Accredited-Professional的認證考試。

這種思路，即是當初他在盤古開辟洪荒時就曾經有過的念頭，更何況何為萬族，Fast2test的資料完全可以經受得住時間的檢驗，您是否感興趣想通過Health-Cloud-Accredited-Professional考試，然後開始您的高薪工作，為什麼不嘗試Fast2test公司的PDF版本和軟件版本的在線題庫呢？
