- **A. Leads**
- **B. Accounts**
- C. Contract
- **D. Contact**
- E. Opportunities

Answer: A,B,D

NEW QUESTION # 64

What will happen to the Chatter post in this situation?

- **A. The pending Chatter post will be canceled.**
- B. The pending Chatter post will be sent on the 10th of the month
- C. The pending Chatter post will be will be paused.
- D. The pending Chatter post will be sent in 30 days.

Answer: A

Explanation:

Explanation

A pending Chatter post is a post that has been scheduled to be published at a future date and time. However, if the user who created the pending Chatter post is deactivated before the scheduled date and time, then the pending Chatter post will be canceled and will not be published. This is because deactivated users cannot create or edit posts in Chatter. References:

NEW QUESTION # 65

Customer service accesses articles with the Knowledge Lightning component on the Service Cloud Console.

Billing department users would like similar functionality on the case record without using the console.

How should the administrator configure this request?

- **A. Add the Knowledge related list to the page layout.**
- B. Add the knowledge component to the page layout.
- C. Add the knowledge related list to the record page
- D. Add the Knowledge component list to the page layout.

Answer: A

Explanation:

The Knowledge Lightning component is a component that allows users to access articles from the Service Cloud Console app.

However, if users want to access articles from a different app that does not use the console, they can use the Knowledge related list

instead. The Knowledge related list shows articles related to a record based on data categories and shows article details such as title, summary, rating, and view count. To add the Knowledge related list to a record page, an administrator can use the page layout editor and drag and drop the Knowledge related list to the appropriate section on the page layout.
