300-710 Free Vce Dumps, Test 300-710 Dates

The Cisco 300-710 online practice test engine that comes with the Securing Networks with Cisco Firepower (300-710) exam questions from Actual4Cert assists you in simulating the real Securing Networks with Cisco Firepower (300-710) exams. This is excellent for familiarizing yourself with the Securing Networks with Cisco Firepower and learning what to anticipate on test day. You can also use the Cisco Practice Test (Links to an external site.) engine to monitor your progress and review your answers to see

where you need to improve for the Securing Networks with Cisco Firepower (300-710) exam.

Cisco Securing Networks with Cisco Firepower Sample Questions (Q173-Q178):

NEW QUESTION # 173

An engineer is troubleshooting a device that cannot connect to a web server. The connection is initiated from the Cisco FTD inside interface and attempting to reach 10.0.1.100 over the non-standard port of 9443. The host the engineer is attempting the connection from is at the IP address of 10.20.10.20. In order to determine what is happening to the packets on the network, the engineer decides to use the FTD packet capture tool. Which capture configuration should be used to gather the information needed to troubleshoot this issue?

- A)
- B)
- C)
- D)

- A. Option A
- **B. Option B**
- C. Option C
- D. Option D

Answer: B

NEW QUESTION # 174

An engineer is configuring a second Cisco FMC as a standby device but is unable to register with the active unit. What is causing this issue?

- A. There is only 10 Mbps of bandwidth between the two devices.
https://www.cisco.com/c/en/us/td/docs/security/firepower/620/configuration/guide/fpmc-config-guide-v62/firepower_management_center_high_availability.html
- B. The licensing purchased does not include high availability
- **C. The code versions running on the Cisco FMC devices are different**
- D. The primary FMC currently has devices connected to it.

Answer: C

NEW QUESTION # 175

An administrator configures a Cisco Secure Firewall Threat Defense device in transparent mode. To configure the BVI (Bridge Virtual Interface), the administrator must:

Add a bridge-group interface

Configure a bridge-group ID

Configure the bridge-group interface description

Add bridge-group member interfaces

How must the engineer perform these actions?

- A. Configure a name for the bridge-group interface
- B. Set the bridge-group interface mode to transparent
- **C. Configure an IP address for the bridge-group interface**
- D. Set a security zone for the bridge-group interface

Answer: C

NEW QUESTION # 176

Which component is needed to perform rapid threat containment with Cisco FMC?

- A. DDI

- B. RESTful API
- **C. ISE**
- D. SIEM

Answer: C

Explanation:

To perform rapid threat containment with Cisco FMC, the necessary component is Cisco Identity Services Engine (ISE). ISE integrates with FMC to provide dynamic network access control and enforcement, allowing for quick isolation of compromised endpoints based on security events detected by FMC.

Steps:

- * Integrate FMC with ISE by configuring the necessary settings in both platforms.
- * Define security policies in FMC that trigger rapid threat containment actions via ISE.
- * When a threat is detected, FMC can instruct ISE to isolate the affected endpoint, limiting its access to
- * the network.

This integration enables automated and efficient threat containment, reducing the response time and mitigating the impact of security incidents.

References: Cisco Secure Firewall Management Center Integration Guide, Chapter on ISE Integration for Rapid Threat Containment.

NEW QUESTION # 177

An administrator is attempting to add a new FTD device to their FMC behind a NAT device with a NAT ID of NAT001 and a password of Cisco0420106525. The private IP address of the FMC server is 192.168.45.45. which is being translated to the public IP address of 209.165.200.225/27. Which command set must be used in order to accomplish this task?

- A. `configure manager add 209.165.200.225 255.255.255.224 <reg_key> <nat_id>`
- B. `configure manager add 209.165.200.225/27 <reg_key> <nat_id>`
- **C. `configure manager add 209.165.200.225 <reg_key> <nat_id>`**
- D. `configure manager add 192.168.45.45 <reg_key> <nat_id>`

Answer: C

NEW QUESTION # 178

.....

The contents of 300-710 exam torrent was all compiled by experts through the refined off textbooks. Hundreds of experts simplified the contents of the textbooks, making the lengthy and complex contents easier and more understandable. With 300-710 study tool, you only need 20-30 hours of study before the exam. 300-710 guide torrent provides you with a brand-new learning method. In the course of doing questions, you can memorize knowledge points. You no longer need to look at the complicated expressions in the textbook. Especially for those students who are headaches when reading a book, 300-710 Study Tool is their gospel. Because doing exercises will make it easier for one person to concentrate, and at the same time, in the process of conducting a mock examination to test yourself, seeing the improvement of yourself will makes you feel very fulfilled and have a stronger interest in learning. 300-710 guide torrent makes your learning process not boring at all.
