Topic 2	<ul style="list-style-type: none"> • Extensibility and Integration: This section of the exam measures the skills of Business Process Experts and evaluates the ability to extend SAP S • 4HANA Cloud functionalities using in-app and side-by-side extensibility options. It also includes integrating SAP systems with external applications to support end-to-end business processes.
Topic 3	<ul style="list-style-type: none"> • Configuration and the SAP Fiori Launchpad: This section of the exam measures the skills of Implementation Consultants and covers the ability to configure the system to meet customer requirements. It also evaluates knowledge of using the SAP Fiori Launchpad to personalize user experiences and manage business roles within the cloud environment.
Topic 4	<ul style="list-style-type: none"> • Data Migration and Business Process Testing: This section of the exam measures skills of Business Process Experts and focuses on preparing, migrating, and validating business data within SAP S • 4HANA Cloud. It also includes setting up and executing business process testing to ensure smooth operations after go-live.
Topic 5	<ul style="list-style-type: none"> • Implementing with a Cloud Mindset, Building the Team, and Conducting Fit-to-Standard Workshops:

SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q15-Q20):

NEW QUESTION # 15

How does an implementation consultant support customer experts during Fit-to-Standard workshops? Note: There are 2 correct answers to this question.

- A. Determine set up instructions for customer-driven integrations.
- B. Conduct end-user training on active scope items.
- C. Highlight areas that require configuration or customization decisions.
- D. Demonstrate SAP Best Practice business processes in the starter system.

Answer: C,D

NEW QUESTION # 16

Through which applications can you launch the Cloud Integration Automation Service (CIAS)? Note: There are 2 correct answers to this question.

- A. SAP Cloud ALM
- B. SAP Business Accelerator Hub
- C. SAP Signavio Process Navigator
- D. SAP for Me

Answer: A,D

Explanation:

You can launch the Cloud Integration Automation Service (CIAS) through the following applications:

* SAP for Me: SAP for Me is your digital companion along your whole SAP customer journey. It provides you with full transparency into your SAP product portfolio, including your licenses, systems, users, orders, contracts, and invoices. You can also access the CIAS from the SAP for Me mobile app.

* SAP Cloud ALM: SAP Cloud ALM is a cloud-based application lifecycle management solution that helps you implement, operate, and optimize your cloud solutions. It offers various tools and services to support your end-to-end business processes, such as process management, task management, test management, and integration monitoring. You can access the CIAS from the SAP Cloud ALM launchpad. References = SAP for Me - Apps on Google Play, SAP for Me - Your digital companion along your whole

NEW QUESTION # 17

Which activities does the consultant do before the first Fit-to-Standard workshop? Note: There are 2 correct answers to this question.

- A. Upload customer master data in the Starter system using migration templates.
- B. Deactivate scope items that are NOT part of the Statement of Work/Digital Discovery Assessment.
- C. Evaluate the L2 Business-Driven Configuration Questionnaire responses.
- D. Review the integration requirements collected from the Digital Discovery Assessment.

Answer: C,D

NEW QUESTION # 18

Which activities does the consultant do before the first Fit-to-Standard workshop? Note: There are 2 correct answers to this question.

- A. Evaluate the L2 Business-Driven Configuration Questionnaire responses.
- B. Upload customer master data in the Starter system using migration templates.
- C. Deactivate scope items that are NOT part of the Statement of Work/Digital Discovery Assessment.
- D. Review the integration requirements collected from the Digital Discovery Assessment.

Answer: C,D

Explanation:

Before the first Fit-to-Standard workshop, the consultant should do the following activities:

* Deactivate scope items that are NOT part of the Statement of Work/Digital Discovery Assessment. This is to ensure that the Starter system reflects the agreed scope of the project and does not include any unnecessary or out-of-scope items. The consultant can use the Scope Item Management app to deactivate scope items¹.

* Review the integration requirements collected from the Digital Discovery Assessment. This is to understand the customer's integration needs and prepare for the integration topics that will be discussed in the Fit-to-Standard workshop. The consultant can use the Integration Solution Advisor tool to review the integration requirements and the recommended integration scenarios².

The consultant should NOT do the following activities before the first Fit-to-Standard workshop:

* Upload customer master data in the Starter system using migration templates. This is not required before the first Fit-to-Standard workshop, as the customer master data is not relevant for the process validation. The consultant should upload the customer master data in the Quality system after the Fit-to-Standard workshop, using the SAP S/4HANA Migration Cockpit³.

* Evaluate the L2 Business-Driven Configuration Questionnaire responses. This is not required before the first Fit-to-Standard workshop, as the L2 Business-Driven Configuration Questionnaire is not available at this stage. The consultant should evaluate the L2 Business-Driven Configuration Questionnaire responses after the Fit-to-Standard workshop, using the SAP Activate Methodology.

NEW QUESTION # 19

Which solution is designed to help customers understand their environmental, social, and governance (ESG) data?

- A. SAP Sustainability Footprint Management
- B. SAP Sustainability Control Tower
- C. SAP Responsible Design and Production
- D. SAP Green Token
