

Plat-Admn-202 dumps PDF, Plat-Admn-202 exam questions and answers, free Plat-Admn-202 dumps

The screenshot shows a software interface for ActualKey. At the top, there are three icons: a red square with a white 'X', a blue square with a white 'X', and a green square with a white 'X'. To the right of these is the text 'Question 2 of 5' and '01:29:54 Time Remaining'. Below this, the text 'Palo Alto Networks Question: 2' is displayed. A blue bar at the bottom of the screen contains the text 'JOB QUESTIONS | VERSION 10.0'. The main content area shows a diagram of a network setup. On the left, there is a blue box labeled 'Firewall' with a 'Performance' tab. A blue line labeled 'WAN' connects it to a central blue circle labeled 'Panorama'. From this central circle, a blue line labeled 'Data Center' connects to a green box labeled 'Management and Monitoring' with a 'Panorama' tab. Below the diagram, the text reads: 'An organization has Palo Alto Networks NGFWs that send logs to remote monitoring and security management platforms. The network team has reported excessive traffic on the corporate WAN. How could the Palo Alto Networks NGFW administrator reduce WAN traffic while maintaining support for all existing monitoring platforms?'. Three options are listed: A. Forward logs from firewalls only to Panorama and have Panorama forward logs to other external services. B. Forward logs from external sources to Panorama for correlation, and from Panorama send them to the NGFW. C. Configure log compression and optimization features on all remote firewalls. At the bottom of the interface, there are four buttons: 'Show Answer' (gray), 'End Exam' (red), 'Previous' (gray), and 'Next' (gray).

Our Plat-Admn-202 test torrent keep a look out for new ways to help you approach challenges and succeed in passing the Salesforce Certified Platform App Builder exam. An ancient Chinese proverb states that “The journey of a thousand miles starts with a single step”. To be recognized as the leading international exam bank in the world through our excellent performance, our Salesforce Certified Platform App Builder qualification test are being concentrated on for a long time and have accumulated mass resources and experience in designing study materials. There is plenty of skilled and motivated staff to help you obtain the Salesforce Certified Platform App Builder exam certificate that you are looking forward. We have faith in our professional team and our Plat-Admn-202 Study Tool, and we also wish you trust us wholeheartedly.

With the principles of serve first and customers first, we will company you during you whole preparation. We offer you free demo before buying Plat-Admn-202 exam dumps of us, and you can get your downloading link and password when you finish your payment. And you can get them about ten minutes after your payment. What's more, we have free update for one year after purchasing, and the updated version will send to your email automatically. If you have any questions about the Plat-Admn-202 Exam Dumps, you can consult our online service stuff.

New Plat-Admn-202 Test Question, Plat-Admn-202 Test Topics Pdf

Salesforce Plat-Admn-202 certification exams play a significant role to verify skills, experience, and knowledge in a specific technology. Enrollment in the Salesforce Certified Platform App Builder Plat-Admn-202 is open to everyone. Participants in the Salesforce Certified Platform App Builder Plat-Admn-202 come from all over the world and receive the credentials for the Salesforce Plat-Admn-202. They can quickly advance their careers in the fiercely competitive market and benefit from certification after earning the Salesforce Certified Platform App Builder Plat-Admn-202 badge.

Salesforce Plat-Admn-202 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">App Deployment: This section of the exam measures the skills of Release Managers and Salesforce Administrators and covers the application lifecycle from planning through deployment. It requires determining the appropriate strategy when working with different sandboxes and managing milestones during development. Candidates must know when to use change sets and how to troubleshoot deployment issues. The section also includes understanding the implications of using unmanaged versus managed packages and selecting the correct deployment plan for various business scenarios.

Topic 2	<ul style="list-style-type: none"> • Data Modeling and Management: This section of the exam measures the skills of Data Analysts and Salesforce Administrators and covers the core principles of designing and maintaining Salesforce data structures. It requires selecting the correct data model in various scenarios and understanding relationship types and how they influence reporting, record access, and the user interface. It also tests knowledge of field data types and the operational impact of changing them. The section includes evaluating the use of Schema Builder and understanding the considerations involved in importing and exporting data across internal and external sources.
Topic 3	<ul style="list-style-type: none"> • User Interface: This section of the exam measures the skills of Salesforce UI Designers and Lightning App Builders and covers the ways in which Salesforce interfaces can be customized to improve usability. It includes understanding available options for UI customization and demonstrating when to apply custom buttons, links, and actions. The domain also distinguishes between declarative and programmatic methods for incorporating Lightning components in applications, ensuring that the right approach is selected for different user interface needs.
Topic 4	<ul style="list-style-type: none"> • Business Logic and Process Automation: This section of the exam measures the skills of Process Automation Specialists and Salesforce Administrators and covers the key tools Salesforce provides to automate and enforce business logic. It focuses on using formula fields, roll-up summary fields, and validation rules to meet defined requirements. Candidates must also understand approval processes and know how to select the right automation tool to prevent conflicts or errors. The domain emphasizes evaluating business requirements and recommending automation solutions that maintain system stability and accuracy.
Topic 5	<ul style="list-style-type: none"> • Salesforce Fundamentals: This section of the exam measures the skills of Salesforce Administrators and Junior Salesforce Consultants and covers the essential concepts needed to understand how Salesforce works at a foundational level. It focuses on recognizing when to use declarative tools versus programmatic customization, determining when AppExchange apps extend org capabilities, and understanding key methods for managing object, record, and field access. It also evaluates your ability to choose the right sharing model based on business needs and to apply reporting tools effectively, including report types and dashboards. Additionally, the domain reviews how to optimize the mobile experience through actions and layouts, and how Chatter can be used to support collaboration.

Salesforce Certified Platform App Builder Sample Questions (Q103-Q108):

NEW QUESTION # 103

Cloud Kicks wants to set up a new opportunity approval process and execute various action items based on the initial submission. Which three action types should an app builder use in the approval process?

Choose 3 answers

- A. Outbound Message
- B. Invocable Process Builder
- C. Task
- D. Invocable Flow
- E. Email Alert

Answer: C,D,E

Explanation:

Email alert, task, and invocable flow are three action types that can be used in an approval process. Email alert can send an email message to one or more recipients. Task can assign a task to a user or queue. Invocable flow can launch a flow that performs complex logic and actions

NEW QUESTION # 104

An app builder is creating a custom object called Testimonial__c and wants to connect Testimonial__c records with both the submitter's Contact record and Account record. If the Account is deleted, the Testimonial__c should also be deleted. If the Contact is deleted, but the Account remains, the Testimonial__c should remain.

How should this be accomplished?

- A. Make both the Contact and Account fields required on the Testimonial__c object and create lookup relationships from Testimonial__c to Contact and to Account.
- B. Create a lookup relationship from Testimonial__c to Account and a master-detail relationship from Testimonial__c to Contact.
- C. Make Testimonial__c a junction object between Account and Contact using master-detail relationships.
- D. Create a master-detail relationship from Testimonial__c to Account and a lookup relationship from Testimonial__c to Contact.

Answer: D

Explanation:

To connect Testimonial__c records with both the submitter's Contact record and Account record, an app builder should create a master-detail relationship from Testimonial__c to Account and a lookup relationship from Testimonial__c to Contact. A master-detail relationship creates a parent-child relationship between two objects and allows for roll-up summary fields, sharing settings, and cascading actions. A lookup relationship creates a loose association between two objects and allows users to relate records from one object to another. Source

NEW QUESTION # 105

Which three Salesforce functionalities are ignored when processing field updates in workflow rules and approval processes?

- A. Field-Level Security
- B. Multiple currencies
- C. Validation Rules
- D. Record type picklist value assignments
- E. Decimal places and character limits

Answer: A,C,E

Explanation:

The three Salesforce functionalities that are ignored when processing field updates in workflow rules and approval processes are:
Field-Level Security: This means that the field update will occur regardless of the user's profile or permission set settings that determine whether they can see or edit the field1.

Validation Rules: This means that the field update will bypass any validation rules that might otherwise prevent the record from being saved1.

Decimal places and character limits: This means that the field update will round or truncate the value to fit the field's format, without throwing an error

NEW QUESTION # 106

An app builder at Northern Trail Outfitters created a sandbox template for Accounts, Projects, and Project Milestones to reconfigure some flows for the project management app.

Which type of testing environment should the app builder create?

- A. Scratch Org
- B. Partial Copy
- C. Developer Pro
- D. Developer

Answer: B

Explanation:

A Partial Copy Sandbox is designed for testing and development with a subset of production data based on a sandbox template. Since the question mentions that a sandbox template was created for certain objects (Accounts, Projects, Project Milestones), the environment must support template-based sampling, which only Partial Copy and Full sandboxes do.

Why B (Partial Copy) is correct: Exact Extract: "A Partial Copy sandbox includes your organization's metadata and a sample of your production data as defined by a sandbox template. Use it for quality assurance tasks, integration testing, and user training." - Salesforce Help | Sandbox Types and Templates

Developer and Developer Pro sandboxes do not support sandbox templates.

Why B (Partial Copy) is correct: Exact Extract: "A Partial Copy sandbox includes your organization's metadata and a sample of your production data as defined by a sandbox template. Use it for quality assurance tasks, integration testing, and user training." - Salesforce Help | Sandbox Types and Templates

Developer and Developer Pro sandboxes do not support sandbox templates.

Why not A or C:Developer and Developer Pro contain metadata only - no data templates or sample data.
Why not D:Scratch Orgs are for source-driven development and are not created from sandbox templates.

NEW QUESTION # 107

UVC's CFO has asked that all deals with more than a 40% discount get automatically sent to the VP of Finance. He will review these deals without the sales rep needing to take action. Which two ways can this be accomplished without building code? Choose two answers

- A. Launch a flow that uses the submit for approval action to submit deals for approval
- B. Create a new process with a submit for approval action to automatically submit deals for approval
- C. **Launch a new approval process that has automatic submission enabled as an initial submission action**
- D. **Create a new approval process that has automatic submission enabled in the entry criteria**

Answer: C,D

Explanation:

Launch a new approval process that has automatic submission enabled as an initial submission action, and Create a new approval process that has automatic submission enabled in the entry criteria. These are correct because both options allow the deals to be automatically submitted for approval without requiring any action from the sales rep. The automatic submission can be configured either as an initial submission action or as part of the entry criteria

NEW QUESTION # 108

.....

Our website is the first choice among IT workers, especially the ones who are going to take Plat-Admn-202 certification exam in their first try.
