after you have memorized all questions and answers accurately. Also, we just pick out the most important knowledge to learn. Through large numbers of practices, you will soon master the core knowledge of the CPRE-FL_Syll_3.0 Exam. It is important to review the questions you always choose mistakenly. You should concentrate on finishing all exercises once you are determined to pass the CPRE-FL_Syll_3.0 exam.

ISQI IREB Certified Professional for Requirements Engineering. Foundation Level Sample Questions (Q78-Q83):

NEW QUESTION # 78

Which of the following is a disadvantage of template-based work products?

- A. There are no real disadvantages.
- B. Requirements do not look uniform.
- C. The structure is not reusable.
- D. Not-included aspects are likely to be omitted.

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Template-based documents and forms enforce a common structure, making requirements more uniform (contradicting A) and inherently reusable across projects (contradicting B). However, they have notable downsides: people may focus on filling the template rather than thinking deeply about content, and any aspect not explicitly represented by a field in the template tends to be overlooked. This can lead to missing important information. Therefore option D correctly captures a documented disadvantage; C is obviously false because the syllabus explicitly lists cons.

NEW QUESTION # 79

Select the two typically lowest abstraction levels among the following options.

- A. User
- B. Component
- C. Stakeholder
- D. System
- E. Business

Answer: B,D

NEW QUESTION # 80

According to the Kano model, a feature that customers specifically request is called a:

- A. Delighter
- B. Satisfier
- C. Critical
- D. Must-have

Answer: B

Explanation:

Explanation:

NEW QUESTION # 81

Which of the following are categories of validation techniques?

- A. Evaluation techniques
- B. Incremental techniques
- C. Exploratory techniques
- D. Sample development

- E. Experimental techniques

Answer: C,D

NEW QUESTION # 82

Choose the WRONG answer regarding good practices when dealing with abstraction levels of requirements.

- A. In large work products, requirements from different abstraction levels should be organized by structuring the specification.
- **B. There is no problem in mixing requirements from different abstraction levels in medium sized work products.**
- C. If the subject to be specified is a low level element of the solution, the requirement should naturally be specified at a low abstraction level.
- D. In small work products, requirements should stay at the same abstraction level.

Answer: B

NEW QUESTION # 83

.....

In today's society, the number of college students has grown rapidly. Everyone has their own characteristics. How do you stand out? Obtaining CPRE-FL_Syll_3.0 certification is a very good choice. Our CPRE-FL_Syll_3.0 study materials can help you pass test faster. You can take advantage of the certification.
