In an increasingly competitive social life, we should keep up with the unpredictable world, regain our knowledge, and pursue decent work and a higher standard of living. If you have a HCL-HWA-ADM-102 certificate, you will gain more competitive advantage and differentiate yourself from other job seekers. In this respect, HCL-HWA-ADM-102 Study Guide is obviously your best choice. HCL-HWA-ADM-102 certification training ' main advantage contains saving you a lot of time and improving your learning efficiency.

As we discussed above that the HCLSoftware Certified Administrator- HWA 10.2 (HCL-HWA-ADM-102) exam preparation material is available in three different formats. One of them is HCLSoftware HCL-HWA-ADM-102 PDF questions format which is portable. Users of this format can print HCLSoftware Certified Administrator- HWA 10.2 (HCL-HWA-ADM-102) real exam questions in this file to study without accessing any device. Furthermore, smart devices like laptops, smartphones, and tablets support the HCL-HWA-ADM-102 PDF Questions. Hence, you can carry this material to any place and revise HCL-HWA-ADM-102 exam questions conveniently without time restrictions.

HCL-HWA-ADM-102 Test Testking - HCLSoftware Exam HCL-HWA-ADM-102 Details: HCLSoftware Certified Administrator- HWA 10.2 Pass Certify

To let the clients have an understanding of their mastery degree of our HCL-HWA-ADM-102 guide materials and get a well preparation for the test, we provide the test practice software to the clients. The test practice software of HCL-HWA-ADM-102 practice guide is based on the real test questions and its interface is easy to use. The test practice software boosts the test scheme which stimulate the real test and boost multiple practice models, the historical records of the practice of HCL-HWA-ADM-102 Training Materials and the self-evaluation function.

HCLSoftware Certified Administrator- HWA 10.2 Sample Questions (Q495-Q500):

NEW QUESTION # 495

During HCL HWA 10.2 installation on AIX 7.2, the administrator sets TWA_HOME=/usr/lpp/twas and TWS_DATA_DIR=/dbdata/twas_data exceeding 4TB total with joblog archiving enabled. twsinst reports "Insufficient disk space in TWS_DATA_DIR". What is the precise calculation for minimum required space in TWS_DATA_DIR?

- A. 1.5x TWA_HOME + log retention period in days x 100MB
- B. TWA_HOME size + 500MB per CPU core + swap space
- C. TWA_HOME size x 2 + 20% for database growth
- D. 2x TWA_HOME size + 10GB per 1000 jobs/day

Answer: D

Explanation:

HWA 10.2 documentation mandates TWS_DATA_DIR space as 2x TWA_HOME for temp files and indexes, plus 10GB per 1000 daily jobs for joblog/symrec growth. For 4TB TWA_HOME, minimum is 8TB + workload factor. Verify with df -k /dbdata before twsinst -new -data_dir /dbdata/twas_data.

NEW QUESTION # 496

Which planman commands are essential for unlocking and checking the status of a locked production plan after a failed JnextPlan in HCL Workload Automation 10.2? (Select two)

- A. planman unlock
- B. planman deploy
- C. planman checksync
- D. planman showinfo
- E. planman resync

Answer: A,D

Explanation:

planman unlock releases database entries locked by interrupted plan management processes, allowing retry of JnextPlan. planman showinfo displays current plan details, including any remaining locks or status, aiding diagnosis. resync and checksync are for database synchronization post-plan creation, deploy for event rules.

NEW QUESTION # 497

HCL Workload Automation 10.2 DWC on DB2 for z/OS encounters ODBC driver errors post-configureDb despite correct --zlocationname LOC1 and BP32K binding. The DB2 admin confirms Unicode CCSID support via JCL, but DWC tables show encoding mismatches. Which configureDb parameter addition ensures proper Unicode schema creation for internationalized DWC deployment?

- A. --rdbmstype DB2Z --unicode=true --codeset UTF8 with configureDb.sh
- B. --dbuser with Unicode-enabled account and --schema CCSID=UNICODE
- C. Modify **EQQINDWC JCL CCSID UNICODE parameter before database creation**
- D. --charset UNICODE --ccsid 1208 in configureDb.properties before execution

Answer: C

Explanation:

DB2 for z/OS Unicode support requires CCSID UNICODE specification in the EQQINDWC JCL CREATE DATABASE statement before configureDb execution, ensuring DWC tables inherit proper encoding for international characters and avoiding ODBC encoding mismatches during console operations.

NEW QUESTION # 498

Scenario: In a high-availability HCL Workload Automation 10.2 environment with master and backup dynamic domain managers,

after performing a switchmanager to the backup, dynamic jobs fail to submit with AWSJOM177E error indicating the workload broker server is unreachable for pool workstations. What are the root causes and required corrective actions? (Select three)

- A. Temporary switch does not propagate broker configuration automatically
- B. Database fields in PPS_PRODUCT_PROPERTIES table not updated correctly after switch
- C. Manual update of dynamic domain manager database to reflect new broker workstation
- D. Broker.Workstation.PortSSL property mismatch between primary and backup
- E. Restart WebSphere Liberty on both master and backup to force replication

Answer: A,B,C

Explanation:

When switching a dynamic domain manager to backup, the operation appears successful via command line, but internal database entries in PPS_PRODUCT_PROPERTIES remain pointed to the original dynamic domain manager, causing the workload broker server to be seen as unreachable for dynamic pools and agents. Temporary switches do not automatically update these persistent properties. The resolution involves manually correcting the database entries to reference the current active broker workstation, ensuring consistency for dynamic workload brokering.

NEW QUESTION # 499

Scenario: Dynamic agents in HCL Workload Automation 10.2 show frequent reconnects to the broker. Investigation points to jobman instability. What is the primary communication method affected?

- A. Batchman direct link
- B. Courier.msg
- C. Local message queues
- D. UDP heartbeat
- E. Persistent HTTPS/WebSocket to Liberty

Answer: E

Explanation:

Persistent HTTPS/WebSocket to Liberty is maintained by jobman for real-time job streaming; network glitches cause reconnects and restarts.

NEW QUESTION # 500

.....

How can we occupy a place in a market where talent is saturated? The answer is a certificate. All kinds of the test certificationS, prove you through all kinds of qualification certificate, it is not hard to find, more and more people are willing to invest time and effort on the HCL-HWA-ADM-102 exam guide, because get the test HCL-HWA-ADM-102 Certification is not an easy thing, so, a lot of people are looking for an efficient learning method. And here, fortunately, you have found the HCL-HWA-ADM-102 exam braindumps, a learning platform that can bring you unexpected experiences.

Exam HCL-HWA-ADM-102 Details: https://www.dumpkiller.com/HCL-HWA-ADM-102_braindumps.html

Dumpkiller Exam HCL-HWA-ADM-102 Details can help you pass the HCLSoftware Exam HCL-HWA-ADM-102 Details exam once, Our website is very secure and regular platform, you can be assured to download the version of our HCL-HWA-ADM-102 study torrent, We provide you with a convenient online service to resolve any questions about HCLSoftware HCL-HWA-ADM-102 exam questions for you, HCLSoftware HCL-HWA-ADM-102 Test Testking Our products are free from computer virus and we will protect your private information.

Metal Programming Guide: Tutorial and Reference via Swift, Printable HCL-HWA-ADM-102 PDF The payload of this attack was Dyre/Dyreza banking malware, delivered using a recent Adobe vulnerability.

Dumpkiller can help you pass the HCLSoftware exam once, Our website is very secure and regular platform, you can be assured to download the version of our HCL-HWA-ADM-102 study torrent.
