Now we are willing to introduce our APS Practice Questions to you in detail, we hope that you can spare your valuable time to have a try on our products. Please believe that we will not let you down!

### IOFM Accredited Payables Specialist (APS) Certification Exam Sample Questions (Q60-Q65):

#### NEW QUESTION # 60

The Sarbanes-Oxley statute in the U.S. requires public companies to: I. Establish controls over accounts payable hiring; II. Use a recognized framework to design and test controls over financial reporting; III. Ensure that the company CFO is a CPA.

- A. II only
- B. I, II, and III
- C. I and II only
- D. I only

**Answer: A**

**Explanation:**

The Tax and Regulatory Compliance topic in the APS Certification Program includes detailed coverage of the Sarbanes-Oxley Act (SOX), which mandates internal controls for public companies to ensure accurate financial reporting. SOX requires companies to use a recognized framework, such as COSO (Committee of Sponsoring Organizations), to design and test controls over financial reporting (Item II). However, it does not mandate specific controls over AP hiring (Item I) or require the CFO to be a CPA (Item III).

III).

\* Item I (Establish controls over accounts payable hiring): SOX focuses on financial reporting controls, not hiring processes for specific departments like AP. While internal controls may indirectly influence hiring (e.g., segregation of duties), there is no specific SOX requirement for AP hiring controls. This item is not required.

\* Item II (Use a recognized framework to design and test controls over financial reporting): SOX Section 404 mandates that public companies establish and test internal controls over financial reporting using a recognized framework, such as COSO. This is a core requirement.

\* Item III (Ensure that the company CFO is a CPA): SOX requires CFOs to certify financial reports (Section 302), but there is no mandate that they hold a CPA designation. This item is not required.

\* Option A (I and II only): Incorrect, as Item I is not a SOX requirement.

\* Option B (II only): Correct, as only Item II (using a recognized framework like COSO) is mandated by SOX.

\* Option C (I, II, and III): Incorrect, as Items I and III are not SOX requirements.

\* Option D (I only): Incorrect, as Item I is not a SOX requirement, and Item II is required.

Reference to IOFM APS Documents: The APS e-textbook under Tax and Regulatory Compliance states,

"SOX Section 404 requires public companies to use a recognized framework, such as COSO, to design and test internal controls over financial reporting." It clarifies that "SOX does not mandate specific hiring controls for departments like AP or require CFOs to be CPAs, though it emphasizes executive accountability." The training video discusses SOX's focus on financial controls, citing COSO as the standard framework and noting no specific hiring or CPA requirements.

### NEW QUESTION # 61

Electronic Data Interchange (EDI) has not gained more widespread use, particularly by small and medium-size companies, in part because of:

- A. Government regulations
- B. Staff resistance
- C. Security concerns
- D. Costly technology

**Answer: D**

Explanation:

Electronic Data Interchange (EDI) enables the automated exchange of business documents, such as invoices and purchase orders, between trading partners. While EDI offers efficiency, its adoption by small and medium-sized companies is limited primarily due to costly technology, including high implementation and maintenance costs for hardware, software, and integration. Government regulations (Option A), staff resistance (Option B), and security concerns (Option D) may pose challenges, but the primary barrier is cost.

The web source from SAP Concur states: "EDI adoption is hindered for small and medium-sized businesses due to the high costs of implementing and maintaining EDI systems, including software and integration expenses." This directly supports Option C as the primary reason for limited EDI use.

The IOFM APS Certification Program covers "Technology and Automation," including technologies like EDI. The curriculum's focus on "peer-tested best practices" acknowledges barriers to technology adoption, with cost being a significant factor for smaller organizations.

References:

IOFM Accounts Payable Specialist (APS) Certification Program, covering Technology and Automation SAP Concur: "EDI adoption is hindered for small and medium-sized businesses due to the high costs of implementing and maintaining EDI systems"

### NEW QUESTION # 62

Key elements essential for an effective vendor fraud prevention program include each of the following practices, EXCEPT:

- A. Confirmation of a physical address
- B. Requiring a W-9
- C. Checking government sanction lists
- D. Verifying that vendors are bonded

**Answer: D**

Explanation:

The Vendor Master File topic in the APS Certification Program emphasizes fraud prevention through robust vendor validation processes. Key practices include confirming a vendor's physical address, checking government sanction lists (e.g., OFAC), and

requiring a W-9 to verify tax identification numbers (TINs).

However, verifying that vendors are bonded (i.e., insured against financial loss) is not a standard requirement for vendor fraud prevention, as it is more relevant to specific industries (e.g., construction) and not universally applicable.

\* Option A (Confirmation of a physical address): Verifying a physical address ensures the vendor is a legitimate entity, reducing the risk of fraudulent shell companies. This is a key practice.

\* Option B (Verifying that vendors are bonded): Bonding is not a standard AP requirement for fraud prevention. It may apply to certain vendors (e.g., contractors), but it is not essential for all vendor fraud prevention programs. This is the correct answer.

\* Option C (Checking government sanction lists): Checking lists like OFAC (Office of Foreign Assets Control) ensures compliance with regulations and prevents payments to sanctioned entities, a critical fraud prevention step. This is a key practice.

\* Option D (Requiring a W-9): A W-9 provides the vendor's TIN, enabling verification with the IRS to prevent fraudulent identities and ensure tax compliance. This is a key practice.

Reference to IOFM APS Documents: The APS e-textbook under Vendor Master File lists "confirming physical addresses, checking sanction lists, and requiring W-9 forms" as essential for vendor fraud prevention. It notes that "bonding is not a universal requirement for vendor validation, though it may be relevant for specific contracts." The training video emphasizes vendor verification processes, highlighting address checks, sanction list reviews, and W-9 requirements but not bonding.

### NEW QUESTION # 63

What is one department that can particularly benefit from specific insights provided by the vendor master file?

- A. Audit
- B. Mailroom
- C. Manufacturing
- **D. Purchasing**

**Answer: D**

Explanation:

The Vendor Master File topic in the APS Certification Program highlights the vendor master file's role in providing data for various departments. The Purchasing department particularly benefits, as the vendor master file contains details like vendor performance, pricing, and spend history, enabling better supplier selection and negotiation.

\* Option A (Manufacturing): Manufacturing uses vendor data indirectly (e.g., for raw materials), but its primary focus is production, not vendor insights. Incorrect.

\* Option B (Purchasing): Correct. Purchasing relies on vendor master file data for supplier evaluation, contract terms, and spend analysis, directly benefiting from its insights.

\* Option C (Audit): Audit uses vendor data for compliance checks, but its role is verification, not strategic use of vendor insights. Less directly benefited than Purchasing.

\* Option D (Mailroom): The mailroom handles physical documents but does not use vendor master file insights for operational decisions. Incorrect.

Reference to IOFM APS Documents: The APS e-textbook under Vendor Master File states, "The vendor master file provides critical insights for Purchasing, enabling spend analysis and supplier management." The training video notes, "Purchasing benefits most from vendor master data, using it to optimize vendor relationships and costs."

### NEW QUESTION # 64

In order to get a sales tax exemption on goods purchased for resale, what must the buyer do?

- A. Supply a copy of a sales tax license to the seller
- B. Inform the state in writing that the tax will be paid by the buyer
- C. File a letter of intent with the local taxing jurisdiction
- **D. Provide an exemption certificate to the seller**

**Answer: D**

Explanation:

The Tax and Regulatory Compliance topic in the APS Certification Program covers sales tax exemptions, particularly for goods purchased for resale (e.g., by wholesalers or retailers). To claim a sales tax exemption, the buyer must provide an exemption certificate to the seller, documenting that the goods are for resale and not subject to sales tax at the point of purchase. The seller retains this certificate for audit purposes.

\* Option A (File a letter of intent with the local taxing jurisdiction): Incorrect. A letter of intent is not a standard requirement; the exemption is documented via a certificate provided to the seller.

\* Option B (Provide an exemption certificate to the seller): Correct. An exemption certificate (e.g., a resale certificate) verifies the buyer's intent to resell the goods, exempting the transaction from sales tax.

\* Option C (Inform the state in writing that the tax will be paid by the buyer): Incorrect. The buyer does not directly notify the state; the exemption is handled between buyer and seller via the certificate.

\* Option D (Supply a copy of a sales tax license to the seller): Incorrect. While a sales tax license may be relevant for the buyer's operations, the exemption certificate is the specific document required for resale exemptions.

Reference to IOFM APS Documents: The APS e-textbook under Tax and Regulatory Compliance states, "To claim a sales tax exemption for goods purchased for resale, the buyer must provide an exemption certificate to the seller, documenting the resale intent." The training video explains, "AP professionals ensure exemption certificates are collected for resale purchases to avoid unnecessary sales tax payments, maintaining compliance with state regulations."

## NEW QUESTION # 65

.....

As everybody knows, the most crucial matter is the quality of APS study question for learners. We have been doing this professional thing for many years. Let the professionals handle professional issues. So as for us, we have enough confidence to provide you with the best APS Exam Questions for your study to pass it. And we have the latest APS test guide. Only with strict study, we write the latest and the specialized study materials. We can say that our APS exam questions are the most suitable for examinee to pass the exam.

**Detailed APS Study Plan:** <https://www.itpassleader.com/IOFM/APS-dumps-pass-exam.html>

With the development of globalization, there are an increasing large number of jobs opportunities (APS latest dumps: Accredited Payables Specialist (APS) Certification Exam), but the competition among employees has become furious day by day, Dependable choice, They are windows software, PDF version and APP version of the Detailed APS Study Plan - Accredited Payables Specialist (APS) Certification Exam training material, IOFM APS Latest Dumps Questions And it really can help us to achieve excellent results.

For example, I remember one project I was working APS Exam Discount on, where people had problems taking responsibility, You just need to use your spare time to practice the Accredited Payables Specialist (APS) Certification Exam valid study material APS Exam Discount and remember Accredited Payables Specialist (APS) Certification Exam test answers skillfully, you will actual exam at your first attempt.
