Our C-S4PM-2504 practice materials enjoy great popularity in this line. We provide our C-S4PM-2504 practice materials on the superior quality and being confident that they will help you expand your horizon of knowledge of the exam. They are time-tested practice materials, so they are classic. As well as our after-sales services. We can offer further help related with our C-S4PM-2504 practice materials which win us high admiration. By devoting in this area so many years, we are omnipotent to solve the problems about the C-S4PM-2504 practice exam with stalwart confidence. Providing services 24/7 with patient and enthusiastic staff, they are willing to make your process more convenient.

SAP C-S4PM-2504 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• SAP S• 4HANA Cloud Public Edition Implementation: This section of the exam measures the skills of Implementation Consultants and covers the foundational aspects of deploying SAP S• 4HANA Cloud Public Edition in a business environment. It focuses on understanding system architecture, scope definition, and the technical and functional setup required for a successful implementation. The candidate is expected to have a strong grasp of how to execute the necessary configuration and adoption tasks that align with customer-specific requirements.
Topic 2	<ul style="list-style-type: none">• SAP Activate Methodology: This section of the exam measures skills of Business Process Architects and covers the structure and practical application of SAP Activate. It includes understanding the phases of the methodology: Discover, Prepare, Explore, Realize, Deploy, and Run, and the use of supporting tools such as SAP Roadmap Viewer and SAP Best Practices. Candidates are expected to demonstrate the ability to apply this methodology to streamline cloud implementation processes and ensure agile delivery.
Topic 3	<ul style="list-style-type: none">• Project Management• Organizational Change Management (OCM): This section of the exam measures the skills of Project Managers and covers the key principles of managing SAP cloud implementation projects, including team coordination, stakeholder communication, and change management. It evaluates the ability to lead project activities, manage expectations, and handle resistance during digital transformation. Emphasis is placed on aligning organizational goals with implementation strategies to ensure effective user adoption and project success.

Reliable C-S4PM-2504 Test Dumps - C-S4PM-2504 Trustworthy Pdf

TestSimulate web-based practice exam is compatible with all browsers and operating systems. Whereas the C-S4PM-2504 PDF file is concerned this file is the collection of real, valid, and updated SAP C-S4PM-2504 exam questions. You can use the SAP C-S4PM-2504 PdfFormat on your desktop computer, laptop, tabs, or even on your smartphone and start SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects (C-S4PM-2504) exam questions preparation anytime and anywhere.

SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects Sample Questions (Q81-Q86):

NEW QUESTION # 81

What are objectives of the Executive board as opposed to the Steering Committee? Note: There are 3 correct answers to this question.

- A. To approve project results
- B. To set business vision and goals
- C. To allocate project funding
- D. To approve the project vision
- E. To approve project goals

Answer: B,C,D

NEW QUESTION # 82

When doing a new implementation on premise or private cloud, which system is recommended to demonstrate standard functionality in the Explore phase?

- A. Trial
- B. Starter
- C. Development
- D. Sandbox

Answer: D

NEW QUESTION # 83

In the SAP Activate run phase the new system is monitored, maintained, and optimized to ensure it runs smoothly and efficiently. Which change management activity can only be realized in the run phase of the cloud implementation?

- A. Development of the user adoption strategy
- B. Mapping of SAP roles to employees
- C. Conduction of a pulse check
- D. Measurement of actual user adoption metrics

Answer: D

Explanation:

The Run phase of the SAP Activate methodology focuses on operating, monitoring, and optimizing the SAP S/4HANA Cloud Public Edition system post-go-live. Certain change management activities are unique to this phase due to their reliance on live system usage.

* Option A: Mapping of SAP roles to employeesIncorrect. Role mapping occurs in the Explore or Realize phases, when business roles are aligned with employee responsibilities. TheSAP S/4HANA Cloud Security Guidestates, "Role mapping is completed pre-go-live to ensure users have appropriate access upon system activation."

* Option B: Development of the user adoption strategyIncorrect. The user adoption strategy is developed in the Prepare or Explore phases to guide change management efforts. TheSAP S/4HANA Cloud OCM Guidenotes, "The user adoption strategy is defined early in the project to drive effective change management throughout the implementation."

* Option C: Measurement of actual user adoption metricsCorrect. Measuring actual user adoption metrics, such as system usage or process adherence, can only occur in the Run phase when the system is live and users are actively engaging with it. TheSAP Activate Methodology Guideexplains, "In the Run phase, change management includes measuring actual user adoption metrics to assess the effectiveness of adoption efforts and identify areas for improvement."

* Option D: Conduction of a pulse checkIncorrect. Pulse checks, which gauge stakeholder sentiment, can be conducted in multiple phases, including Prepare and Explore, to monitor change readiness. The SAP OCM Guideclarifies, "Pulse checks are performed throughout the project lifecycle to assess stakeholder engagement, not exclusively in the Run phase." Extract from Official Documentation:

* SAP Activate Methodology Guide(SAP Community,<https://community.sap.com>): "The Run phase includes unique change management activities such as measuring actual user adoption metrics, which rely on live system data to evaluate the success of adoption initiatives."

* SAP S/4HANA Cloud OCM Guide(SAP Help Portal,<https://help.sap.com>): "Measuring user adoption metrics is a Run phase activity that assesses how effectively users are engaging with the SAP S/4HANA Cloud system, enabling targeted optimization efforts."

Additional Context:

Measuring user adoption metrics in the Run phase provides actionable insights into system usage, helping organizations refine training, address resistance, and maximize ROI. This activity is unique to the post-go-live environment, distinguishing it from planning or preparatory change management tasks.

:

SAP Help Portal: SAP S/4HANA Cloud OCM Guide (<https://help.sap.com>).

SAP Community: SAP Activate Methodology Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Security Guide: Details role mapping.

SAP S/4HANA Cloud Study Guide: Explains Run phase activities.

NEW QUESTION # 84

After integration requirements have been finalized, what is used to analyze, design, and document the integration strategy?

- A. Integration and API List
- B. SAP Business Accelerator Hub
- C. SAP Cloud ALM Requirements app
- **D. Integration Solution Advisory Methodology**

Answer: D

Explanation:

Finalizing integration requirements is a critical step in SAP S/4HANA Cloud Public Edition implementation.

The subsequent analysis, design, and documentation of the integration strategy require a structured methodology.

* Option A: SAP Business Accelerator HubIncorrect. The SAP Business Accelerator Hub provides prebuilt integration content and APIs but is not a methodology for analyzing or designing integration strategies.

* Option B: Integration Solution Advisory MethodologyCorrect. The Integration Solution Advisory Methodology (ISA-M) is SAP's recommended framework for analyzing, designing, and documenting integration strategies. It provides a structured approach to assess integration needs, select appropriate technologies, and document the strategy. SAP's official documentation emphasizes ISA-M's role in integration planning.

* Option C: Integration and API ListIncorrect. The Integration and API List is a reference for available integrations but does not provide a methodology for strategy development.

* Option D: SAP Cloud ALM Requirements appIncorrect. The SAP Cloud ALM Requirements app is used for capturing and managing requirements, not for designing integration strategies.

:

SAP Integration Solution Advisory Methodology Guide: Details the ISA-M framework (<https://www.sap.com>).

SAP S/4HANA Cloud Public Edition Implementation Guide: Mentions ISA-M for integration strategy development.

SAP Activate Methodology: Includes integration planning as part of the implementation process.

NEW QUESTION # 85

When doing a new implementation on premise or private cloud, which system is recommended to demonstrate standard functionality in the Explore phase?

- A. Trial
- B. Starter
- C. Development
- **D. Sandbox**

Answer: D

Explanation:

In the Explore phase of a new implementation for SAP S/4HANA on-premise or Private Cloud, a system is used to demonstrate standard functionality, typically SAP Best Practices, to validate the solution fit during Fit-to-Standard workshops.

* Option A: DevelopmentIncorrect. The Development system is used for configuration and custom development in the Realize phase, not for demonstrating standard functionality. TheSAP S/4HANA Implementation Guidestates, "Development systems are for building and testing configurations, not for demonstrating standard processes in the Explore phase."

* Option B: StarterIncorrect. The Starter system is specific to SAP S/4HANA Cloud Public Edition, not on-premise or Private Cloud implementations. TheSAP S/4HANA Cloud Study Guidenotes, "The Starter system is used in Cloud Public Edition, while on-premise or Private Cloud uses other systems for exploration."

* Option C: SandboxCorrect. The Sandbox system is recommended for demonstrating standard functionality inon-premise or Private Cloud implementations during the Explore phase. TheSAP Activate Methodology Guideexplains, "For new implementations of SAP S/4HANA on-premise or Private Cloud, the Sandbox system is used in the Explore phase to demonstrate standard functionality and support Fit-to-Standard workshops."

* Option D: TrialIncorrect. Trial systems are for evaluation or training, not for active implementation.

TheSAP S/4HANA Implementation Guideclarifies, "Trial systems are for exploration outside of implementation projects, not for demonstrating standard functionality during the Explore phase." Extract from Official Documentation:

* SAP Activate Methodology Guide(SAP Community,<https://community.sap.com>): "In the Explore phase for SAP S/4HANA on-premise or Private Cloud, the Sandbox system is recommended to demonstrate standard functionality, enabling Fit-to-Standard workshops to validate the solution fit."

* SAP S/4HANA Implementation Guide(SAP Help Portal,<https://help.sap.com>): "The Sandbox system is used in on-premise or Private Cloud implementations to showcase SAP Best Practices and standard functionality during the Explore phase, supporting requirement validation." Additional Context:

The Sandbox system's role in on-premise and Private Cloud implementations mirrors the Starter system's role in Public Cloud, providing a safe environment to explore standard processes without impacting development or production systems. This aligns with SAP Activate's focus on early validation to minimize customizations.

:

SAP Help Portal: SAP S/4HANA Implementation Guide (<https://help.sap.com>).

SAP Community: SAP Activate Methodology Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Study Guide: Details system roles.

SAP Activate Methodology: Outlines Explore phase systems.

NEW QUESTION # 86

.....

The advancements in computer technology are faster now than ever before, (at the same time) bringing much convenience to our daily life and work. SAP C-S4PM-2504 braindumps materials can help workers pass exams and get certifications. If workers get good computer certifications you will apply for good positions and get nice opportunities. C-S4PM-2504 Braindumps materials will assist you to achieve your ideal and may even change people's life.
