PEGACPSSA23V1 Test Vce Free & PEGACPSSA23V1 Exam Study Solutions

It is necessary to strictly plan the reasonable allocation of PEGACPSSA23V1 test time in advance. Many students did not pay attention to the strict control of time during normal practice, which led to panic during the process of examination, and even some of them are not able to finish all the questions. If you purchased PEGACPSSA23V1 learning dumps, each of your mock exams is timed automatically by the system. PEGACPSSA23V1 learning dumps provide you with an exam environment that is exactly the same as the actual exam. It forces you to learn how to allocate exam time so that the best level can be achieved in the examination room. At the same time, PEGACPSSA23V1 Test Question will also generate a report based on your practice performance to make you aware of the deficiencies in your learning process and help you develop a follow-up study plan so that you can use the limited energy where you need it most. So with PEGACPSSA23V1 study tool you can easily pass the exam.

Pegasystems Certified Pega Senior System Architect 23 Sample Questions (Q33-Q38):

NEW QUESTION # 33
You have a requirement to associate users in different units to the same work queue.
How do you implement this requirement?

- A. Associate the users to a common work group. Then associate a work queue to the work group.
- B. Associate the users to a common work queue. Then associate the work queue to the appropriate units.
- C. Associate the users to a common work group. Then associate the work group to the appropriate units.

- D. Associate the users to a common unit. Then associate a work queue to the common unit.

Answer: A

Explanation:
To implement the requirement of associating users in different units to the same work queue, you associate the users to a common work group and then associate a work queue to that work group. This allows users from different units, who are part of the same work group, to access the same work queue. References: Pega official documentation on work groups and work queues.

NEW QUESTION # 34
There are five instances of a rule in the rules cache. The only differences between these are the circumstance settings and ruleset version. The operator's access group has access to all ruleset versions.
On 1 June 2020, which instance is chosen by rule resolution if .Country = Algeria?

- A. SelfService:01-01-03 (Circumstance: None, Base Rule checked)
- B. SelfService:01-01-05 (No Circumstance)
- C. SelfService:01-01-01 (No Circumstance)
- D. SelfService:01-01-02 (Circumstance: Start Date = 1 January 2020; End Date = 31 December 2020)
- E. SelfService:01-01-01 (Circumstance: .Country=Algeria)

Answer: E

Explanation:
On 1 June 2020, rule resolution would choose the instance of the rule that is circumstanced for Algeria, provided that the rule's availability is not blocked or withdrawn and the ruleset version is accessible by the operator's access group. The specific rule circumstanced for Algeria would take precedence over the base rule or other circumstanced rules that do not match the circumstance condition. References: Pega SSA course materials on circumstancing rules.

NEW QUESTION # 35
Organize the classes and associated rules in the appropriate Enterprise Class Structure (ECS) layer.

Answer:

Explanation:

NEW QUESTION # 36
Which two configurations do you implement when using a Pega Web Mashup? (Choose Two)

- A. Configure the application permissions by specifying a list of trusted domains in the application rule.
- B. Add an access group for the application rules that need to be accessed from the external system.
- C. Configure a node-level data page to hold security access information about the external system.
- D. Leverage the standard authentication service IACAuthentication and update the authentication activities.

Answer: A,D

Explanation:
A: When using a Pega Web Mashup, leveraging the standard authentication service IACAuthentication and updating the authentication activities to match the external system's requirements is a common practice.
D: Configuring application permissions by specifying a list of trusted domains in the application rule is important for security purposes and to control which external domains are allowed to embed the mashup. Reference: Pega official documentation on Pega Web Mashup configuration.

NEW QUESTION # 37
Items selected by a user need to be copied to a page list property when the user submits the form. How do you copy the items?

- A. Add a data transform to the flow action as a post-processing action.

- B. Create a validate rule to copy the selected items.
- C. Add a data transform to the flow action as a pre-processing action.
- D. Create a declare expression with the page list property as the target.

Answer: A

Explanation:
To copy items selected by a user to a page list property when the user submits the form, add a data transform to the flow action as a post-processing action (A). Post-processing actions occur after the user submits the form, making it the right moment to transfer the selected items into the page list property for further processing or storage.Reference: Pega Community documentation on data transforms and flow action post-processing.

NEW QUESTION # 38

......

If you start to prapare for the PEGACPSSA23V1 exam from books, then you will find that the content is too broad for you to cope with the exam questions. So, we just pick out the most important knowledge to learn. Through large numbers of practices, you will soon master the core knowledge of the PEGACPSSA23V1 Exam. It is important to review the questions you always choose mistakenly. You should concentrate on finishing all exercises once you are determined to pass the PEGACPSSA23V1 exam. And you will pass for sure as long as you study with our PEGACPSSA23V1 study guide carefully.
